PART 1432—RATIONING OF CONSUMERS' DURABLE GOODS

[RO 9A,[1] Amdt. 10]

STOVES

A Rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Ration Order 9A is amended as follows:

1. Section 7.8 is amended to read as follows:

SEC. 7.8 *Damaged stoves may be transferred to certain persons without certificates and without application for approval*—(a) *General.* Damaged stoves (and undamaged stoves included in the same lot as the damaged stoves if the lot of stoves is transferred as a unit) may be transferred to, and acquired by, the following persons without the surrender of certificates and without application for approval of the transfer:

(1) A person who has insured the stoves against loss or damage; or

(2) A common or contract carrier in connection with his liability or payment for damage to the stove; or

(3) A person engaged primarily in the business of adjusting losses or salvaging damaged articles who takes possession of such articles on the occurrence of casualties or in direct connection with the adjustment of losses resulting from casualties.

(b) *Reporting acquisition of damaged stoves.* A person who acquires stoves under paragraph (a) of this Section must, within five (5) days after acquiring them, submit a signed report to the OPA District Office serving the area where his principal business office is located (or if he has no business office, the District Office serving the area where he lives), giving the following information;

(1) His name and address;

(2) The name and address of the person from whom the stoves were acquired;

(3) The total number of stoves, by type, acquired;

(4) The date when the stoves were acquired;

(5) The number of stoves damaged; and

(6) That the stoves were acquired without giving up certificates.

If he cannot give the quantity and type of stoves or the number of damaged stoves acquired on his first report, he must describe the approximate number of stoves, by type, and must give the exact information as soon as he can. He must keep a copy of each report required by this paragraph.

(c) *Disposal of stoves acquired under paragraph* (a)—(1) *General.* A person who acquires a stove pursuant to paragraph (a) may sell or transfer the stove (whether or not repaired) in the same manner that a dealer or distributor may sell or transfer stoves. If the sale or transfer must be made in exchange for a certificate, he must surrender the certificate within thirty (30) days to the OPA District Office where he is required to file his report.

(2) *When damaged stoves may be transferred certificate-free to dealers, distributors or manufacturers without approval; transferees must report.* A person who acquires a stove pursuant to paragraph (a), may also sell or transfer the stove (whether or not repaired), without the surrender of a certificate and without application for approval of the transfer, to a dealer, distributor or manufacturer. If the person to whom the stove is transferred is a dealer or distributor, he must, within five (5) days, file with his Board a report containing the same information required in paragraph (b). If he is a manufacturer, such information shall be included in his monthly report to the War Production Board. He must keep a copy of each report required by this subparagraph (2).

(3) *Transfers of damaged stoves by dealers or distributors who acquired them certificate-free.* When the dealer or distributor (to whom a stove has been sold or transferred under the preceding subparagraph) makes a sale or transfer of the stove (whether or not repaired), requiring the surrender of a certificate to him, he must promptly surrender the certificate to his Board. Until he has done so, he may not use any certificate to acquire that type of stove for inventory.

2. Section 7.9 is amended to read as follows:

SEC. 7.9 *Damaged stoves may be transferred without certificates upon approval of the Board or District Office*—(a) *Making application.* A person who has a damaged stove may apply for permission to transfer the stove without obtaining a certificate for it. If he is a consumer, dealer or distributor, he must apply to his Board; otherwise, he must apply to the OPA District Office serving the area where his principal business office is located (or if he has no business office to the District Office serving the area where he lives). (Other sections of this Article VII explain when stoves, whether or not damaged, may be transferred certificate-free.) The application must be signed and must state:

(1) The applicant's name and address;

(2) The number and type of stoves damaged;

(3) The cause and nature of the damage;

(4) How and when the stoves were acquired; and

(5) What efforts he has made to repair and sell or otherwise transfer the stoves for certificates and the reasons why he is unable to do so.

(b) *When permission may be granted.* If the Board or District Office finds that reasonable efforts have been made by the applicant to repair and sell or otherwise transfer the damaged stove in exchange for a certificate and that the stove cannot be sold or transferred for a certificate, it may grant permission, in writing, to the applicant to sell or transfer that stove without obtaining a certificate.

3. Section 7.9a is added as follows:

SEC. 7.9a *Dealers and distributors may get certificates to replace damaged stoves transferred or to be transferred without certificates*—(a) *Making application.* A dealer or distributor who sells or transfers a damaged stove without obtaining a certificate pursuant to section 7.8 (a), or who has obtained permission to so sell or transfer the stove under section 7.9, may apply to his Board for a certificate for that type of stove. The application must state:

(1) His name and address;

(2) The number and type of stoves transferred or to be transferred by him;

(3) The number and type of certificates, if any, given up by him for those stoves;

(4) How he acquired the stoves, if he did not give up certificates for them;

(5) The name and address of the person to whom the stoves were transferred, if transferred under section 7.8 (a); and

(6) That the stoves were transferred by the applicant without obtaining a certificate pursuant to section 7.8 (a) or 7.9, or will be so transferred pursuant to section 7.9.

(b) *When application may be granted.* If the Board finds that the applicant has sold or transferred damaged stoves without obtaining certificates in accordance with section 7.8 (a) or section 7.9, or has obtained permission to so sell or transfer damaged stoves in accordance with section 7.9, and that the stoves were acquired by the applicant before September 1, 1943 or for certificates (or were transferred in exchange for stoves acquired in that manner), it will issue to the applicant certificates for those stoves. However, if an applicant has received permission to sell or transfer damaged stoves certificate-free and the Board issues to him certificates for the stoves before he has sold or transferred them, he must, if he sells or transfers any such stove for a certificate, promptly surrender that certificate to his Board.

This amendment shall become effective on July 29, 1944.

Chapter XIII—Petroleum Administration for War

[PDO 13, as Amended July 25, 1944]

PART 1526—MARKETING FUEL OIL

TRANSFER AND CONVERSION OF FUEL OIL

The fulfillment of the requirements for the defense of the United States has created in certain areas a shortage in the supply of fuel oil for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest to promote the national defense and to provide adequate supplies of fuel oil for military and other essential uses.

§ 1526.3 *Petroleum Distribution Order No. 13, as amended July 25, 1944*—(a) *Definitions.* (1) "Person" means any individual, partnership, corporation, association, government or government agency, or any other organized group or enterprise.

(2) "Fuel oil" means any liquid petroleum product commonly known as fuel oil, including grades Nos. 1, 2, 3, 4, 5, and 6, Bunker "C," Diesel oil, kerosene, range oil, gas oil, or any other liquid petroleum products (except gasoline) used for the same purposes as the above designated grades.

(3) "Alternate fuel" means any fuel other than fuel oil, electricity, natural gas, manufactured gas or mixed natural and manufactured gas.

(4) "Reinstalled facility" means any equipment formerly using fuel oil which has been converted, in Areas One and Two, subsequent to July 31, 1942, and in Area Three, subsequent to July 22, 1943, to the use of an alternate fuel and which is, or is to be, reconverted to the use of fuel oil, but does not include:

(i) Internal combustion engines.

(ii) Equipment designed and used for domestic cooking or illumination, or for raising and preparing for market crops, other agricultural products, poultry, or livestock.

(iii) Equipment designed to heat the space adjacent to such equipment without the use of pipes or ducts for conveying heat to such space.

(5) "New facility" means any fuel oil burning equipment other than a reinstalled facility acquired or installed in Areas One and Two subsequent to July 31, 1942, and in Area Three subsequent to July 22, 1943, but does not include:

(i) Internal combustion engines.

(ii) Equipment designed and used for domestic cooking or illumination, or for raising and preparing for market crops, other agricultural products, poultry, or livestock.

(iii) Equipment designed to heat the space adjacent to such equipment without the use of pipes or ducts for conveying heat to such space.

(iv) The replacement of worn-out parts or the replacement of fuel oil burning equipment for the purpose of increasing the efficiency thereof.

(6) "Standby facility" means any equipment (other than fireplaces) in serviceable operating condition, or which can be placed in serviceable operating condition, designed to use an alternate fuel, for the operation of which such fuel is available.

(7) "Coal spraying equipment" means any equipment designed to use or using fuel oil or any other petroleum product for the purpose of applying such fuel oil or other petroleum product to coal.

(8) "Passenger automobile" means any motor vehicle, other than a motorcycle, built primarily for the purpose of transporting passengers and having a rated seating capacity of seven persons or less.

(9) "Transfer" means to sell, give, exchange, lease, lend, deliver, receive, supply or furnish, and includes the acquisition of title by legal process or operation of law, such as, but not limited to, the acquisition of title by will, inheritance, or foreclosure; it also includes the use by any dealer or supplier of fuel oil held by him; but does not include the creation of a security interest or security title involving no change in possession. Delivery to a carrier for shipment, or by carrier in the course of or in completion of shipment, shall not be deemed a transfer to or by such carrier.

(10) "Area One" means the States of Connecticut, Delaware, Florida (east of the Appalachicola River), Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia.

(11) "Area Two" means the States of Oregon and Washington.

(12) "Area Three" means the States of Alabama, Arizona, Arkansas, California, Colorado, Florida (west of the Appalachicola River), Idaho, Louisiana, Mississippi, Montana, Nevada, New Mexico, Texas, Utah, and Wyoming.

(b) *Prohibited transfers of fuel oil.* (1) No person shall transfer or accept a transfer of fuel oil or any other petroleum product, other than grades Nos. 5, 6, and Bunker "C" fuel oil having an A. P. I. gravity of 20° or below, and asphalt and asphaltic products, for use in the operation of coal spraying equipment.

(2) No person shall transfer or accept a transfer of fuel oil for use in the operation of new facilities or reinstalled facilities except:

(i) Where, in the case of new construction, the new facilities were specified in the construction contract and the foundation under the main part of the structure in which the new facilities were to be installed was completed, in Areas One and Two, prior to July 31, 1942, or in Area Three prior to July 22, 1943;

(ii) Where, in the case of either new or reinstalled facilities, the person using such facilities cannot use an alternate fuel either because such fuel is unavailable or because technical utilization factors prevent its use;

(iii) Where the Office of Price Administration, under Revised Ration Order 11, issues a ration for fuel oil for use in a reinstalled facility in any case:

(*a*) In which a person is required under Revised Ration Order 11 to apply for a ration on OPA Form R-1100—Revised.

(*b*) In which a person is required under Revised Ration Order 11 to apply for a ration on OPA Form R-1101—Revised, and the annual ration is less than 10,000 gallons.

(3) No person shall transfer or accept a transfer of fuel oil for use in the operation of fuel oil burning equipment where standby facilities are available unless such standby facilities are operated to take the place of such equipment to the maximum possible extent and to effect the maximum reduction of fuel oil requirements.

(4) No person shall transfer or accept a transfer of fuel oil for the operation of a passenger automobile.

(5) No person shall transfer or accept a transfer of fuel oil for use in the operation of weed spraying or weed burning equipment for weed control purposes on any road, street, highway, or railway right-of-way.

(c) *Directions as to conversions.* The Petroleum Administrator for War or any designated representative of the Petroleum Administration for War may, from time to time, examine and investigate the fuel oil burning facilities owned or operated by any person for the purpose of determining whether such equipment can be converted to the use of a fuel other than fuel oil. In making such investigation, facts and circumstances which may relate to the particular problem, including the availability of substitute fuel, shall be considered. If it is found that the fuel oil burning facilities of any person may be converted to the use of a fuel other than fuel oil and that a supply of such fuel is available, without any unreasonable expenditure upon the part of the person and without working any exceptional or unreasonable hardship upon such person, then the Petroleum Administrator for War may, after notice sufficient to permit such conversion, forbid further transfers of fuel oil for use in such facilities.

(d) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may file an appeal setting forth the pertinent facts and reasons why he considers himself entitled to relief. All appeals shall be filed in quadruplicate.

(e) *Appeals and correspondence.* All correspondence and all appeals filed under paragraph (d) shall, unless otherwise directed, be addressed to the District Director of Distribution and Marketing, Petroleum Administration for War, at:

(1) 122 East 42nd Street, New York, New York, if the fuel oil is to be delivered or used in the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Pennsylvania, Maryland, Virginia, West Virginia, North Carolina, South Carolina, Georgia, or Florida, or the District of Columbia.

(2) 1200 Blum Building, 624 South Michigan Avenue, Chicago, Illinois, if the fuel oil is to be delivered or used in the States of Ohio, Kentucky, Tennessee, Indiana, Michigan, Illinois, Wisconsin, Minnesota, Iowa, Missouri, Oklahoma, Kansas, Nebraska, South Dakota, or North Dakota.

(3) 245 Mellie Esperson Building, Houston, Texas, if the fuel oil is to be delivered or used in the States of Alabama, Mississippi, Louisiana, Arkansas, Texas, or New Mexico.

(4) 320 First National Bank Building, Denver, Colorado, if the fuel oil is to be delivered or used in the States of Montana, Wyoming, Colorado, Utah, or Idaho.

(5) 855 Subway Terminal Building, Los Angeles, California, if the fuel oil is to be delivered or used in the States of Arizona, California, Nevada, Oregon, or Washington, or the Territories of Alaska or Hawaii.

(f) *Violations.* Any person who wilfully violates any provision of this order, or who, by any act or omission, falsifies records kept or information furnished in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment.

Any person who wilfully violates any provision of this order may be prohibited from delivering or receiving any material under priority control, or such other action may be taken as is deemed appropriate.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-910]

CONSOLIDATED ELECTRIC AND GAS CO. AND PORTSMOUTH GAS CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 22nd day of July, A. D. 1944.

Notice is hereby given that declarations or applications (or both) have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Consolidated Electric and Gas Company ("Consolidated"), a registered holding company, and its subsidiary, Portsmouth Gas Company ("Portsmouth").

All interested persons are referred to said documents which are on file in the office of the Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

Portsmouth proposes to sell to Allied New Hampshire Gas Company ("Allied"), a gas utility company engaged in the manufacture and distribution of gas in the State of New Hampshire, all of its properties and other assets (except certain minor claims) used in the manufacture and distribution of manufactured gas in the City of Portsmouth, New Hampshire, for $160,000 in cash, subject to adjustment for net current assets at April 30, 1944, and current earnings thereafter to the date of closing. As part of the purchase price, Allied will assume all of the outstanding contracts, obligations and liabilities of Portsmouth at the time of sale, except any indebtedness owing at that time by Portsmouth to Consolidated, and any tax liabilities of Portsmouth.

The applicants (or declarants) state that all of the outstanding securities of Portsmouth are owned by Consolidated and are pledged under the indenture securing the Federated Utilities, Inc. First Lien Collateral Trust Gold Bonds, 5½% Series, due March 1, 1957 ("Federated Bonds"), and that the Trustee under said indenture holds sufficient funds for the satisfaction and discharge of all outstanding Federated Bonds in accordance with the terms of the plan approved by this Commission under the Public Utility Holding Company Act of 1935 (File No. 70-812) and approved subsequently by order of the United States District Court for the District of Delaware, entered April 11, 1944. The applicants (or declarants) further state that all of the securities of Portsmouth are subject to the second lien of the Collateral Trust Indenture of Consolidated to Continental Illinois National Bank and Trust Company of Chicago, as Trustee, dated August 1, 1932, securing said Collateral Trust Bonds of Consolidated. Consolidated proposes to have the securities of Portsmouth released from the lien of the Federated Bonds and deposited under the lien of the indenture securing the Collateral Trust Bonds of Consolidated.

The proceeds of the sale will be delivered to Consolidated in liquidation of Portsmouth. A 6% demand note of Portsmouth payable to Consolidated in the principal amount of $17,000 will be cancelled prior to such liquidation, and Consolidated will deposit the sum so received in liquidation under its Collateral Trust Indenture. Consolidated will ultimately surrender to Portsmouth in connection with its liquidation and dissolution all of the outstanding stock of Portsmouth, consisting of 293 shares of 6% cumulative preferred stock ($100 par value) and 5,000 shares of common stock (no par value), which will thereupon be cancelled.

The funds so delivered to the Trustee under the Collateral Trust Indenture of Consolidated will be used to effect the retirement of Consolidated's Collateral Trust Bonds by purchases thereof in the open market.

The filing states that the authorization of the Public Service Commission of New Hampshire of the acquisition by Allied New Hampshire Gas Company of the utility assets of the Portsmouth Gas Company will be obtained.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said matters and that said applications or declarations shall not be granted or permitted to become effective except pursuant to further order of this Commission.

It is ordered, That a hearing on said matters under the applicable provisions of said act and rules of the Commission thereunder be held on August 4, 1944, at 10:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room in which the hearing will be held.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing copies of this order by registered mail to Consolidated Electric and Gas Company and Portsmouth Gas Company; and that notice of said hearing be given to all persons by publication of this order in the FEDERAL REGISTER. Any persons desiring to be heard or otherwise wishing to par-

ticipate in these proceedings, shall file with the Secretary of the Commission on or before August 1, 1944 his request or application therefor, as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That Henry C. Lank or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. The officer so designated is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by said applications or declarations, particular attention will be directed at the hearing to the following matters and questions:

(1) Whether the consideration to be received for the assets of Portsmouth is reasonable;

(2) Whether the proposed use of the proceeds of the sale of said assets in the acquisition of Consolidated's Collateral Trust Bonds in the open market is in conformity with the applicable provisions of the Act;

(3) Generally, whether in any respect, the proposed transactions are detrimental to the public interest or to the interest of investors or consumers or will tend to circumvent any provisions of the Act or the rules and regulations promulgated thereunder;

(4) Whether, if the proposed transactions are authorized, the imposition of terms and conditions is necessary and appropriate in the public interest or for the protection of investors and consumers and, if so, what terms and conditions should be imposed.

By the Commission.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 24th day of July, 1944.

Notice is hereby given that an application, or application-declaration, has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by NY PA NJ Utilities Company, a registered holding company. Sections 9 (a) and 10 of the act are designated by NY PA NJ Utilities Company as applicable to the acquisition by it of the 712,411 shares of the common stock of Jersey Central Power & Light Company. NY PA NJ Utilities Company states that the Board of Public Utility Commissioners of the State of New Jersey has jurisdiction "over the transfer upon the books of Jersey Central Power & Light Company of the 712,411 shares of common stock of that company to the name of NY PA NJ Utilities Company", and that no Federal commission other than this Commisison has jurisdiction over the proposed transaction.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to such matters:

It is ordered, That a hearing on such matters under the applicable provisions of said act and the rules of the Commission thereunder be held on the 11th day of August 1944, at 10:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by said filing, particular attention will be directed at such hearing to the following matters and questions:

1. Whether the proposed acquisition by NY PA NJ Utilities Company of the shares of common stock of Jersey Central Power & Light Company will serve the public interest by tending towards the economical and efficient development of an integrated public utility system;

2. Whether the bid to be made, and the consideration to be paid, by NY PA NJ Utilities Company for the shares of common stock of Jersey Central Power & Light Company to be sold at public auction is reasonable and bears a fair relation to the sums invested in and the earning capacity of the assets underlying such shares of common stock;

3. Whether the fees and expenses involved are for necessary services and are reasonable in amount; and

4. Generally, whether the proposed transaction is in all respects in the public interest and in the interest of investors and consumers and consistent with all applicable requirements of the act and the rules thereunder, or, if not, whether and what modifications or terms and conditions should be required or imposed to satisfy the statutory standards.

It is further ordered, That NY PA NJ Utilities Company cause notice of such hearing to be given to all holders of National Public Service Corporation Secured Gold Debentures, 5% Series, due 1978 (insofar as the identity of such Debenture holders is known or available to NY PA NJ Utilities Company), at least ten days prior to the date of such hearing, by (1) causing to be mailed to the last known address of each of said Debenture holders notice of the date of hearing, and (2) publishing notice of such hearing in a newspaper of general circulation in each of the cities of New York, Chicago, Philadelphia and Boston.

In the matter of The Montana Power Company and American Power & Light Company; Glacier Production Company and American Power & Light Company.

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 24th day of July, A. D. 1944.

Notice is hereby given that joint applications or declarations (or both) have been filed with this Commission by American Power & Light Company ("American"), a registered holding company, and its subsidiary companies, The Montana Power Company ("Montana") and Glacier Production Company ("Glacier"), pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated by this Commission thereunder. All interested persons are referred to said document, which is on file in the office of this Commission, for a statement of the transactions therein proposed which are summarized as follows:

Glacier presently owns and operates oil and gas production properties and a gasoline absorption plant. It also owns 32,894 shares (32.42%) of the capital stock of Inland Empire Refineries, Incorporated. Glacier has securities outstanding consisting of $650,000 principal amount of notes payable to American, $3,690,000 principal amount of debentures, 6's due 1946, owned by Montana, and 6,000 shares of common stock having a stated value of $660,000 also owned by Montana.

Montana proposes to sell and American to buy all of the securities of Glacier owned by Montana, consisting of the 6,000 shares of common stock and the $3,690,000 principal amount of debentures, for a cash consideration of $10,000,000 plus adjustments for prepaid insurance, certain automotive equipment, additions since date of contract to sell, and net current assets, and less an amount of cash computed at the rate of $60,000 per month since the date of the contract to sell. As additional consideration American agrees to cause Glacier to convey, or to itself convey, title to the natural gas properties of Glacier to Montana and to cause any successor in interest to the oil properties to continue the operation and development of the gas properties to be so conveyed to Montana.

American will then cause Glacier to pay off in cash the $650,000 principal amount of notes plus accrued interest held by American. American will then surrender to Glacier the $3,690,000 principal amount of debentures acquired by American from Montana and Glacier will transfer to American in liquidation and dissolution all of the above-mentioned properties, subject to any outstanding liabilities which may then exist.

American will then sell to Union Oil Company of California ("Union"), a non-affiliated company, the oil production properties and gasoline absorption plant and the 32,894 shares of capital stock in Inland Empire Refineries, Incorporated for a cash consideration equal to the price to be paid by American to Montana as above set forth exclusive of the payment for the net current assets of Glacier which will be retained for the benefit of American. As additional consideration Union, as the successor in interest of Glacier, has agreed to enter into a contract obligating itself to continue the development and operation of the gas production properties to be conveyed to Montana by American in accordance with the undertaking to that effect given by American to Montana under the contract between them.

American will then convey and Montana will acquire the gas production properties and facilities in accordance with the contract of purchase of the Glacier securities between Montana and American.

(7) What terms and conditions, if any, are necessary or appropriate in the public interest or the interest of investors or consumers to insure compliance with the requirements of the Public Utility Holding Company Act of 1935, or any rules, regulations or orders promulgated thereunder.

It is further ordered, That in the interest of expeditious procedure all evidence with respect to Glacier Production Company, The Montana Power Company, American Power & Light Company, and Electric Bond and Share Company contained in the record of Electric Bond and Share Company, File No. 59-12, so far as is relevant to the issues above stated, shall be incorporated in the record of the proceeding herein ordered and shall be regarded as evidence duly adduced in the present proceeding, subject to the same objections and exceptions preserved in the record of the proceeding in which first introduced.

PART 3191—CIVILIAN AIRCRAFT

[Preference Rating Order P–47, as Amended July 26, 1944]

§ 3191.21 *General Preference Rating Order P–47*—(a) *Purpose and scope.* The purpose of this order is to provide certain persons operating civilian type aircraft essential to the war effort with a uniform procedure for obtaining material for the operation of aircraft and for aircraft facilities both in the case of controlled materials obtained by use of allotment symbols under the Controlled Materials Plan and in the case of materials or products, including components, obtained by preference ratings.

(b) *Definitions.* (1) "Aircraft facility" means any material, equipment, machinery or structure used in connection with the operation or shelter or the maintenance or repair of aircraft. The term does not include "aircraft and aircraft products" as defined in Order L–48. (The term "aircraft and aircraft products" is defined in Order L–48 to mean airplanes, airframes, airplane propulsion engines, airplane propellers, gliders and aircraft training devices designed to simulate actual flying conditions.)

(2) "Operator" means any individual, partnership, association, business, trust, corporation or any organized group of persons (whether incorporated or not) other than the Army or Navy of the United States which is engaged in:

(i) The operation of a commercial airline under certificate from the Civil Aeronautics Authority, whether or not the airline operates outside the United States;

(ii) The operation of a foreign commercial airline if approval is received from the War Production Board on Form WPB–1747 or if such approval was received for use in getting materials during the second quarter of 1944;

(iii) The operation of any aircraft to the extent that such aircraft is based in the Territory of Alaska.

(c) *Preference rating and allotment symbol.* Each operator is assigned a preference rating of AA–1 and is authorized to use the allotment symbol MRO (P–47) to get the materials he needs for maintenance, repair and operating supplies and for new aircraft facilities, subject to the limitations contained in the following paragraphs.

(d) *Limitations on the quantity of materials.* (1) No operator who received an approved Form WPB–1747 for the second quarter of 1944 may use the preference rating or allotment symbol assigned above to acquire in any one quarter an amount of any item of material listed in that form costing more than the amount approved for that item. Any such operator who wishes to use an amount of any item in excess of the amount of that item approved for the second quarter of 1944 should file Form WPB–1747 and ask for approval from the War Production Board for materials in excess of the permitted amounts.

(2) Any operator who did not receive an approved Form WPB–1747 for the second quarter of 1944 must, before using the rating and symbol assigned by this order, file that form and receive approval from the War Production Board for materials he needs; the amount approved by the War Production Board on Form WPB–1747 for purchase by him during the quarterly period specified on the form shall be the amount which he is permitted to purchase under this order during subsequent quarters. If he wishes during any subsequent quarter to use an amount of any item in excess of the amount of that item approved on his Form WPB–1747, he should file another Form WPB–1747 and ask for approval for materials in excess of the permitted amounts.

(3) In addition, any operator wishing to purchase any aircraft or aircraft products, as defined in Order L–48, must comply with the provisions of that order. The preference rating assigned by this Order P–47 may not be used to get any item for which an authorization is obtained under Order L–48.

(e) *Limitation on the purchase of materials for construction jobs.* No operator may use the preference rating and allotment symbol assigned by this order to get materials for construction jobs needed to carry on his aircraft operations, unless the cost of the material used in the job does not exceed $500. (In determining the cost of material, the cost of any equipment which is being installed for use in the maintenance, repair or operation of aircraft may be excluded. No construction job shall be subdivided for the purpose of coming within the $500 limit.) Any such construction job may be carried on without getting permission to begin construction under Order L–41. All other construction may be carried on only to the extent permitted under the provisions of Order L–41. The term "construction" is defined in paragraph (b) of Order L–41.

(f) *Application for items on List "B" of Priorities Regulation No. 3.* Any operator may file Form WPB–1747, in accordance with the instructions accompanying the form, for items on List "B" of Priorities Regulation 3. The War Production Board may authorize the use of a preference rating and allotment symbol for those items.

(g) *Acquisition of materials.* Operators may obtain materials under this order by placing on their purchase orders the following certification, (or the alternative form of certification provided in CMP Regulation No. 7), signed manually

or as provided in Priorities Regulation No. 7:

MRO (P-47 Serial Number ------) Preference Rating AA-1. The undersigned certifies, subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that the items covered by this order are within the amounts approved by the War Production Board under Preference Rating Order P-47, and are to be used for a purpose so approved.

Name----------

By----------

Authorized Official.

Date----------

The operator should include in his certificate the serial number assigned to him in his approved Form WPB-1747. A purchase order for controlled materials bearing this certification shall be deemed an authorized controlled material order for the purpose of all CMP Regulations.

(h) *Penalties for misrepresentation.* (1) The placing of any order bearing a certification or symbol, as provided by this order, shall constitute a representation, subject to the criminal penalties of section 35 (A) of the United States Criminal Code (18 U. S. C. 80), that the person placing the order is entitled, under the terms of this order, to use of the symbol or preference rating indicated thereon.

(i) *Inventory restrictions.* No operator shall receive any delivery if acceptance thereof would increase his inventory above a practicable working minimum, as provided in § 944.14 of Priorities Regulation No. 1, or would exceed the inventory limitations prescribed for such person by CMP Regulation No. 2, or by any other applicable regulation or order of the War Production Board.

(j) *Applicability of other orders and regulations.* (1) Nothing in this order shall be construed to relieve any person from complying with any applicable regulation or order of the War Production Board (including orders in the "E", "L", and "M" series) or with any order of any other competent authority.

(2) No operator may acquire material by the use of CMP Regulation No. 5 or No. 5A. Persons needing maintenance, repair and operating supplies for aircraft who are not operators within the meaning of this order may use CMP Regulation 5 or 5A where applicable or any other applicable order or regulation of the War Production Board.

(k) *Communications.* All communications concerning this order should be addressed to: War Production Board, Washington 25, D. C. Ref: P-47.

(l) *Effective date.* This amended order shall become effective on July 1, 1944. General Preference Rating Order P-47, as amended August 4, 1943, shall remain effective until July 1, 1944.

PART 3288—PLUMBING AND HEATING EQUIPMENT

[General Limitation Order L-79, as Amended July 26, 1944]

DISTRIBUTION OF PLUMBING, HEATING AND COOKING EQUIPMENT

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain critical materials used in the production of plumbing, heating and cooking equipment for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3288.31 *General Limitation Order L-79*—(a) *What this order does.* The purpose of this order is to conserve the supply and direct the distribution of plumbing, cooking and heating equipment by preventing the sale of certain essential items on List A except for necessary replacements, or on rated orders. These are items, the production of which is restricted, and which can be made available to essential users only. The order provides a rating to enable sellers to get these items for necessary replacement. It permits other items of plumbing and heating equipment to be bought by sellers on unrated orders without restriction but provides a preference rating to enable sellers to buy these non-restricted items when a rating is needed. No preference ratings are assigned to consumers and deliveries to consumers for replacement and repair do not have to be on rated orders. It must be noted, however, that deliveries of certain parts for plumbing and heating equipment are also subject to applicable provisions of other limitation orders.[1] The order supersedes the previous version of L-79, as well as General Preference Order P-84.

(b) *Assignment of preference ratings.* Preference rating AA-3 is assigned to any seller to enable him to get the following:

(1) Equipment shown in List A, including repair parts.

(2) Repair parts only for items on List B.

(3) All other equipment, material and parts which are used to supply, store and heat water, to cook food (except as excluded below), to remove waste matter and water borne waste, to treat waste matter chemically, and to heat buildings, including electric heat controls.

Any rating under this paragraph (b) cannot be used, however, to get equipment specifically designed for industrial processing, fire protection, the production or transmission of power, or for use by a public utility; equipment, other than water heaters, using electricity as fuel; heat exchangers subject to L-123; domestic water systems as covered by L-257 domestic cooking appliances and domestic heating stoves as defined in L-23-c; liquefied petroleum gas equipment as defined in L-86; fans, blowers and exhausters as covered by L-123 except those on List A of this order (L-79); steel or wrought iron pipe or steel sheets; industrial and domestic sump pumps; equipment specifically designed for refrigerating or dehumidifying; or portable items such as pans, domestic stove lid lifters and domestic stove pokers which are not designed to be built into or fastened to the building in which they are used. Directions will from time to time be issued specifying items which are subject to this paragraph (b) and items which are excluded.

(c) *Exception.* No rating is assigned to any delivery to which a rating is assigned by CMP Regulation 9A.

(d) *Inventory restrictions on sellers.* (1) A seller who is a repair man as defined in CMP Regulation 9A may not accept delivery of any item of parts or materials obtained by applying a rating under this order if his inventory of that item of parts or materials is or would by accepting delivery become larger than he needs to continue his repair and maintenance services for a 60-day period, according to his current method of operation. However, if the supply of any item which he has on hand is less than the permitted amount, he may accept delivery of the smallest commercial amount of that item which his distributor normally sells, even if that will increase his supply beyond the amount specified.

(2) A seller who is not a repair man as defined in CMP Regulation 9A is subject to the limitation of inventory prescribed in Order L-63.

(e) *Up-rating.* In the case of ratings applied or extended by sellers under Order P-84 prior to its revocation, deliveries may be re-rated in accordance with the provisions of Priorities Regulation No. 12. However, any person with whom such an order was placed is authorized to treat it as re-rated without requiring any notice or certificate to be furnished to him by the seller: *Provided*, That any manufacturer or seller who re-rates any orders placed with him under this paragraph must so re-rate all orders placed with him which can be re-rated.

(f) *Restrictions on deliveries of items on List A.* No seller may deliver to a consumer any equipment included on List A except:

(1) [Deleted July 26, 1944.]

(2) Equipment which is delivered to fill a rated order.

(3) When the delivery is to a consumer for installation to replace existing equipment which is worn out, damaged beyond repair or destroyed, but not to replace useable equipment or to make a substitution which would provide more extensive facilities than are necessary to replace the part or parts worn out, damaged or destroyed.

(g) *Restrictions on delivery of equipment using gas as fuel.* No seller may deliver to a consumer any equipment using gas as a fuel when the installation of such equipment will increase the potential demand for gas unless a letter has been first obtained from the utility company which will deliver the gas to the consumer stating that it is authorized to provide the gas necessary to operate the equipment.

(h) *When a consumer needs a preference rating and how he gets it.* Consumers are not assigned ratings by this order and will not need ratings unless they want to buy items on List A for purposes other than replacement. When a rating is needed, application may be made as follows:

(1) *For residential use.* If the equipment is to be used for residential purposes, construction or otherwise, Form WPB-2896 should be filed with the nearest Federal Housing Administration field office.

(2) *For commercial and industrial use.* If the equipment is to be used for commercial or industrial purposes and is construction of a type which is restricted under Limitation Order L-41, Form WPB-617 should be filed with the nearest War Production Board field office. If not restricted under Limitation Order L-41, then Form WPB-1319 should be filed with the nearest War Production Board field office.

(3) *For farm use.* If the equipment is to be used for farm purposes (including farm dwellings), and is construction of a type which is restricted under Limitation Order L-41, Form WPB-617 should be filed with the County Agricultural Conservation Committee. If not restricted under Limitation Order L-41, then Form WPB-1319 should be filed with the nearest War Production Board field office.

(4) *For utilities use.* If the equipment is to be used by a utility furnishing telephone, telegraph, electric, gas, water or central steam heating service for use by the public, Form WPB-2774 should be filed with the War Production Board, Washington 25, D. C. (For utility MRO and minor plant additions applicable utilities orders should be followed).

NOTE: Paragraphs (i) through (r) formerly (h) through (o) redesignated July 26, 1944.

(i) *Consumer's certificates.* No seller may deliver an item on List A to fill a consumer's unrated order unless he obtains a certificate in substantially the following form:

I need the item included in this purchase to replace equipment worn out, damaged beyond repair, or destroyed. I will not use it to replace useable equipment or to make a substitution which would provide more extensive facilities than are necessary to replace the parts which are worn out, damaged, or destroyed.

Address of installation----------

Consumer's signature----------

Address ----------

Any certification is a representation to the War Production Board as well as to the seller. No one may deliver relying on a certification being true if he knows or should know it is false, but anyone who reasonably relies on the truth of a certificate is not to be held responsible if it turns out to be false. No one shall make a false statement in a certification. Sellers shall retain certificates in their files for two years for inspection by WPB representatives.

(j) *Salvage.* No person may install equipment on List A for replacement unless he takes any replaced metal parts or equipment, not coated with a fused or nonmetallic surface, and arranges for its further use, or turns it in for salvage to any authorized scrap metal dealer within thirty days after the replacement. This requirement does not mean that the installer is entitled to take old equipment without the owner's consent or without crediting him with its value.

(k) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories and sales.

(l) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(m) *Violations and false statements.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment or both. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(n) *Applicability of regulations.* All persons and transactions affected by this order are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

(o) *Applicability of other orders.* Insofar as any other orders heretofore or hereafter issued by the War Production Board limit the production, delivery or use of any plumbing, heating or cooking equipment to a greater extent than the restrictions imposed by this order, the restrictions of such other orders shall govern.

(p) *Appeals.* Any person affected by this order may appeal from its provisions by filing Form WPB 1477 (formerly PD-500) with a field office of the War Production Board.

[1] Other orders of the War Production Board and of the Petroleum Administration for War restrict deliveries of gas and fuel oil for newly installed equipment using those fuels. These orders should be consulted before any installation of equipment is made.

(q) *Communications.* All reports to be filed and other communications concerning this order, except appeals, shall be addressed to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., Ref: L–79.

(r) *Definitions.* For the purposes of this order:

(1) "Seller" means any person who buys plumbing, heating, or cooking equipment for resale, whether or not he makes the installation. A manufacturer who sells directly to the consumer is to be considered a seller with respect to those sales.

(2) "Consumer" means any person who buys plumbing, heating, or cooking equipment for installation or use on premises owned or occupied by him.

Issued this 26th day of July 1944.

INTERPRETATION 1

NOTE: Interpretation 1 is obsolete.

INTERPRETATION 2

Office of Price Administration requirements not affected. Question has been raised as to whether this order dispenses with the necessity of conforming to the requirements of O. P. A. Ration Order 9–A.

The words "without restriction" as used in L–79 refer only to restrictions placed by the War Production Board, and Order L–79 is not intended in any way to affect rationing or other requirements of the Office of Price Administration or any other agency. (Issued Feb. 29, 1944.)

INTERPRETATION 3

SUBSTITUTION REQUIRING CHANGE OF DISTRIBUTION SYSTEM PROHIBITED

The restrictions of paragraph (f) (3) of Limitation Order L–79 prohibit the substitution of one type of heating system for another (e. g. cast iron heating boiler for heating furnace) if it will require the change of a useable distribution system. (Issued Apr. 13, 1944.)

PART 3291—CONSUMERS DURABLE GOODS

[General Limitation Order L–6, as Amended July 26, 1944]

DOMESTIC LAUNDRY EQUIPMENT

§ 3291.25 *General Limitation Order L–6*—(a) *Definitions.* For the purposes of this order:

(1) "Domestic laundry equipment" means any of the following designed primarily for home use: (i) Washing machines, (ii) ironing machines, and (iii) warm air clothes driers, whether operated by gas, electricity or any other means.

(2) "Manufacturer" means any person engaged in the production or assembly of domestic laundry equipment or parts for domestic laundry equipment.

(3) "Special order" means any order for domestic laundry equipment stating on its face that the equipment is for shipboard use, or any order which is to be delivered to or for the account of the Army, Navy, United States Maritime Commission or War Shipping Administration. It also means any order for domestic laundry equipment to be delivered to or for the account of Army or Marine Corps Post Exchanges, Navy or Coast Guard Ships Service Departments and War Shipping Administration Training Organization Ships' Service activities, when the equipment purchased is not to be resold by those exchanges, departments or activities.

(b) *Restrictions on production and delivery of domestic laundry equipment.* (1) No manufacturer shall produce or assemble any domestic laundry equipment except as authorized by the War Production Board in response to an application by letter which should be filed in duplicate.

(2) The War Production Board will usually not approve production of any domestic laundry equipment except washing machines from fabricated parts in manufacturers' inventories prior to January 1, 1943, and will approve this production or assembly only in such quantities as shall be determined to fill special orders. Upon request, the War Production Board will inform any manufacturer of the production authorized.

(3) No manufacturer shall deliver any new domestic laundry equipment except as authorized by the War Production Board in writing to fill special orders. This restriction does not apply to ironing machines.

(c) *Restrictions on production of parts.* (1) No manufacturer shall make any part for domestic laundry equipment if he knows or has reason to believe that that part will be used for any other purpose than the repairing of used domestic laundry equipment.

(2) No manufacturer shall make any part for domestic laundry equipment if by making that part he would have more parts of that type in his inventory than twice the number he sold in the second preceding calendar quarter. However, a manufacturer making parts in order to bring his inventory of that type of part up to twice the number he sold in the second preceding calendar quarter need not make less than a minimum practical run of that part in order to comply with this paragraph (c) (2).

(3) It will be the general policy of the War Production Board to allocate controlled materials and give priorities assistance for the purchase of all other materials for the manufacture of parts for domestic laundry equipment under the Controlled Materials Plan, only to the extent that the manufacture of parts in any one plant or labor requirements therefor will not interfere with war production in that plant or any other plant located in the same area.

(d) [Deleted July 26, 1944.]

(e) *Reports.* Each manufacturer authorized to produce, assemble or deliver domestic laundry equipment must file with the War Production Board before the 15th day of each month, Form WPB–1600 (formerly PD–655) according to the instructions for filing that form.

(f) *Applicability of regulations and other orders.* The provisions of this order and all transactions affected thereby are subject to all applicable regulations of the War Production Board.

If any other order of the War Production Board limits the use of any material in the production of domestic laundry equipment to a greater extent than this order does, the other order shall govern unless it states otherwise.

(g) *Appeals.* Any appeal from the provisions of this order shall be filed on Form WPB–1477 (formerly PD–500) with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates.

(h) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(i) *Communications.* All reports to be filed and all other communications concerning this order, except appeals, should be addressed to the War Production Board, Consumers Durable Goods Division, Washington 25, D. C., Ref: L–6,

NOTE: The reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1367—FERTILIZERS

[2d Rev. MPR 135, as Amended]

RETAIL PRICES OF FERTILIZERS AND MATERIALS

Second Revised Maximum Price Regulation 135 is redesignated Second Revised Maximum Price Regulation 135, as amended, and is revised and amended to read as set forth herein. This revised regulation now covers not only mixed fertilizer, superphosphate and potash which were covered by Second Revised Maximum Price Regulation 135 but also supersedes Revised Maximum Price Regulation 108 (Nitrogenous Fertilizer Materials) which formerly covered sales of nitrogenous fertilizer material to consumers.

In the judgment of the Price Administrator, the maximum prices established by this revised regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Executive Orders 9250 and 9328. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry affected by this regulation.

Such specifications and standards as are used in this regulation were, prior to such use, in general use in the fertilizer industry or have previously been promulgated and their use lawfully required by another government agency.

A statement of the considerations involved in the issuance of this Second Revised Maximum Price Regulation 135, as amended, has been issued simultaneously herewith and filed with the Division of the Federal Register.*

AUTHORITY: Secs. 1 to 10, inclusive (§ 1367.31), issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

SECTION 1. *Applicability*—(a) *In general.* Except as provided in paragraph (b) of this section, with reference to emergency sales to the United States and its agencies and paragraph (c) of this section, with reference to export sales, this revised regulation shall apply to all sales to consumers and, in the case of victory garden and specialty fertilizers, to all sales to dealers, of domestic and imported mixed fertilizer, superphosphate, potash and nitrogenous fertilizer materials, when sold as an aid to the growth of crops or plants, whether sold for immediate or future delivery, within the District of Columbia and the 48 States of the United States.

(b) *Emergency purchases.* This regulation shall have no application to any purchase by the United States or any of its agencies under such circumstances of emergency as to make immediate delivery imperative, and as to render it impossible to secure or unfair to require immediate delivery at the maximum price which would otherwise be applicable, if such purchases and deliveries are made pursuant to the provisions of section 4.3 (f) of Revised Supplementary Regulation No. 1 to the General Maximum Price Regulation, as amended: *Provided, however,* That the Administrator may, by order, waive the reporting of any part of the information required by section 4.3 (f) in connection with a particular purchase or group of purchases upon determining that such information may not reasonably be required under all the circumstances, and he may, in lieu thereof, require the reporting of other information more suited to the circumstances.

(c) *Export sales.* This revised regulation shall have no application to export sales of mixed fertilizer, superphosphate, potash or nitrogenous fertilizer materials. The maximum prices for such sales shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation.

SEC. 2. *Sales at other than maximum prices*—(a) *Prohibition.* Regardless of any contract or obligation, no person shall sell or deliver to a consumer or dealer and no consumer or dealer, in the course of trade or business, shall buy or receive any of the products covered by this revised regulation at a price above the maximum price established by this revised regulation for such consumer or dealer, nor shall any person agree, solicit, offer, or attempt to do any of the foregoing. This prohibition, however, is subject to the exception for adjustable pricing contained in paragraph (b) of this section, the exception for emergency purchases by the United States and its agencies contained in paragraph (b) of section 1 and the exception for export sales contained in paragraph (c) of section 1.

(b) *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery, but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended, and the Stabilization Act of 1942, as amended. The authorization may be given by an order of the Administrator or of any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

(c) *Lower prices.* Prices lower than the maximum prices established by this regulation may, of course, be charged or paid.

SEC. 3. *Evasion.* Any method whereby a seller obtains greater consideration than the maximum price, or whereby he gives less than the consideration due the buyer for the maximum price is an evasion of this regulation, and therefore prohibited; and any offer or agreement which accomplishes or attempts such a result is equally prohibited.

SEC. 4. *Records and reports.* (a) Every person making a sale of mixed fertilizer, superphosphate, potash or nitrogenous fertilizer material in quantities of 250 pounds or more, to a consumer, after August 1, 1944, shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, is in effect, his customary complete and accurate records of each sale, showing the date thereof, the name and address of the buyer, of the person making the sale, and of the manufacturer of the mixed fertilizer, superphosphate, potash or nitrogenous fertilizer material; the quantity, grade and kind of the mixed fertilizer, superphosphate, or potash or nitrogenous fertilizer material sold; the bags or containers in which delivered; the price charged or received therefor; the terms of payment (time, cash, discounts, etc.); and the method and conditions of delivery.

(b) (1) Every manufacturer of mixed fertilizer, superphosphate, potash or nitrogenous fertilizer materials who is engaged in the business of selling the same to consumers and dealers, whether by or through any agent or other person may file with the appropriate regional office of the Office of Price Administration three copies of any written or printed price list, whether temporary or permanent, issued by him in connection with the sale thereof to consumers and dealers. Such price lists shall set forth clearly the grade and kind of mixed fertilizer, superphosphate, potash or nitrogenous material offered for sale and also the kind and amount of special ingredients, if any, contained therein and the size and kind of bags used.

(2) Upon request addressed to the District Offices of the Office of Price Administration, copies of this revised regulation will be furnished each manufacturer or dealer.

(3) Each dealer or agent shall post at his place of business a list of his consumers' maximum prices.

(4) Each manufacturer selling direct to consumers shall post at his office, plant and warehouse his consumer's price list in effect for the area served by each such office, plant or warehouse.

(c) Persons affected by this revised regulation shall submit such other information to the Office of Price Administration as it may, from time to time require, subject to the approval of the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

SEC. 5. *Enforcement.* Persons violating any provision of this revised regulation are subject to the license revocation or suspension provisions, civil enforcement actions, suits for treble damages and criminal penalties, provided in the Emergency Price Control Act of 1942, as amended.

SEC. 6. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this revised regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 7. *Protests and petitions for amendment.* Any person desiring to file a protest against or seeking an amendment of any provisions of this regulation may do so in accordance with Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

[1] Based on Norfolk, Va., only.
[2] All potash from sulphate.

Special ingredients. In addition to the adjustments provided for in the general provisions of this appendix, the base prices may be adjusted as follows for special ingredients:

In other than premium brands and tobacco grades. Add 15¢ per unit of nitrogen for each 5% of water-insoluble nitrogen guaranteed in excess of 10%.

In tobacco grades (other than premium brands):

(1) Add or deduct 15¢ per unit of nitrogen for each 5% of water-insoluble nitrogen in excess of or less than 25%.

(2) Add $1.25 per ton for each hundred pounds of oilseed meal, other than castor, guaranteed therein.

(3) Sulphate of potash differentials in the general provisions of Appendix A do not apply to tobacco grades in Schedule G. Instead, deduct 30¢ for each 1% of chlorine in excess of 2% and, except for grades 5–5–20 and 4–9–3, add 60¢ per ton if all potash is derived from sulphate of potash.

(b) *Delivery differentials.* Nearest port, in the area covered by Column I, means Baltimore or Norfolk, the one from which the lowest carload rail freight rate on the commodity, when added to the f. o. b. port price, will give the lowest delivered price at the point of delivery.

Nearest port, in areas covered by Columns II, III and IV means Baltimore, Norfolk, Wilmington, Charleston, Savannah, or Jacksonville, the one from which the trucking rate as determined in (1) (ii) below, when added to the f. o. b. port price will give the lowest delivered price at the point of delivery.

(1) *To determine the delivered-to-the-farm base price at any point*—(i) *In the area covered by Column I* (except as provided in (iii) below). The delivered-to-the-farm base price is the base price in (a) Column I, after making the appropriate additions or deductions provided for in the general provisions of this appendix and for special ingredients, and after deducting therefrom the amount, if any, by which $5.00 exceeds the lowest carload rail freight rate per ton on the commodity from the nearest port to the consumer's nearest railroad station.

(ii) *In the area covered by columns II, III and IV (except as provided in (iii) below).* The delivered-to-the-farm base price is the base price for the area in which the farm is located, after making the appropriate additions or deductions provided for in the general provisions of this appendix and for special ingredients, and after deducting therefrom the amount, if any, by which $3.75 exceeds the trucking rate per ton from the nearest port to the city or town nearest to or in which the farm is located, using the shortest highway mileage on the official state highway map and using the following trucking rates:

$0.75 per ton for distances up to 15 miles.

$1.00 per ton for distances between 15 and 25 miles.

$1.50 per ton for distances between 25 and 40 miles.

For distances over 40 miles, $1.50 per ton plus 1¢ per ton per mile in excess of 40 miles.

Truck mileage, to destinations on the Eastern Shore of Virginia, shall include 40 miles as the distance from Norfolk to Cape Charles, with 1¢ per ton per mile for mileage beyond Cape Charles.

(iii) When delivery to the farm is made in the area covered by column I and in Surry, Yadkin, Wilkes, Alexander, Caldwell, Burke, Rutherford Counties and counties west thereof in North Carolina from a railhead or warehouse, as distinguished from delivery direct from factory, and the transportation cost (in no case to exceed legal maximum trucking rates) to the consumer's premises from the railroad station nearest thereto exceeds 75¢ per ton, such excess may be added to the prices as determined in (i) or (ii) above.

(2) To determine the base price f. o. b. a factory or warehouse located at port:

(i) *Baltimore and Norfolk.* Deduct $5.75 from the base price in column I or $3.75 from the base price in column II after making the appropriate additions or deductions provided for in the general provisions of this appendix and for special ingredients.

(ii) *Wilmington.* Deduct $3.75 from the base price in column III after making the appropriate additions or deductions provided for in the general provisions of this appendix and for special ingredients.

(iii) *Charleston, Savannah and Jacksonville.* Deduct $3.75 from the base price in column IV after making the appropriate additions or deductions provided for in the general provisions of this appendix and for special ingredients.

(3) *To determine the base price f. o. b. a factory, warehouse, boatlanding or railsiding at other points in the areas covered by Schedule G.* Deduct 75¢ per ton from the delivered-to-the-farm base price at such point, as determined in (1) (i) or (1) (ii) above.

(c) *Quantity differentials.* For deliveries in carloads or in 10-ton truck lots, deduct 2% from the price established by (b) (1) (i), (b) (1) (ii), (b) (2) or (b) (3) above.

(d) *Terms.* (1) To determine the consumer's time price, add 10% to the price established by (b) (1) (i), (b) (1) (ii), (b) (2), (b) 3 or (c) above. Interest at the legal rate may be added after May 1 on spring goods and after December 1 on fall goods.

(2) For c. o. d. sales, shipments SD/BL, or for cash within 10 days after delivery, deduct 1% from the price established by (b) (1) (i), (b) (1) (ii), (b) (2), (b) (3) or (c) above.

II. *Nitrogenous fertilizer materials:* (a) Cash prices per ton for nitrogenous fertilizer materials in bags shall be:

(1) F. o. b. applicable basing point established by RMPR 205 for sales of the material to the manufacturer making the sale or from whom the dealer purchased the material.

Grade	Port	Production point
16–0–0 imported nitrate of soda	$37.00

14–0–0 domestic nitrate of soda		30.00
14–0–14 nitrate of soda-potash	46.00

32.5–0–0 domestic ammonium nitrate		55.00
42–0–0 urea compound	66.40	

[1] Based on sulphate of ammonia production points.

(2) Plus the cost of tax tags and the attaching thereof or state tonnage or inspection tax,

(3) Plus the transportation cost of delivery from the port or point or production from which the material is shipped to the point at which the consumer takes delivery, exclusive of that portion of such cost which the producer of such nitrogenous material is required to pay to comply with the provisions of RMPR 205,

(4) Plus one charge of 50¢ per ton in the case of a manufacturer or dealer making delivery to a consumer of materials handled through his factory or warehouse.

(b) To determine the time price, add 10% to the cash price. Interest at the legal rate may be added after May 1 on spring goods and after December 1 on fall goods.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 54-100]

AMERICAN POWER & LIGHT CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 24th day of July, A. D. 1944.

Notice is hereby given that an application has been filed with the Commission pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("the Act") by American Power & Light Company ("American"), a subsidiary of Electric Bond and Share Company, both registered holding companies. American seeks approval of a plan designed to retire at 100% of principal amount plus accrued interest American's Gold Debenture Bonds 6% Series due 2016 and the 6% Gold Debenture Bonds Series A due 2022 of Southwestern Power & Light Company, assumed by American, with a provision for reinstatement of such debenture bonds on payments of principal amount in the event that the order of dissolution directed by the Commission to American, described below, should be held invalid by the Supreme Court of the United States.

American had outstanding, as of May 31, 1944, $34,445,500 principal amount of Gold Debenture Bonds 6% Series due 2016 issued by it and $3,408,400 principal amount of 6% Gold Debenture Bonds Series A due 2022 issued by Southwestern Power & Light Company and assumed by American. As of June 23, 1944 American had in its treasury approximately $23,000,000 in cash and short term United States Government securities. American expects to receive in excess of $11,000,000 in additional cash from payment of the debentures of The Montana Power Company, subsidiary of American and the notes of Glacier Production Company, a subsidiary of Montana Power Company, held by American. It is stated that the additional cash which will be necessary to enable American to redeem its outstanding debenture bonds will be obtained by it either from the sale of securities in its portfolio or from bank borrowings at low rates of interest.

On August 22, 1942 an order of this Commission directing the termination of the existence of American and directing its dissolution, was entered. (Holding Company Act Release No. 3750) American filed a petition for review of said order in the United States Circuit Court of Appeals which on May 17, 1944 affirmed the Commission's order and on April 18, 1944 denied American's application for rehearing. American has since applied to the United States Supreme Court for a writ of certiorari upon which application said court has as yet rendered no decision. It is stated in the present filing that the proposed retirement of debenture bonds is a necessary step for compliance with the order of dissolution.

The transactions proposed herein may be summarized as follows:

(1) American will retire and cancel $34,445,500 principal amount of its Gold Debenture Bonds 6% Series due 2016 and $3,408,400 principal amount of 6% Gold Debenture Bonds Series A due 2022 issued by Southwestern Power & Light Company and assumed by American by depositing with the trustees under the respective agreements underlying the debenture bonds their principal amount plus interest to the retirement date which is described in the plan as the 30th day after the entry, on application of the Commission, of an order of an appropriate United States District Court enforcing the terms and provisions of the plan. Interest on such debenture bonds will cease to accrue on the retirement date.

(2) From and after the retirement date and upon surrender of the debenture bonds to the trustees, such trustee will pay to the holders thereof the principal amount of such debenture bonds and unpaid interest accrued to the retirement date, and will, as agents for American, deliver to such holders a non-transferable certificate which will entitle the holders to reinstate the debenture bonds upon the payment of principal amount plus accrued interest from the last preceding semi-annual interest date in the event that the order of this Commission, dated August 22, 1942, described above, should be held invalid by the Supreme Court of the United States.

(3) In the event of any reinstatement of debenture bonds, as described in paragraph 2 above, American states that it will stipulate, if so required by this Commission as a condition to the approval of the issuance of the non-transferable certificates described above, to set aside in a separate fund the principal amounts paid to American upon reinstatement of debenture bonds and to employ such fund only for the retirement of debenture bonds unless otherwise permitted by order of the Commission.

American requests that in the event of approval of the Plan the Commission apply to the appropriate District Court of the United States for its enforcement.

The Commission being required by the provisions of section 11 (e) of the act before approving any plan thereunder to find after notice and opportunity for hearing that such plan as submitted or as modified is necessary to effectuate the provisions of subsection (b) of section 11 and is fair and equitable to the persons affected by such plan, and it appearing that it is appropriate and in the public interest and in the interest of investors and consumers that notice be given and a hearing be held upon said plan to afford all interested persons an opportunity to be heard with respect thereto, and that the application with respect to said plan shall not be granted except pursuant to further order of the Commission;

It is ordered, That a hearing on such matter under the applicable provisions of said Act and rules of the Commission thereunder be held on August 14, 1944, at 10.00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room where such hearing will be held. At such hearing cause will be shown why such declaration and application shall become effective or shall be granted.

It is further ordered, That any person desiring to be heard or otherwise wishing to participate herein shall notify the Commission to that effect in the manner provided in Rule XVII of the Commission's rules of practice on or before August 11, 1944.

It is further ordered, That Henry C. Lank or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearings in such matter. The officer so designated to preside at the hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act, and to a trial examiner under the Commission's rules of practice.

It is further ordered, That without limiting the scope of the issues presented by said application otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

(1) Whether the plan as submitted or as hereafter modified is necessary or appropriate to effectuate the provisions of section 11 (b) of the act.

(2) Whether the proposed plant as submitted or hereafter modified is fair and equitable to the persons affected thereby and in the interest of investors.

(3) Whether the provisions of the plan with respect to the retirement of said debenture bonds and the issuance and delivery of the nontransferrable certificates described above are detrimental to the public interest or the interest of investors or will tend to circumvent any provisions of the act or the rules, regulations, or orders promulgated thereunder.

(4) Whether the proposed plan is consistent with the order of the Commission of August 22, 1942 directing the termination of the existence of American and directing its dissolution.

(5) Whether the fees, commissions, or other remunerations to be paid directly or indirectly in connection with the proposed transactions are reasonable.

(6) Whether it is necessary or appropriate to impose any terms or conditions in the public interest or for the protection of investors.

It is further ordered, That in the interest of expeditious procedure all evidence contained in Matter of American Power & Light Company, et al., File Nos. 70-815 and 59-12, so far as relevant to the issues above stated, shall be incorporated in the record of the proceedings herein ordered and shall be regarded as evidence duly adduced in the present proceeding, subject to the same objections and exemptions preserved in the record of the proceeding in which first introduced.

It is further ordered, That notice of this hearing be given to American and to all other persons, said notice to be given to American by registered mail and to all other persons by publication in the FEDERAL REGISTER.

It is further ordered, That American shall give notice of this hearing to all of its debenture bond holders (insofar as the identity of such debenture bond holders is known or available to American) by mailing to each of said persons a copy of this Notice and order for hearing to his last-known address at least 10 days prior to the date of this hearing, and by publishing notice of this hearing in a newspaper of general circulation in each of the cities of New York, Chicago, Philadelphia and Boston.

By the Commission.

Secretary.

With respect to violations, rights accrued, liabilities incurred, or appeals taken under war Food Order No. 75-2, as amended, prior to said date, all provisions of said order shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943; 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 1, Direction 35 as Amended July 27, 1944]

JIGS, DIES, MOLDS, FIXTURES AND SPECIAL TOOLING

The following amended direction is issued pursuant to CMP Reg. 1:

(a) "Special tooling" for purposes of this direction means any jig, die, mold, fixture or other tooling of a type which has only one special use, is not a standard product and is not produced for general sale by the manufacturer of the tooling.

(b) A person who has the right to buy controlled material for MRO (maintenance, repair and operating supplies) under any regulation or order of the War Production Board, such as CMP Regulation No. 5 or orders in the "P" or "U" series, may use the allotment number or symbol assigned by the regulation or order to buy controlled material needed to make special tooling for his own use as MRO.[1] He may also use the allotment number or symbol assigned to him for MRO to buy the controlled material needed to make the tooling and turn it over to the toolmaker or he may order it for direct shipment to the toolmaker.

(c) Even though tooling needed for MRO is a B product the toolmaker may accept controlled material from his customer to manufacture special tooling for him.

(d) This direction is a special exception to the general rule stated in paragraph (g) (3) of CMP Regulation No. 1 (as explained in Interpretation No. 16) which prohibits a customer from furnishing material to the manufacturer of a B product and prohibits a manufacturer of a B product from accepting it from his customer.

(e) Any person who buys special tooling under this direction must charge the cost of the controlled material to his expenditures for MRO for the purpose of complying with the quantity restrictions imposed by the regulation or order under which he is operating (as, for example, paragraph (f) of CMP Regulation No. 5).

(f) In those cases where a regulation or order permits a person operating under it to use the allotment number or symbol assigned to deliveries of MRO in buying minor capital additions (as, for example, paragraph (b) (3) of CMP Regulation No. 5), the above procedure may be used in acquiring special tooling which will be treated as minor capital items.

(g) A manufacturer of special tooling need not charge his allotment account with the quantity of controlled materials delivered to him by his customers under this direction.

(h) This direction does not supersede or change the provisions of Direction No. 1 to CMP Regulation No. 5 which explains how to obtain aluminum for patterns.

Issued this 27th day of July 1944.

PART 3285—LUMBER AND LUMBER PRODUCTS

[Order L–335, Direction 8, as Amended July 27, 1944]

DISTRIBUTOR RECEIPTS ON CERTIFIED BUT UNRATED ORDERS AND RETAIL SALES ON UNCERTIFIED AND UNRATED ORDERS

The following amended direction is issued pursuant to Order L–335:

(a) *What this direction does.* This direction tells distributors how they can get lumber other than by extending their customers' certified orders, and explains what lumber may be sold by sawmills and distributors on uncertified and unrated orders. It also permits distributors to validate certain orders that distributors have placed with sawmills.

(b) *Lumber that a distributor may receive on certified but unrated orders.* Every distributor who was engaged in the business of selling lumber at retail before May 1, 1944, and who had a lumber inventory at that date is permitted to place certified but unrated orders with his lumber supplier and receive in each calendar quarter either 5,000 board feet of lumber or 10 percent of the amount of lumber he received in the same calendar quarter of 1943 provided the 10 percent is not more than 8,000 board feet of lumber. Orders that a distributor places with his lumber supplier to get this amount of lumber must bear the certification described in paragraph (q) (4) of Order L–335. A distributor is not authorized to apply a preference rating to such an order. Lumber that a distributor receives under this provision is in addition to any lumber that he is authorized on Form WPB–3813 to receive or any lumber he is authorized to receive through the extension of his customers' certified orders or under the provisions of paragraph (g) below.

(c) *Distribution yard of sawmill included.* If a person operates both a sawmill and a distribution yard and the distribution yard was engaged in selling lumber at retail prior to May 1, 1944, and had a lumber inventory at that date, the distribution yard may receive the same quantity of lumber from the sawmill as it would be entitled to receive from any other supplier. A transfer of lumber from the person's sawmill stock to his distributor stock must be treated the same way as if the transfer were from another lumber supplier and he must keep a record of the transfer in his sawmill files and endorse the certificate provided for in paragraph (q) (4) of Order L–335 of that record.

(d) *Distributor sales on uncertified and unrated orders.* The 5,000 to 8,000 board feet of lumber that a distributor receives under the provisions of paragraph (b) above is intended for sale to persons who need lumber for a purpose for which such persons have no rating or a rating of AA–5 MRO. This includes industrial plants, business enterprises and private individuals who do not have a rating, and industrial plants and business enterprises (except Class I consumers) who have an AA–5 MRO preference rating but who are not authorized to use it on a lumber order. Such persons are defined in paragraph (m) of Order L–335 as "all other consumers". Any lumber that a distributor receives under the provisions of paragraph (b) above may be sold on certified orders provided an equivalent amount of lumber so sold is made available to persons that are not authorized to place certified orders. A distributor must not sell more lumber on uncertified and unrated orders in a calendar quarter than the 5,000 to 8,000 board feet of lumber he is authorized to receive under paragraph (b) above.

(e) *Sawmills that also sell at retail but do not have a distribution yard.* Sawmills that were engaged in selling lumber at retail on May 1, 1944, but do not maintain a separate retail distribution yard are authorized to withdraw lumber from sawmill stock and sell it on uncertified and unrated orders to the same extent that a distributor is authorized to sell lumber on such orders under the above provisions, and the sawmill must compute the amount of lumber that he is authorized to sell on uncertified and unrated orders in the same way that a distributor computes the amount of lumber that he is authorized to receive on certified but unrated orders under the provisions of paragraph (b) above.

(f) *Distributors' validation of orders placed with lumber suppliers during the months of June and July, 1944.* Every lumber distributor is authorized to place orders with his lumber supplier and to receive from his supplier the amount of lumber that the distributor delivered from July 16 to July 31, 1944, on rated orders (except orders rated AA–5 MRO) of his customers. Orders that a distributor places with a lumber supplier under this authority must bear the certification prescribed in paragraph (q) (3) of Order L–336. A distributor may place a new order for this amount of lumber with a supplier or he may validate any orders already placed with suppliers for this amount of lumber. In validating orders already placed with suppliers, the distributor must send to the supplier the certificate required and must indicate the order that is covered by the validation. Such orders may be placed or validated only to the extent the distributor is authorized to receive lumber under the above provision. Any lumber distributor that has received from the War Production Board a release on Form WPB–2720 under Order L–290, M–361, and M–364 which is dated subsequent to May 31, 1944 and has placed an order with a sawmill but is not able to receive delivery of that lumber before August 1, 1944, may validate such an order by providing the supplier with the certification described in paragraph (q) (4) of Order L–335. If the order is validated before July 20, 1944, the supplier may ship the lumber any time before September 1, 1944. If the order is not validated before July 20, 1944, it may not be shipped after July 31, 1944. Other lumber orders that a distributor has placed with his lumber supplier for delivery subsequent to August 1, 1944 may be validated only to the extent that he has received certified orders from his customers requesting delivery after August 1, 1944. The validation of such an order may only be made by extending his customers' certified orders as provided in paragraph (o) (1) of Order L–335. All other orders placed by distributors which cannot be delivered prior to August 1, 1944 must be cancelled by notifying the supplier.

(g) *Uncertified and unrated orders.* A distributor may place uncertified and unrated orders with and accept delivery of lumber from (1) lumber mills that produce less than 100,000 board feet of lumber per year; (2) sawmills that are permitted to accept and ship lumber on uncertified and unrated orders under paragraph (e) of Directions 1 to 5 inclusive; and (3) sawmills that are included in Direction 7. Acceptance of delivery on such orders is authorized. However, sawmills may not deliver lumber on an uncertified and unrated order if it will interfere with the filling of a certified order. The fact that a distributor is permitted to receive lumber under this paragraph on uncertified and unrated orders does not permit him to sell on uncertified and unrated orders more than the five to eight thousand board feet of lumber that he is authorized to sell on such orders under paragraph (d) above.

Issued this 27th day of July 1944.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[General Conservation Order M–317, Amdt. 1]

COTTON TEXTILE DISTRIBUTION

Section 3290.115 (General Conservation Order M–317) is amended as follows:

1. The caption and first paragraph of the AA–4 preference rating schedule of M–317 (Groups 31 to 38, inclusive) are changed to read:

AA–3 AND AA–4 PREFERENCE RATING SCHEDULE

Effective August 1, 1944, preference rating AA–3 is assigned for each group to the intermediate processor, processor and user in Column I to obtain deliveries of the woven cotton fabric in Column II to be used only

[1] The term "his own use as MRO" means the use of special tooling in the person's manufacturing operations, even if the special tooling will belong to his customer.

as specified in Column III. Preference rating AA–4 is assigned for each group to the intermediate processor, processor and user in Column I to obtain deliveries of the cotton yarns and threads in Column II to be used only as specified in Column III.

Effective August 1, 1944, all unfilled purchase orders for woven cotton fabrics bearing a preference rating of AA–4 assigned by Order M–317 hereby are rerated AA–3.

NOTE: The AA–4 preference rating assigned in Order M–385 for woven cotton fabrics may only be applied or extended to a producer for colored yarn fabrics.

2. By changing the part of paragraph (d) (1) beginning with the fine print after the first colon, to read as follows:

These cotton textiles will be exported, or will replace in inventory cotton textiles exported after December 24, 1943.

And also one of the following statements is to be made:

The preference rating was applied by the United States Treasury Procurement Division in connection with contract number _____. [In the case of United States Treasury Procurement for Foreign Economic Administration];

or

The preference rating was applied in connection with Export License number _____ dated _____ or Release Certificate number _____ dated _____. [In the case of export in connection with licenses or release certificates issued by Foreign Economic Administration.];

or

The preference rating was applied in connection with the Canadian Cotton Administrator's serial number _____. [In the case of exports to Canada.]

When the above is complied with, the requirements of M–328 are met and it is unnecessary to use any other notation.

If a preference rating for cotton textiles which is assigned by the Foreign Economic Administration on an export license or release certificate has not been applied or extended to an order accepted by a producer or made the subject of a War Production Board scheduling direction at the end of six months from the date of issuance of the license or release certificate, it shall be deemed revoked. Ratings applied or extended to orders accepted by a producer or made the subject of War Production Board scheduling directions at any time before August 1, 1944, for delivery before October 1, 1944, are excepted, however, from this provision."

Issued this 27th day of July 1944.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[General Conservation Order M–385]

TEXTILES FOR CIVILIAN ITEMS

The fulfillment of requirements for the defense of the United States has created shortages in the supplies of textiles, clothing and other textile products and in the yarns and fabrics entering into their production, for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3290.346 *General Conservation Order M–385.*—(a) *Explanation.* This order (which also includes and means supplements of this order) provides for the channeling of textiles into essential apparel and other textile items. The channeling is accomplished by ratings and other requirements to provide designated textiles for incorporation into the items. Supplements issued with the order contain "set aside" provisions and assignment of ratings. Further supplements may be issued from time to time.

Producers of textiles needed for any item may be directed to set aside quantities of textiles to fill orders bearing certifications, preference ratings, or both.

(b) *Preference ratings assigned in supplements and restrictions on use of preference ratings.* The following requirements (and any others which are made applicable for specific items listed in supplements) must be complied with by persons applying a preference rating assigned in this order:

(1) The rating assigned for textiles to be incorporated into an item may be applied only by a person who was a processor of the same item (regardless of price line) in 1942, 1943, or the first six months of 1944, or who is authorized in writing by the War Production Board to use the rating. (Authorization procedure is stated in paragraph (b) (8).)

(2) No processor shall put into process or manufacture or cause to be put into process or manufactured for his account in any calendar quarter a greater dollar volume of any item (regardless of price) than his dollar volume in that item (regardless of price) in the corresponding calendar quarter of either 1942 or 1943, whichever is greater. This paragraph (b) (2) applies to the entire production of the item by or for the account of the processor even though some of the textiles are obtained without the preference rating. A processor who started in business in 1944 may use as his base, his dollar volume of the item in the first or second calendar quarter of 1944, whichever is greater.

(3) No processor shall accept delivery of more textiles on a rating assigned in this order than he will normally put into process within four weeks after the delivery, and if he has on hand a four weeks' supply, he shall not accept the delivery until the supply is below that amount. This does not prevent acceptance of delivery of the minimum quantities of any textile which may be commercially procured or the acceptance in good faith of a delivery received before the date requested by the person if the actually requested date conforms to the requirements of this paragraph (b) (3).

(4) No person shall knowingly sell or deliver, accept delivery of, put into process or use any textiles obtained by the use of the rating contrary to the representations in his certification or contrary to the provisions of this order.

(5) Preference ratings shall be applied and extended as provided by Priorities Regulation 3, and M–328. The following certification (which includes the Priorities Regulation 3 certification) signed manually or as provided in Priorities Regulation 7 must be used in the application and extension of ratings.

The undersigned Purchaser hereby represents to the seller and to the War Production Board that he is entitled to apply or extend the preference rating (AA–4) indicated opposite the item(s) shown on this order, and that such application or extension is in accordance with Priorities Regulation 3 as amended, with the terms of which the undersigned is familiar.

The undersigned certifies, subject to the Criminal Penalties of Section 35 (A) of the U. S. Criminal Code, that the textiles covered by this purchase order will be sold or used only as permitted by M–385 for incorporation into _____ (insert the item(s), including description by price line, for which rating is assigned in a supplement of this order).

_____
(Name of Purchaser)

_____
(Address)

By _____
(Signature and title of duly authorized officer)

_____
(Date).

(6) Production of items from textiles obtained with the rating shall be in accordance with the quantity, price line, quality and other conditions specified in the applicable supplement.

(7) Any person using the preference rating to obtain textiles must complete the production of the item for which the rating was used, within sixty days after the delivery to him of the textiles.

(8) Applications for authorizations under paragraph (b) (1) shall be made by letter, and shall include identification of the item (for which a rating is assigned in this order) which is proposed to be manufactured, the textiles to be used, the number of units to be made, the availability of manpower, and a statement as to whether production will be reduced in any other items. These factors and the need for the item will be considered in passing on the applications and assigning quotas.

(c) *Further restrictions in supplements.* No person shall put into process, process, sell, deliver or accept delivery of any textiles contrary to restrictions in a supplement of this order.

(d) *Production schedules and identification of items.* The War Production Board may require any person using a preference rating assigned in this order to file a form (subject to its approval by the Bureau of the Budget pursuant to the Federal Reports Act of 1942) with the War Production Board and to identify the items, of which he is the processor, by an assigned serial number. The requirement of the filing of such form and the identification of the items may be made generally or for particular items or programs.

Directions may be issued by the War Production Board pursuant to paragraph (c) of Order M–328 individually or by supplemental order or direction respecting production schedules for particular items or programs.

(e) *Equitable distribution.* (This paragraph does not apply to sales by retailers, inasmuch as the Fair Distribution Policy for retailers is defined in Declaration of Policy of July 15, 1943.) Every person who uses a preference rating assigned in this order, must to the extent of at least 75 per cent of his unrated deliveries of each item for which the rating is used, fill orders that are placed with him by persons who purchased from him during 1943. Each person who purchased from him in 1943 shall be entitled to have his orders filled for a pro rata share of this quantity of the item based on his 1943 purchases from the person using the rating. Further specific directions may be issued as to the distribution of items.

The above provisions are in addition to the provisions of paragraph (d) of General Conservation Order M–328.

(f) *Reports and records.* Each person who uses a preference rating assigned in this order shall maintain at his regular place of business accurate records of the quantities of each construction of textiles ordered with the use of such rating, the quantities received, the quantities entered into production, and the quantities of each item manufactured. These records shall be preserved for a period of not less than two years and shall upon request be submitted to audits and inspections by duly authorized representatives of the War Production Board.

Subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942, all persons affected by this order shall execute and file with the War Production Board such reports as the War Production Board shall from time to time request and shall keep such records and file any other reports required by a supplement of this order.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[General Conservation Order M–385, Supplement I]

DISTRIBUTION OF COTTON FABRICS BY CONVERTERS AND COLORED YARN FABRIC PRODUCERS

§ 3290.346a *Supplement I of General Conservation Order M–385.*—(a) *Definitions.* (For other applicable definitions see General Conservation Order M–385) (1) "Cotton fabrics" means, unless otherwise specified, woven fabrics which have been bleached, dyed, printed or otherwise finished and colored yarn fabrics, containing 50 per cent or more by weight of cotton or cotton waste or a combination of the two.

(2) "Producer" means any person who makes cotton textiles in the United States.

(3) "Unrated yardage" means: (1) In the case of an intermediate processor, the number of yards of each construction of cotton fabrics (including cotton fabrics prior to bleaching, dyeing or finishing) acquired by him or for his account without a preference rating or (2) in the case of a producer of colored yarn fabrics, the number of yards of each construction of colored yarn fabrics produced by him and not needed to fill orders rated other than AA–4.

(b) *Fabric "set aside".* (All column references are to the columns in the Cotton Fabric Schedules of this supplement.)

(1) *Colored yarn fabrics.* Each producer of colored yarn fabrics during the two-month period of August and September, 1944, and during each calendar quarter thereafter shall set aside at least that percentage shown in Column 2 of his unrated yardage of each construction of colored yarn fabrics shown in Column 1.

(2) *Cotton fabrics other than colored yarn fabrics. (Purchases made or contracted before August 1, 1944.)* Each intermediate processor who receives title on or after August 1, 1944 to any unrated yardage of a cotton fabric listed in Column 1, which he had purchased or contracted for before that date, must set aside at least the percentage shown in Column 2 of that unrated yardage in each construction.

(3) *Cotton fabrics other than colored yarn fabrics. (Purchases made or contracted on or after August 1, 1944.)* Each intermediate processor, during August and September, 1944, and during each calendar quarter thereafter, shall set aside at least that percentage shown in Column 2 of his unrated yardage of each construction of cotton fabrics shown in Column 1, which he purchases or contracts for on or after August 1, 1944.

(c) *Finishing, sale and delivery of fabric set aside.* (1) The cotton fabrics set aside as provided in paragraph (b) shall be processed, finished, sold and delivered only to fill orders which bear the preference rating assigned in Supplement II of this order, or which are sold as piece goods. Orders for the full amount of cotton fabrics set aside in August and September, 1944 and in each calendar quarter thereafter must be accepted within the period (August and September, 1944, and each calendar quarter thereafter) during which the set aside is made, or within ten days thereafter.

(2) *Certifications on rated purchase orders and contracts.* The certification set forth in paragraph (b) (5) of General Conservation Order M–385 must appear on the purchase orders or contracts for all cotton fabrics (other than cotton fabrics sold as piece goods) set aside under paragraph (b) of this Supplement I.

(3) *Certifications on purchase orders or contracts for piece goods.* When these cotton fabrics are sold as piece goods, substantially the following certification

must appear on the purchase orders or contracts:

The undersigned certifies, subject to the Criminal Penalties of section 35 (A) of the U. S. Criminal Code, that the fabric covered by this purchase order or contract will be delivered to retailers for sale as piece goods or will be sold only at retail as piece goods.

_____

_____
(Address)

By _____
(Signature and title of duly authorized officer)

_____
(Date).

(4) *Endorsement on invoices.* No intermediate processor or producer shall sell or deliver any cotton fabrics set aside under paragraph (b) unless his invoice bears an endorsement substantially as follows:

This material is sold under your certification reading as follows:
(The full certification from purchase order or contract required by paragraphs (c) (2) and (c) (3) must be inserted.)

(5) *Delivery dates and sequence of deliveries.* The delivery dates and the sequence of deliveries of cotton fabrics set aside under paragraph (b) shall be in accordance with Priorities Regulation 1, all of the provisions of which must be observed. Attention particularly is called to the following provisions of § 944.7 of Priorities Regulation 1:

(a) Every person who has rated orders on hand must schedule his operations, if possible, so as to fill each rated order by the required delivery or performance date (determined as explained in § 944.8). If this is not possible for any reason, he must give precedence to higher over lower rated orders, and to all rated over unrated orders. However, material specifically produced for a rated order may not be used to fill a higher rated order (except AAA) subsequently received if the material is completed or is in production and scheduled for completion within fifteen days. A low rated order bearing an earlier delivery or performance date must be filled before a higher rated order bearing a later delivery or performance date if it is possible to fill both of them on the required dates.

(b) As between conflicting orders which bear the same preference rating, preference must be given to the order which was received first with the rating. As between conflicting orders received with the same preference rating on the same date, precedence must be given to the order which has the earlier required delivery or performance date.

Attention also is called to the fact that every rated order must specify delivery or performance on a particular date or dates or within specified periods of not more than 31 days each, which in no case may be earlier than required by the person placing the order. Further provisions, and exceptions are contained in § 944.8 of Priorities Regulation 1.

(d) *Priority of piece goods orders.* Each intermediate processor and producer of colored yarn fabrics shall treat purchase orders and contracts bearing the piece-goods certification set forth in paragraph (c) (3) as AA-4 orders, unless they actually are rated higher.

(e) *Exceptions.* Exceptions from paragraph (b) may be authorized by the War Production Board in writing pursuant to letter application from any intermediate processor or colored yarn fabric producer who in the six months prior to August 1, 1944, did not sell any of the cotton fabrics listed in Column 1 for piece goods, or finish or cause to be finished any of such fabrics in a manner suitable for incorporation into an item listed in the Item column of Supplement II.

(f) *Directions for piece goods.* Directions may be issued to producers pursuant to paragraph (c) of M-328, respecting the sale and delivery of cotton fabrics as piece goods.

(g) *Records and reports.* Each intermediate processor and each producer of colored yarn fabrics shall maintain at his regular place of business, for each construction of fabric listed in this Supplement I, accurate records of the unrated yardage purchased, in the case of intermediate processors, or produced, in the case of colored yarn producers, the quantities set aside from such yardage in accordance with the percentages specified in this Supplement I, and the quantities represented by accepted orders bearing AA-4 ratings. These records shall be preserved for a period of not less than two years, and upon request shall be submitted to audits and inspections by the duly authorized representatives of the War Production Board.

Each intermediate processor and producer of colored yarn fabrics to whom Form WPB-3848 is sent by the War Production Board shall execute this form monthly, in accordance with the instructions thereon, and file the executed form monthly with the War Production Board. This reporting requirement has been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 27th day of July 1944.

AA-4 PREFERENCE RATING FOR COTTON FABRIC ITEMS

§ 3290.346b *Supplement II of General Conservation Order M-385*—(a) *Assignment of preference ratings and restrictions.* (Column references are to schedules of this Supplement II.)

(1) Preference rating AA-4 is assigned to processors who meet and comply with the requirements of General Conservation Order M-385 including this Supplement II to obtain the particular cotton fabrics listed in any "Fabric-Maximum Price Column." Such cotton fabrics must be incorporated into an item (listed in the "Item Column"), to be produced for sale by the processor at or below the lower of the following two prices:

The processor's O. P. A. ceiling price, or the price per dozen listed in the same "box" of the "Fabric-Maximum Price Column" which also describes the particular fabric from which the item is to be made.

(2) This rating is good only to obtain cotton fabrics set aside under Supplement I of this order. It may not be applied or extended to a producer except for colored yarn fabrics.

(3) Regardless of the provisions of any other War Production Board order or regulation, no cotton fabrics obtained with this rating shall be used or disposed of for any purpose other than that for which the rating is assigned.

Class B. 15% of combined amount of Class A and B dyestuffs delivered to all persons in 1941 for such use.	15% of combined amount of Class A and B dyestuffs received from all sources in 1941, *plus 250 pounds.*
(For the purpose of Class B quota, calculate in pounds of equivalent single strength Anthraquinone vat dyes. The poundage may be increased to equal 25 or a multiple thereof.)	
Class C. 15% of value of Class C dyestuffs delivered to all persons in 1941 for such use.	15% of value of Class C dyestuffs received from all sources in 1941, *plus $250 value.*

[Paragraph (4) formerly (3) redesignated July 27, 1944; former paragraph (4) revoked July 27, 1944.]

(4) *Quota adjustments.* For the purpose of the Class B, C and D quotas, referred to in the above schedule:

(i) *Use by producer.* Amounts of dyestuffs which are or have been used by a producer in any calendar quarter or in 1941, shall be considered as having been delivered to such person in such quarter or in 1941, as the case may be.

(ii) *Credit for returned dyestuffs.* Amounts of dyestuffs returned to a vendor prior to the 22nd day after the end of the calendar quarter in which they were delivered, shall not be charged as delivered or accepted.

(c) *Restrictions on exports—(1) General restrictions.* No producer shall export or deliver for export from the United States to any place other than Canada any dyestuffs produced by him, except either upon orders accompanied by individual export licenses issued by the Foreign Economic Administration (the applications for which show thereon the corresponding current domestic sales price of such dyestuffs) or upon orders from an agency of the United States for delivery pursuant to the Act of March 11, 1941, as amended, entitled "An Act to promote the Defense of the United States" (Lend-Lease Act). The total value, exclusive of the exceptions provided in paragraph (d), of dyestuffs so exported or delivered in any quarter shall not exceed:

(i) As to Class A dyestuffs, ½ of 1% of the total value of all Class A dyestuffs delivered by him in 1941.

(ii) As to Class B dyestuffs, 1% of the total of all Class B dyestuffs delivered by him in 1941.

(iii) As to Class C dyestuffs, ¾ of 1% of the total value of all Class C dyestuffs delivered by him in 1941.

(3) *Carry-over of undelivered portion of export quota.* Amounts of dyestuffs which a producer may export or deliver for export from the United States to all places other than Canada in any calendar quarter and which have not been exported or delivered for export in such quarter, may be exported or delivered for export in the following quarter in addition to the quota for that quarter. For the purposes of this subparagraph (3), all dyestuffs, other than Class A, B or C, shall be considered one class.

(d) *General exceptions.* The restrictions in subparagraphs (1), (2) and (3) of paragraph (b) (*Restrictions on delivery*) and the restrictions in paragraph (c) (*Restrictions on export*) shall not apply to the delivery or acceptance of delivery of dyestuffs.

(9) To replace in inventory amounts which, although not acquired for any of the uses referred to in any of the subparagraphs of this paragraph (d), were nevertheless used for one or more of such purposes.

(10) For purposes other than coloring (e. g. rubber chemicals).

Provided, That all deliveries of dyestuffs exempted from the restrictions of said paragraphs (b) and (c) by subparagraphs (2), (3), (4), (5), (6), (7), or (9) of this paragraph (d) shall be made only upon the receipt by the vendor from the purchaser of a certificate signed by such purchaser, or by a person authorized to sign in his behalf, in substantially the following form:

The undersigned hereby certifies to his vendor and to the War Production Board that the dyestuffs to be delivered on the annexed purchase order will be used for one or more of the purposes specified in paragraph (d) of Conservation Order M-103, or will replace inventory so used.

In the case of all other physical mixtures of dyestuffs, the classes of components shall be considered separately.

(g) *Restrictions on use of specific dyestuffs.* No person shall use any:

(1) [Deleted Oct. 23, 1943.]

(2) Anthraquinone in any physical form in discharging (including color and white discharge), stripping or destroying naphthol (azoic), vat or other dyes already present on textile fibers. This provision shall not prohibit the use of Anthraquinone in the manufacture of dyestuffs.

(3) Annato or annato extracts for coloring any materials other than food products.

(h) *Restrictions on inventory.* In addition to the restrictions on inventory contained in Priorities Regulation No. 1 (§ 944.14), no person shall accept delivery of any Class A dyestuffs which will increase his inventory thereof beyond an amount which, to the best of his knowledge and belief, will be used by him in the next 45 days.

(k) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

PART 1351—FOOD AND FOOD PRODUCTS

[FPR 2, Supp. 3]

BARLEY

In the judgment of the Price Administrator, it is necessary and proper to establish permanent maximum prices for the sale and delivery of barley. The prices established herein are, in the judgment of the Administrator, generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and of Executive Orders Nos. 9250 and 9328.

Maximum Price Regulation 511, as amended, is superseded insofar as it establishes maximum prices for the sale and delivery of barley.

Such specifications and standards as are used in this supplement were, prior to such use, in general use in the trade or industry.

A statement of the considerations involved in the issuance of this supplement, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Explanation of the relation of this supplement to Food Products Regulation No. 2. Not all of the provisions affecting the maximum prices for sales of barley are stated in this supplement. Those which are not specifically set forth here are stated in Food Products Regulation No. 2, and they are just as much a part of this supplement as if they were printed here.

The particular sections of Food Products Regulation No. 2 which are applicable to this supplement are listed at appropriate places in the provisions which follow. When any applicable section of the regulation is amended, the amendment also is applicable to this supplement.

SECTION 1. *Applicability.* Except for those sales exempted by paragraph (a) of this section, this supplement shall apply to all sales of imported and domestic barley, to all deliveries of such barley, whether immediate or future, and to all purchases in the course of trade or business of foreign grown barley to be imported into the United States.

(a) *Exempt sales*—(1) *Sales by retailers.* This supplement shall not apply to sales by retailers as defined herein. Supplement No. 1 to Food Products Regulation No. 2 shall apply.

(2) *Export sales.* This supplement shall not apply to any export sale. The maximum price for such sales shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation, as amended.

(3) *Emergency purchases.* Section 1.2 (a) of Food Products Regulation No. 2, dealing with the exemption of emergency purchases, is applicable to this supplement.

(4) *Seed barley.* This supplement shall not apply to sales of barley which the buyer intends to use for seed for planting or to resell for ultimate use as seed for planting. Section 2.7 of Food Products Regulation No. 2, dealing with special rules for such sales, is applicable to this supplement.

(5) *Prior contracts.* This supplement shall not apply to deliveries made prior to August 10, 1944 pursuant to contracts for the sale of barley entered into before the date of issuance of this supplement, if such contracts complied with the provisions of Maximum Price Regulation 511, as amended.

SEC. 2. *Sales at other than maximum prices.* (a) Regardless of any contract or obligation, no person shall sell or deliver, and no person shall, in the course of trade or business, buy or receive any barley covered by this supplement at a price above the maximum price established by this supplement, nor shall any person agree, solicit, offer, or attempt to do any of the foregoing: *Provided, however,* That certain agreements to raise prices are permissible, as provided for in subparagraph (1) of this paragraph.

(1) *Adjustable pricing.* Section 1.2 (b) of Food Products Regulation No. 2, dealing with adjustable pricing, is applicable to this supplement.

(b) Prices lower than the maximum prices established by this supplement may, of course, be charged or paid.

SEC. 3. *Evasion.* Any method whereby a seller obtains greater consideration than the maximum price, or whereby he gives less than the consideration due the buyer for the maximum price, is an evasion of this supplement, and, therefore, prohibited; any offer or agreement which accomplishes or attempts to accomplish such results is equally prohibited.

SEC. 4. (a) *Applicability of provisions of Food Products Regulation No. 2.* All provisions of Food Products Regulation No. 2 are applicable to and made a part of this supplement. (b) *Additional definitions.* When used in this supplement, the following terms shall have the following meanings:

(1) "Test weight per bushel" means that factor in determining the grade of barley under the method prescribed in the Official Grain Standards of the United States.

(2) (i) "Malting barley" means barley which the buyer intends to use for manufacturing into barley malt, or to resell for use for that purpose. It does not include any of the following categories:

Mixed Barley and Black Barley as defined in the Official Grain Standards of the United States.
Barley grading lower than No. 4.

Barley containing in excess of 10 percent skinned and broken kernels.
Barley containing in excess of 12 percent wheat.
Barley containing in excess of 20 percent Trebi.
Barley containing in excess of 20 percent Spartan.
Barley containing in excess of 20 percent California Mariout or Club Mariout.
Barley containing in excess of 20 percent Vaughn.
Barley containing in excess of 20 percent Hero.

(ii) "Pearling barley" means barley which the buyer intends to use for manufacturing into pearled barley or any other product or products for human consumption, or to resell for ultimate use for those purposes. Such barley must grade No. 2 or better and must pearl white or creamy.

(3) "United States", when it refers to an area, means the 48 states and the District of Columbia.

"Area A" means the surplus producing areas of barley in the United States, as described in Table II of Appendix A.

"Area B" means all parts of the United States not included in "Area A".

(4) "Your transportation cost" means (i) If you employ a common carrier, contract carrier, or other carrier for hire or compensation, the charge which you actually incur for the transportation service; or

(ii) If you do your own hauling by truck or wagon, the hauling allowance at the scale set forth in definition (5); or

(iii) If you transport the lot by barge or vessel owned, leased, or chartered and operated by you, the going rate for the same movement, if there is such a going rate, or if there is no going rate for the same movement, then the going rate for the most similar movement not to exceed the reasonable value of the services; or

(iv) When any movement involves a combination of more than one of the types of transportation included in (i), (ii) and (iii), the transportation cost for the movement of each type shall be computed separately and the results added.

(v) If any part of the movement is by barge or vessel, you may add customary vessel brokerage, cargo insurance, and outturn insurance or allowance on such lot, to the extent not included in the cost computed under (i) or (iii) above.

(5) "Hauling allowance" means the following scale of charges:

If the total haul does not exceed 100 miles—8 cents per 100 pounds for the first five miles or fraction thereof plus 1 cent per 100 pounds for each additional five miles or fraction thereof; or

If the haul exceeds 100 miles, the lowest carload rail rate from the rail point nearest the point of origin to the rail point nearest point of destination plus 8 cents per 100 pounds, but not to exceed 22 cents per 100 pounds plus ¼ cent per 100 pounds for each five miles or fraction thereof over 100 miles.

In applying the above mileage scale all distances shall be determined via the shortest route between point of origin and point of destination reasonably suitable for truck movement.

(6) "Producer" means, with respect to any lot of barley, grown in the United States, either

(i) The person who grew or harvested such lot of barley; or

(ii) A landlord who received such lot of barley as or in lieu of rent for the farm where grown; or

(iii) Any person who delivers the barley to his customer at the farm where grown or at roadside near such farm. The result of this is that if you do not deliver the barley to your customer off the farm where grown you do not secure a higher price than the person who grew it would have received.

(7) "Country shipper" means, with respect to any lot of barley, a person who purchases and receives the barley from a producer in any quantity before any movement by rail car or barge, and (i) delivers it to his customer at a point which is neither on the farm where grown nor at roadside near such farm, and (ii) delivers it in any manner other than as a trucker-merchant or as a retailer.

(8) "Trucker-merchant" means, with respect to any lot of barley, a person who purchases such barley for resale and, without loading it into a barge or railroad car or unloading it into an elevator or warehouse for his own account and use, transports and delivers the same to his customer in a truck or wagon owned or leased and operated by him.

(9) "Merchandiser" means, with respect to any lot of barley owned by him, a seller, other than a retailer, for whom a maximum price is not otherwise provided in this supplement. In other words, he is a person who merchandises the barley other than as a producer, country shipper, trucker-merchant, or retailer.

(10) "Retailer" means, with respect to any lot of barley, a person who unloads such barley into his store and sells and delivers it to a feeder.

(11) "Store" means a building where a regular business of selling and delivering grain and/or feeds to feeders is carried on, and where the owner or one or more of his employees work on a substantially full-time basis in such business or in a general retail business of which such grain and feed business is a part. If several employees divide their time between the retail business and other work, the requirement of a substantially full-time employee will be satisfied if the aggregate time which the several employees spend in the retail business equals a full work day for one person. Occasional sales of grain and feed to other than feeders may be made, but only as an incidental part of the business if its status as a "store" is to be maintained.

(12) "Broker" means, with respect to any lot of barley, a person who, acting for the account of either seller or buyer or both, negotiates a sale or purchase of such barley for either seller or buyer or both other than as a commission merchant or as an employee of either seller or buyer. No person can be a broker as to barley owned by him.

(13) "Commission merchant" means, with respect to any lot of barley, a person who receives a carload shipment or a lot of 60,000 pounds or more on behalf of another person who is the owner thereof and negotiates or has negotiated a sale of such barley in his own name to a person other than himself on a recognized grain exchange in any of the following cities:

Buffalo, N. Y.	Kansas City, Mo.
Chicago, Ill.	Louisville, Ky.
Cincinnati, Ohio.	Memphis, Tenn.
Dallas, Tex.	Milwaukee, Wis.
Denver, Colo.	Minneapolis, Minn.
Des Moines, Iowa.	Omaha, Nebr.
Duluth, Minn.	Peoria, Ill.
Enid, Okla.	St. Joseph, Mo.
Fort Worth, Tex.	St. Louis, Mo.
Hutchinson, Kans.	Salina, Kans.
Indianapolis, Ind.	Sioux City, Iowa.
Toledo, Ohio.	

Regardless of any of the provisions of this supplement, division of commission charges may be made with and paid to exchange members in accordance with rules of the respective exchanges which were in effect January 1, 1943, and sellers of barley who are members may receive such divisions.

(14) "Terminal base point" means any city listed in section 6, and includes all points within the corporate or switching limits of such city.

(15) "Interior point" means any point other than a terminal base point, except that with respect to any particular lot of barley it does not include the farm where such barley was grown.

(16) "Interior rail point" means any point other than a terminal base point having facilities for the loading of railroad freight cars and from which railroad freight rates are published as provided by law.

(17) "Base price" means the price per bushel, with adjustments for grade and quality, as provided in section 6. These base prices shall not be used independently as maximum prices nor shall they be used in any other method than is specifically provided in the maximum pricing provisions (sections 7 to 11, inclusive).

(c) *General explanation of the pricing provisions in this supplement.* This supplement provides a maximum price for every kind of seller and for every kind of sale not exempted under other provisions of this supplement. You may not always be the same type of seller on different lots of barley that you sell, and you must consult the definitions to learn the type of seller you are in connection with any particular sale. In order that pricing provisions should be fair to every kind of handler, it has been necessary to define types of sellers more closely by reference

to the functions they perform in each transaction rather than by popular terminology used by the trade. You must, therefore, be careful to study the definitions in connection with the particular sale you want to price. After you have decided the type of seller you are on a particular sale, you look in the following sections for your maximum price.

If you are a producer, see section 7.
If you are a trucker-merchant, see section 8.
If you are a country shipper, see section 9.
If you are a merchandiser, see section 10.
If you are an importer, see section 11.
If you are a retailer, you will find your maximum price in Supplement No. 1 to Food Products Regulation No. 2.
If you are selling mixed grain, your maximum price is provided in Article IV of Food Products Regulation No. 2.

In some cases, you will find that your maximum price depends on your supplier's maximum price. In other cases, as in sections 7, 9, 10, or 11, you will find that your maximum price for the sale of a particular lot of barley depends on what is called a "base price," which you will find in section 6. Base prices are not maximum prices although sometimes you will find that the maximum price on a particular lot is the same as the base price; but more often the maximum pricing provisions provide that you deduct something from, or add something to, the base price in computing your maximum price.

SEC. 6. *Base price.* As explained in the preceding section, "base prices" are not maximum prices but are used in the determination of maximum prices. All barley does not have the same value because of variations in grade and quality, and also because barley located at one point may command a different price than barley located at another point. Base prices are, accordingly, worked out to reflect differences in grade and quality and differences in location. Generally speaking, this supplement starts any lot of barley into marketing channels with a maximum price at or near its origin, and these base prices are for the purpose of arriving at such initial maximum price for the particular grade, quality, and location. At different levels of marketing the supplement permits the addition to base prices of transportation costs, markups, and similar incidents to distribution.

In order to provide a base price for domestic barley at every point in the United States for every grade and quality, it is necessary to establish base prices by location for a "standard grade" of barley and provide premiums and discounts from that "standard grade" for other grades and qualities. The "standard grade" is No. 2 barley having a test weight of 46 pounds per bushel. Base prices for other grades and qualities are determined by adding or subtracting the premiums and discounts provided in Table I of Appendix A to or from the corresponding price for the "standard grade;" Except, that barley grown in California and Nevada and in the counties of Lake and Klamath in Oregon is not required to be sold on grade and the base prices in paragraph (a) shall apply on all sales of such barley without discount or premium for grade: *Provided*, That the premium allowed for malting barley or pearling barley may be charged and paid.

(a) Base prices by location for the "standard grade" of barley, and for other barley not required to be sold on grade, shall be as follows:

(1) At the following terminal base points, the prices per bushel as shown:

Terminal base point:	Price per bushel
Chicago, Ill.	$1.20
Milwaukee, Wis.	1.20
Minneapolis and St. Paul, Minn.	1.14
Duluth, Minnesota, and Superior, Wis.	1.14
Omaha, Nebraska, and Council Bluffs, Iowa	1.14
Sioux City, Iowa	1.12½
San Francisco, Calif.	1.23
Los Angeles, Calif.	1.24
Portland, Oreg.	1.13
Seattle and Tacoma, Wash.	1.13
Ogden, Utah	1.15

(2) At any interior rail point in Area A the highest price determined by deducting from the base price at any terminal base point the transportation charges per bushel from such interior rail point to such terminal base point at the lowest domestic carload freight rate.

(3) At any interior point in Area A, other than an interior rail point, the base price at the nearest interior rail point.

(4) At any interior point in Area B, the price set forth in Table III of Appendix A opposite the state and county or parish wherein the interior point in question is situated. If any interior point lies in the two price zones, its base price shall be the price of the higher zone. If any interior point lies in a zone for which no price is named, its base price shall be the highest base price in any county or parish abutting such zone.

(5) At the farm where grown, the base price of the nearest interior rail point less 4 cents per bushel.

(b) For base prices on imported barley, see section 11 of this supplement.

SEC. 7. *Maximum prices for sales by producers.* You will find that the term "producer" has been defined to include several persons. It includes a person who grew or harvested the lot of barley, and a landlord who received the barley as or in lieu of rent for the farm where grown. In addition, for the purposes of the maximum pricing provisions, it includes any other person who delivers the barley to his customer on the farm where grown or at roadside near such farm, the price result of this being that you must deliver the barley to your customer away from the farm where grown or roadside nearby in order to secure a higher price than the person who grew the barley could have received.

You will not be acting as a producer in selling barley, but as a country shipper, merchandiser, or retailer, as the case may be, *Provided*, That before selling the barley you have it transported to a store, elevator, or warehouse operated by you at which you carry on a regular business of buying and selling grain produced by others, and in the operation of which business you employ, at such place, one or more full-time salaried employees, or yourself work in that business at that place on substantially a full-time basis. Under such circumstances, your maximum price shall be determined as though you purchased the barley from another producer at that producer's maximum price on his delivery made to your store, elevator, or warehouse.

In connection with any delivery by you as a producer, if your customer performs any service or incurs any expense in connection with growing, threshing, harvesting, collecting from field, or assembling at point where available for ready transportation from farm, the reasonable value of all such services performed and the expense so incurred must be deducted when he pays you the appropriate maximum price.

The maximum price of a producer is as follows:

(a) If you deliver any lot of barley on the farm where grown or at roadside near the farm, your maximum price per bushel, bulk, shall be the base price at the farm where grown, with the following two exceptions:

(1) If there is an interior rail point on the farm, and you deliver the barley to your customer at a rail loading facility at such interior rail point, your maximum price shall be the base price at the interior rail point, less one cent per bushel if delivered to your customer loaded in a rail car or less 2½ cents per bushel if not so loaded.

(2) If you are a landlord and you receive the barley from your tenant as or in lieu of rent, and if the lease or rental agreement between you provides for delivery of the barley at some point other than the farm where grown, then your maximum price for the sale of the barley to your tenant for delivery at the farm shall be the base price at the farm plus 1½ cents per bushel.

(b) If you deliver the barley by truck or wagon from the farm where grown to an elevator or warehouse (not including a delivery to a feeder, store, or processing plant, which is covered in paragraph (e) separately), your maximum price per bushel, bulk, shall be the base price at that point less 2½ cents per bushel.

(c) If you store the barley in any elevator or warehouse located at an interior point and deliver it to your customer in storage, your maximum price shall be the base price at that point less one cent per bushel, but you must either pay or have deducted from the payment of the maximum price to you all accrued storage and handling charges, including the loading out charges. If your customer is also the warehouseman, the deduction for handling and loading out shall be not less than 1½ cents per bushel.

(d) (1) If you deliver the barley by truck or wagon from the farm where grown to your customer at a rail loading facility at an interior rail point, without loading into cars, your maximum price per bushel, bulk, shall be the base price at that point less 2½ cents per bushel; or

(2) If you deliver the barley to your customer loaded aboard a rail car or barge, and if it is delivered at point of loading, your maximum price shall be the base price at point of loading less 1 cent per bushel; or

(3) If after so loading the barley on a rail car or barge, you deliver it to your customer following a rail or barge movement, your maximum price shall be the base price at point of loading less 1 cent per bushel but plus your transportation cost from the point of loading: *Provided*, That if after a rail or barge movement you store the barley, you must either pay or have deducted from the payment of the maximum price to you all accrued storage and handling charges, and the loading out charge. If your customer is also the warehouseman, the deduction for handling and loading out shall be not less than 1 cent per bushel.

(e) You may deliver the barley by truck or wagon to either a feeder, store, or processing plant, in which case your maximum price per bushel, bulk, shall be the base price at the farm where grown plus your transportation cost from the farm to the point of delivery to your customer.

(f) If you deliver the barley to your customer in any manner other than as provided above, your maximum price shall be the base price on the farm where grown plus 1½ cents per bushel.

SEC. 8. *Maximum prices for sales by trucker-merchants.* Trucker-merchant is defined as one who purchases barley for resale and, without loading it into a barge or railroad car or unloading it into an elevator or warehouse for his own account and use, transports and delivers the barley to his customer in a truck or wagon owned or leased and operated by him.

If you are a trucker-merchant under this definition, your maximum price per bushel, bulk, for the sale of any lot of barley is your supplier's maximum price on the sale and delivery to you plus your hauling allowance from the point where you received delivery from your supplier to the point of delivery to your customer: *Provided*, That if you deliver the barley to a terminal base point, your maximum price shall not exceed the base price at such point less 1¼ cents per bushel.

Every trucker-merchant shall, with respect to every lot of barley transported by him as a trucker-merchant, procure or prepare a statement of information which shall accompany the barley while in transit on the truck. Such statement shall set forth the name and address of the trucker-merchant and of his supplier, the date of purchase, the point where he received delivery, and the grade and purchase price of the barley. Upon delivery of the barley by the trucker-merchant, a copy of the statement of information signed by the trucker-merchant shall be given to his customer showing also the point of delivery to his customer and the transportation charge being made. Copies of this statement shall be retained by the trucker-merchant and by his customer as a part of their records.

For enforcement purposes, it is necessary that both the shipments themselves and the records of the trucker-merchant covering such shipments be inspected while in transit. Failure of a trucker-merchant to stop for such inspection in response to instructions in a sign conspicuously posted at roadside or upon signal by an Office of Price Administration enforcement official shall be a violation of this supplement, subject to all penalties of the Emergency Price Control Act of 1942, as amended.

SEC. 9. *Maximum prices for sales by country shippers.* "Country shipper" is defined in section 5 (b) (7) to mean, with respect to any lot of barley, a person who purchases and receives the barley from a producer in any quantity before any movement by rail or barge and delivers it to his customer at a point which is neither on the farm where grown nor at roadside near the farm, in any manner other than as a trucker-merchant or retailer.

This section sets forth the maximum prices for the ordinary "country shipper" marketing transactions.

If, however, your transaction is a sale and delivery of malting barley, you may add 1¼ cents per bushel to the maximum price which would otherwise apply under this section, but in that case you are subject to all the rules and restrictions set forth in section 2.7 of Food Products Regulation No. 2. This extra markup for malting barley is not subject to the limitation on markups provided in section 12 of this supplement.

To the prices determined under this section, you may add various charges which you incur, or allowances for special handling of the barley, under the rules provided in section 13. Subject to such additions, the maximum prices per bushel, bulk, for sales by a country shipper are as follows:

(a) If you deliver the barley in a lot of 60,000 pounds or more, or as a carload shipment, loaded in a rail car or barge, or after a movement by rail or barge, your maximum price per bushel, bulk, shall be the base price at the point where first so loaded plus your transportation cost, if any, from the point of loading: *Provided*, (1) That if, after a rail or barge movement you store the barley, you must either pay or have deducted from the payment to you of the maximum price, all accrued storage and handling charges, and the loading out charge. If your customer is also the warehouseman, the deductions for handling and loading out shall be not less than 1 cent per bushel.

(b) If your delivery, after any movement by rail car or barge, is in a less-than-carload quantity, you shall add 2½ cents per bushel if delivered to a feeder, or 1¼ cents per bushel if delivered to any other person, to your maximum price for a carload shipment as computed in paragraph (a), and plus your transportation cost, if any: *Provided*, That if you do your own hauling and, therefore, your transportation cost is the hauling allowance set forth in section 5 (b) (5), and if the distance you haul the barley is more than 60 miles, you shall not then add the markups provided in this paragraph because the scale is so established that for that distance or more, it includes an adequate profit on the sale of the barley hauled.

The additional markups in this paragraph will not be subject to the limitation on markups provided in section 12 of this supplement.

(c) (1) If you deliver the barley in any quantity stored in the elevator or warehouse to which it was hauled by truck or wagon from the farm where grown, your maximum price per bushel, bulk, shall be the base price at the point where the elevator or warehouse is located, but you must either pay, or have deducted from payment of the maximum price to you, all accrued storage and handling charges, and the loading out charge. If your customer is also the warehouseman, the deduction for handling and loading out shall be not less than 1½ cents per bushel.

(2) If you deliver the barley from such elevator or warehouse, in a less-than-carload quantity, your maximum price shall be the base price at that point plus 2½ cents per bushel if delivered to a feeder, or plus 1¼ cents per bushel if delivered to any other person, and plus your transportation cost, if any: *Provided*, That if in making delivery you do your own hauling, you shall add the hauling allowance set forth in section 5 (b) (5), but if the distance is more than 60 miles, you shall not add the extra markup provided in this subparagraph for the reason explained in paragraph (b) of this section.

The additional markups in this subparagraph will not be subject to the limitation on markups provided in section 12 of this supplement.

(d) If you deliver the barley from the farm where grown by a for-hire truck or wagon to a store, feeder, or processor, your maximum price shall be the base price at the farm, plus 2½ cents per bushel, and plus your transportation cost. (If so delivered in your own truck, you would come under the

definition of "trucker-merchant" and price accordingly.)

(e) The maximum price for the sale by a country shipper of any lot of barley handled in any manner not specified above shall be the base price at the farm where grown plus 1½ cents per bushel.

SEC. 10. *Maximum prices for sales by merchandisers.* With the exception of persons acting as producers or country shippers, all sellers who deliver barley in any manner other than as trucker-merchants or retailers, are "merchandisers" by definition.

This section sets forth the maximum prices for the ordinary "merchandiser" marketing transactions. If, however, your transaction is a sale and delivery of malting barley, you may add 1¼ cents per bushel to your maximum price which would otherwise apply under this section, but in that case you are subject to all the rules and restrictions set forth in section 2.7 of Food Products Regulation No. 2. This extra markup for malting barley, and the less-than-carload extra markups in paragraph (a) (3), are not subject to the limitation on markups provided in section 12 of this supplement, but all other markups provided in this section *are* subject to those limitations. To these prices you may be entitled to add various charges which you may incur, or allowances for special handling of the barley, under the rules provided in section 13 of this supplement. Subject to such additions, the maximum prices per bushel, bulk, for sales by a merchandiser are as follows:

(a) (1) For all deliveries of barley which you receive and deliver in quantities of 60,000 pounds or more, or as a carload shipment, you calculate your maximum price by adding to your supplier's maximum price on the sale and delivery to you (or to the price of a withdrawal of grain as determined under section 2.3 of Food Products Regulation No. 2) your transportation cost and a markup of 1¼ cents per bushel.

(2) If you receive any lot of barley from your supplier by truck or wagon, and his maximum price on the sale and delivery to you exceeds the base price at the point where he delivered the barley to you, less 1¼ cents per bushel, you must, if you reship the barley by rail or barge or sell it in storage, use such base price less 1¼ cents per bushel in place of your supplier's maximum price, and after such adjustment you calculate your maximum price as provided in subparagraph (1).

(3) If you deliver any lot of barley in a less-than-carload quantity, your maximum price shall be as computed in subparagraph (1) plus 2½ cents per bushel if delivered to a feeder or plus 1¼ cents per bushel if delivered to any other person, and plus your transportation cost, if any: *Provided*, That if you do your own hauling and, therefore, your transportation cost is the hauling allowance set forth in section 5 (b) (5), and if the distance you haul the barley is more than 60 miles, you shall not then add the markups provided above because the scale is so established that for that distance or more, it includes markups for the sale of the barley hauled.

(b) If you deliver the barley to your customer in storage, you must either pay or have deducted from the payment of the maximum price to you all accrued storage and handling charges, and the loading out charges. If your customer is also the warehouseman, such deduction for handling and loading out shall be not less than 1 cent per bushel.

SEC. 11. *Maximum prices of purchases and sales by importers.* (a) (1) "Importer" means, with respect to any lot of barley grown outside the United States, the first person who owns the lot after entry into the United States, and who sells it through his office located in the United States or who processes it at his plant located within the United States. When he sells the barley, the importer will be either a merchandiser, trucker-merchant, or retailer, according to the manner in which he sells.

(2) "Imported barley" means any lot of barley grown outside the United States which is either

(i) To be imported into the United States, or

(ii) Is still owned by the importer of such lot.

(3) "Cif" (cost, insurance, freight) means, with respect to the price of any lot of barley delivered by vessel, the price delivered alongside or on the vessel at the port where discharged, the seller having paid all customary expenses to that point and also marine insurance and freight to the delivery port, together with any export taxes, or other fees or charges, if any, levied because of exportation. The buyer shall receive the barley upon arrival, handle and pay for all subsequent movement of the barley, including taking delivery from the vessel in accordance with bill of lading clauses and terms; pay all costs of landing, including any duties, taxes, and other expenses at the named point of destination. The buyer must also pay for war risk insurance, if any, provided by the seller and for certificates of origin, consular invoices, or any other documents issued in the country of origin, or of shipment, or both, which may be required for importation of the barley into the United States.

(b) (1) The base price per bushel, bulk, for imported barley which enters the United States by truck or wagon shall be the base price on domestic barley of the same grade and quality at the point of delivery.

(2) Base prices for imported barley entering the United States other than by truck or wagon via different points of entry shall be determined with reference to certain base points which may be established by order of the Administrator at any time.

(3) Base prices for imported barley may be provided by order of the Administrator, in United States dollars, bulk, per bushel of 48 pounds at certain base points for specified grades and qualities according to the circumstances connected with any anticipated importation. Such base prices shall be calculated to equalize as nearly as practicable the prices of imported barley at its expected final destination or destinations with estimated maximum prices for domestic barley of the same grade and quality delivered at those points, under the provisions of this supplement.

Importers of barley shall make application to the Price Administrator for issuance of such orders before entering imported barley into the United States other than by truck or wagon as provided above.

(c) If you are an importer, the maximum price per bushel, bulk, at which you can purchase any lot of imported barley shall be:

(1). For vessel shipment to the United States:

(i) If purchased Cif the port of discharge, the base price at such point, or

(ii) If purchased loaded aboard rail cars, barges or trucks, the base price at the port of discharge plus the expenses incurred by your supplier (not in excess of any published rates therefor) for taking delivery of the barley from the vessel; costs of landing; inspection and weighing from vessel into elevator or warehouse; elevation, including loading into conveyances for inland transportation; clearing through customs, including any taxes and tolls assessed against the barley at port of discharge; and plus your supplier's transportation cost, if any, from the port of discharge, or

(iii) If purchased in storage at any point, the maximum price as calculated in subdivision (ii) for such point, but your supplier must either pay or have deducted from the payment of the maximum price to him all accrued storage and handling charges, including loading out charges, and the out-inspection and weighing charges.

(2) If purchased for rail shipment into the United States, the base price at the destination to which your supplier incurs the freight: *Provided*, That if purchased in storage after rail shipment into the United States, your supplier must either pay or have deducted from the payment of the maximum price to him all accrued storage and handling charges, and the loading out charges.

(3) (i) If purchased for shipment or after shipment into the United States by truck or wagon, the base price at the point of delivery to you in the United States less 2½ cents per bushel: *Provided*, That if purchased in storage after such movement, the maximum price is the base price less 1 cent per bushel, but your supplier must either pay or have deducted from the payment of the maximum price to him all accrued storage and handling charges, and the loading out charge, or

(ii) If purchased loaded aboard rail cars after shipment into the United States by truck or wagon, the base price at the rail point where so loaded less 1 cent per bushel, and plus your supplier's transportation cost, if any, on his sale and delivery to you.

(d) If you are an importer, your maximum price per bushel, bulk, for the sale of any lot of imported barley shall be determined under section 8 of this supplement if you sell as a trucker-merchant, or section 10 if you sell as a merchandiser, or under Supplement No. 1 to Food Products Regulation No. 2 if you sell as a retailer, by substituting your maximum purchase price as computed in this section, for "your supplier's" maximum price.

SEC. 12. *Limitations on total markups of country shippers and merchandisers, and on service charges of commission merchants and brokers which may be included in a maximum price.* In order to prevent undue accumulation of markups for distribution services, all markups (except the extra markups for sales of malting barley, and for less-than-carload sales, provided in sections 9 and 10) which merchandisers may add under this supplement or under Food Products Regulation No. 2, also all service charges of commission merchants and brokers and all merchandising markups of country shippers under Food Products Regulation No. 2, are subject to the limitations provided in this section. These limitations apply to the total of all such markups, and service charges for commission merchants and brokers.

(a) The maximum price for the sale of any lot of barley shall never include an amount in excess of 4¾ cents per bushel as a total of all merchandising markups and of all service charges for brokers and commission merchants, but this maximum of 4¾ cents per bushel shall be subject to the following zoning limitations as to transactions in Areas A and B:

(1) If you are the first person who contracts to deliver into Area A to a customer located in Area A a lot of barley originating or which has originated in Area B, such total shall not exceed 1¾ cents per bushel: *Provided*, That this zoning limitation shall not apply to sales in Area A by a selling office located in Area A of a merchandiser otherwise entitled to a greater markup under section 2.5 of Food Products Regulation No. 2.

(2) When barley is delivered to anyone in Area A, except as provided in (1), such total shall not exceed 3 cents per bushel.

(3) If you are the first person who contracts to deliver into Area B to a customer located in Area B barley originating in Area A or barley which previously has been marketed in Area A, such total shall not exceed 3 cents per bushel: *Provided*, That this zoning limitation shall not apply to sales in Area B by a selling office located in Area B of a merchandiser otherwise entitled to a greater markup under section 2.5 of Food Products Regulation No. 2.

These are limitations on the total of markups and service charges which may be included in any maximum price. They may lessen, but will never increase, the amount of any single maximum markup or maximum service charge.

SEC. 13. *Rules relating to additions to the maximum price*—(a) *Maximum charges for services of brokers and commission merchants, also provision for adding such charges subject to limitations.* (1) Notwithstanding the provisions of any other regulation, the maximum charge which a broker or a commission merchant may charge for all services in connection with any purchase and sale of a lot of barley shall be as set forth below. These are maximum service charges regardless of whether the barley is sold at its maximum price and regardless of whether the markups may be added to any maximum price.

(i) *Brokers.* The maximum service charge for all services of a broker with respect to a purchase and sale of any lot of barley is ½ cent per bushel.

(ii) *Commission merchants.* The maximum service charge for all services of commission merchants with respect to a purchase and sale of any lot of barley is 1¼ cents per bushel.

(2) Subject to the limitations set forth in section 12 of this supplement, any seller may add the service charge of a broker and any seller may add the service charge of a commission merchant to the maximum price he would otherwise be entitled to charge: *Provided*, That the seller actually incurs such charge and provided that no maximum price shall ever include more than 1 cent per bushel for total service charges of brokers and 1¼ cents per bushel for commission merchant's charges.

(b) *Elevation charges which may be added to your maximum price.* (1) Except as provided in subparagraph (2), if barley is unloaded into an elevator or warehouse in the United States from a rail car, barge, or vessel, the maximum price of the seller shall be increased by 1 cent per bushel provided the seller has actually incurred the expense of such elevation or handling, including loading out, except that if the seller is not the warehouseman and the expense he incurs or bears is less than 1 cent per bushel, he shall add to his maximum price only the actual amount so incurred or borne.

(2) When any lot of barley is transferred in the United States from rail cars or barge through an elevator or warehouse to lake vessel, the elevation or handling charges actually incurred by the seller (but not exceeding the charges in effect December 6, 1943) may be added to his maximum price: *Provided*, That if the barley is handled through an elevator or warehouse operated by the seller, he may add 1 cent per bushel.

(c) *Inspection and weighing charges.* (1) Where to complete a contract of sale of barley official inspection is necessary, the cost thereof shall be borne by the seller.

(2) Where to complete a contract of sale of barley official weighing is necessary, the cost thereof may be borne by either seller or buyer as the parties may agree: *Provided*, That if paid by the buyer, said expenditure shall not be added to the maximum price for any resale of said barley.

(d) *Sacks and sacking.* (1) When barley is sold in sacks and the seller furnishes both the sacks and the sacking, there may be added to the appropriate maximum price the reasonable market value of the sacks used (not exceeding any maximum price established thereon) plus, except where the seller is the producer, a sacking charge of 3 cents per bushel.

(2) When barley is sold in sacks by any seller other than the producer, and the sacks are furnished by the buyer and the seller does the sacking, there may be added to the appropriate maximum price a sacking charge of 3 cents per bushel.

(3) These charges may be added to the appropriate maximum price for succeeding sales while the barley is sold in sacks.

(4) Where any state law or trade custom requires that sacked grain be sold on gross weights (with the weight of the bag being paid for as grain) the addition to the maximum price for sacks or for sacking shall be reduced by the amount paid for the weight of the sacks.

(e) *Storage and carrying charges.* (1) If the seller, under a contract of sale, agrees to carry the barley beyond the date of sale, there may be added to the maximum price otherwise applicable a storage and carrying charge of not to exceed 1/25 of a cent per bushel per day, commencing at any agreed time after the date of sale and continuing to the date of delivery or shipment, or until five days after the date which the buyer names as the shipping or delivery date, whichever is earlier, provided that the buyer incurs no other cost of storage and carrying charge upon the barley during that period.

(2) For any resale, the maximum price of the seller shall not be increased for any such storage and carrying charges so added.

(3) This provision for the addition of storage and carrying charges shall have no application to barley stored or remaining on the farm where grown.

(f) Under certain special conditions persons performing several marketing functions may add to their maximum price merchandising markups for special services. These markups, and the conditions under which they may be added, are set forth in section 2.5 of Food Products Regulation No. 2.

SEC. 14. *Separate invoicing of charges, markups, and costs.* All service charges, markups, elevation and handling costs, and transportation costs permitted in respect to distributors in carload quantities shall be separately stated on the invoice to each purchaser of 60,000 pounds or more, or a carload shipment of barley.

APPENDIX A

TABLE I

(a) *Schedule of premiums and discounts over or under standard grade and quality.* The base price of the standard grade and quality, No. 2 barley with a test weight of 46 pounds per bushel, shall be adjusted for other grades and qualities by the following discounts and premiums:

Grade (all grades and special grade designations)	Minimum test weights per bushel								
	Under 35#	35#	38#	40#	43#	45#	46#	47#	50#
#1 Barley	−7	−5	−3	−1	0	+1	+1	+1	+2
#2 Barley	−8	−6	−4	−2	−1	0	0	0	+1
#3 Barley	−9	−7	−5	−3	−2	−1	−1	−1	0
#4 Barley	−10	−8	−6	−4	−3	−2	−2	−2	−1
#5 Barley	−11	−9	−7	−5	−4	−3	−3	−3	−2
Sample grade account factors other than moisture	−12	−10	−8	−6	−5	−4	−4	−4	−3

After applying the above schedule, further discounts shall be taken for other grade notations as follows:

Weevily—1 cent; Smutty—2 cents; Garlicky—2 cents; Tough—1 cent; Ergoty—2 cents; Blighted—1 cent; Mixed—1 cent. These discounts shall be cumulative.

The base price or the maximum price of barley containing over 16 percent moisture, or over 15 percent if Western barley, shall be the price for like barley without reference to this provision, minus 1 cent per bushel for each ½ percent by which the moisture content exceeds 16 percent (or 15 percent if Western barley).

Premiums for special barley.

"Malting barley", as defined in this supplement may be sold, subject to all the provisions of section 2.7 of Food Products Regulation No. 2 for sales of such special commodities, at premiums as follows:

For two-rowed Western barley: Hannchen variety grown in the Tule Lake and Klamath districts of southern Oregon and northern California; 25 cents per bushel. Hanna, Hannchen and Chevalier varieties grown in eastern Washington, eastern Oregon and northern Idaho; 25 cents per bushel.

All other malting barley: 15 cents per bushel.

Pearling barley: "Pearling barley", as defined in this supplement may be sold, subject to all the provisions and restrictions of section 2.7 of Food Products Regulation No. 2 for sales of such special grains, at a premium of 5 cents per bushel.

(b) *Method of adjusting prices for grade and quality.* The premiums and discounts in paragraph (a) of this table are used to adjust the price for the standard grade and quality (No. 2 barley, testing 46 pounds per bushel) so as to arrive at the price for a lot of barley grading other than standard. When barley is shipped out of a place of business, such outbound lot may be of different grade and quality than the inbound lot whose history you are using for the purpose of pricing the outbound lot. In such cases it is necessary to make a price adjustment to reflect such differences in grade and quality. This is done by adjusting the price of the inbound lot to a No. 2—46 pound (standard grade and quality) basis, by applying the schedule of premiums and discounts set forth in paragraph (a) of this table, and then adjusting that price in the same manner to determine the correct price for the grade and quality of the outbound shipment.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Rev. RO 3,[1] Amdt. 36]

SUGAR

A rationale accompanying this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Revised Ration Order 3 is amended in the following respect:

Section 1407.142 (b) is amended to read as follows:

(b) A registering unit or primary distributor to which stamps are surrendered by a consumer must either paste the stamps on gummed sheets (OPA Form R-120-A or a similar sheet) or enclose them in sealed envelopes. If the stamps are pasted on gummed sheets, the information required on the face of the sheet shall be filled in by the registering unit before it surrenders such sheet for the purpose of authorizing a delivery of sugar to it, and the name and address of the registering unit, Collector of Customs or primary distributor to whom the sheet is being surrendered shall be written on the back of the sheet by the registering unit surrendering the sheet. Before a sheet may be surrendered for the purpose of deposit, the person surrendering the sheet shall, if he affixed the stamps to the sheet, fill in the information required on the face of the sheet, or, if he received the sheet with stamps affixed, endorse it by writing his name on its back. Only stamps of the same weight value which authorize the delivery of sugar to the registering unit at the time they are surrendered, may be pasted on the same sheet. If the stamps are enclosed in sealed envelopes they must be handled in all respects in accordance with the procedure described in General Ration Order 7 for the use of such envelopes.

This amendment shall become effective July 31, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Chapter XIV—War Contracts Price Adjustment Board

RENEGOTIATION REGULATIONS

The changes and additions to Parts 1601 to 1608, inclusive, of this chapter set forth below are also contained in Revision 8 of the Renegotiation Regulations, dated July 15, 1944.

JOSEPH M. DODGE,
Chairman.

PART 1601—AUTHORITY AND ORGANIZATION FOR RENEGOTIATION[1]

SUBPART A—SUMMARY OF RENEGOTIATION ACT OF 1943 AND RELATED STATUTES

Sections 1601.103 (b), 1601.107 and 1601.108 (f) are amended to read as follows:

§ 1601.103 *Coverage.* • • •

(b) Subcontracts include purchase orders or agreements to perform all or any part of the work, or to make or furnish any article, required for the performance of any other contract or subcontract but do not include any purchase order or agreement to furnish office supplies. A contract or arrangement to procure a contract with a Department or a subcontract thereunder is also a subcontract. Subcontracts are not limited to those made by a prime contractor but include those made by a subcontractor or sub-subcontractor down through the various tiers (subsection (a) (5), discussed in § 1603.333).

§ 1601.107 *Renegotiation by fiscal years.* The 1943 act applies to fiscal years ending after June 30, 1943, and re-

[1] 9 F.R. 4135, 6154.

quires that renegotiation be conducted on an overall fiscal year basis. Renegotion may relate to any period other than a full fiscal year only with the consent of the contractor or subcontractor. The 1943 act requires that renegotiation relate to the aggregate of the contractor's war business for the year unless the contractor requests and the War Contracts Board agrees to the renegotiation of separate contracts (subsection (c) (1), discussed in §§ 1601.301 to 1601.303). [RR 107]

§ 1601.108 *Renegotiation procedure.* • • •

(f) *Eliminating excessive profits.* When the amount of excessive profits accumulated by a contractor has been determined, either by agreement or order, the War Contracts Board or its authorized agency shall eliminate such excessive profits. In eliminating such excessive profits there is allowed a credit for Federal income and excess profits taxes in accordance with section 3806 of the Internal Revenue Code (subsection (c) (2), discussed in § 1604.440 and following). [RR 108.6]

SUBPART C—ORGANIZATION AND FUNCTIONS OF THE PRICE ADJUSTMENT BOARDS AND SECTIONS

Sections 1601.132 (b) and 1601.137 are amended to read as follows:

§ 1601.132 *War Department Organization.* • • •

(b) *Organization and functions of War Department Price Adjustment Sections.* There has been established a Price Adjustment Section in each of the Technical Services of the Army Service Forces and in the Army Air Forces. The Army Services Forces have Sections in the Technical Services of Chemical Warfare, Engineers, Ordnance, Quartermaster, Signal Corps, Surgeon General, and Transportation. With the exception of the Price Adjustment Section of Chemical Warfare, located in Baltimore, the main Sections of the Technical Services are located in Washington. Headquarters for renegotiation in the Army Air Forces are shared by Washington and Wright Field, Dayton, Ohio. District Price Adjustment Sections have been established by the Technical Services and the Army Air Forces at various procurement centers, and this decentralization allows renegotiation to be conducted close to the location of the company involved. [RR 132.2]

§ 1601.137 *RFC Price Adjustment Board.* The boards of directo-- of Defense Plant Corporation, Metals Reserve Company, Defense Supplies Corporation and Rubber Reserve Company have established the RFC Price Adjustment Board. The office of this Board is located in Washington, D. C. [RR 137]

PART 1602—PROCEDURE FOR RENEGOTIATION [1]

SUBPART A—ASSIGNMENTS FOR RENEGOTIATION AND CANCELLATIONS

Sections 1602.201 (b) and 1602.203 (b) are amended to read as follows.

§ 1602.201 *In general.* • • •

(b) *Effect of assignment.* The issuance of an assignment shall evidence the authority and duty of the Department or Service to which the assignment is issued to conduct statutory renegotiation with the contractor thereby assigned on an over-all basis with respect to the aggregate of the amounts received or accrued during the fiscal year to which the assignment relates, provided, however, that, upon request of the contractor, pursuant to subsection (c) (1) of the 1943 act, the Department or Service to which the assignment is issued may, in its discretion, agree to renegotiate with respect to amounts received or accured under one or more contracts or subcontracts. [RR 201.2]

§ 1602.203 *Selection of contractors for assignment.* • • •

(b) *Contractors not previously assigned.* In order that unnecessary assignments may be avoided, initial assignments will not ordinarily be made without the prior receipt and consideration by the Assignments and Statistics Branch on behalf of the War Contracts Board of the information required in the appropriate "Standard Form of Contractor's Report" (see §§ 1602.222 and 1607.701). Exceptions to this rule will be made at the request of any agency authorized to conduct renegotiation upon an indication of urgency in point of time, lack of necessity for preliminary review, or other considerations deemed appropriate. Unless the required preliminary information is available through mandatory filing or otherwise, it will be obtained by the Assignments and Statistics Branch on behalf of the War Contracts Board by causing to be sent to the contractor a "Letter of Preliminary Inquiry" together with the appropriate "Standard Form of Contractor's Report" (see §§ 1602.222 and 1607.701, 1607.702 (a)). In the event that the contractor fails to make satisfactory response within a reasonable time to the "Letter of Preliminary Inquiry," the case may be assigned for renegotiation to the Department or Service believed appropriate. Should the information required by the "Standard Form of Contractor's Report" be received by the War Contracts Board subsequent to the issuance of the assignment, the assignment may be reassigned or cancelled if such action be found by the War Contracts Board to be appropriate; otherwise, the information will be transmitted to the assignee Department or Service. [RR 203.2]

SUBPART B—PRELIMINARY INFORMATION REQUIRED OF CONTRACTORS

Section 1602.222 (d) is amended to read as follows:

§ 1602.222 *Filing of mandatory financial statement.* • • •

(d) *Availability of forms.* Copies of the forms above mentioned may be obtained upon request to the Assignments and Statistics Branch or to any of the Price Adjustment Boards or Sections of the several Departments authorized to conduct renegotiation proceedings. [RR 222.4]

SUBPART E—COMPLETION OF RENEGOTIATION

Sections 1602.252 and 1602.253 are amended to read as follows:

§ 1602.252 *Preparation of statement to contractor.* Subpart B of Part 1605 deals with the furnishing of a statement to the contractor. [RR 252]

§ 1602.253 *Administration of agreements.* Administration of voluntary agreements or of unilateral determinations by the Department to which the contractor was assigned for renegotiation is referred to in § 1605.509. [RR 253]

PART 1603—DETERMINATION OF RENEGOTIABLE BUSINESS AND COSTS [1]

SUBPART A—FISCAL YEAR BASIS FOR RENEGOTIATION AND EXCEPTIONS

Sections 1603.301 to 1603.303, inclusive, are amended to read as follows:

§ 1603.301 *Fiscal year basis for renegotiation*—(a) *Statutory provisions.* Subsection (c) (1) of the Renegotiation Act of 1943 provides in part:

• • • The Board shall exercise its powers with respect to the aggregate of the amounts received or accrued during the fiscal year (or such other period as may be fixed by mutual agreement) by a contractor or subcontractor under contracts with the Departments and subcontracts, and not separately with respect to amounts received or accrued under separate contracts with the Departments or subcontracts, except that the Board may exercise such powers separately with respect to amounts received or accrued by the contractor or subcontractor under any one or more separate contracts with the Departments or subcontracts at the request of the contractor or subcontractor.

[RR 301.1]

(b) *Use of fiscal year basis; in general.* (1) This provision requires the War Contracts Board to renegotiate on a fiscal year basis (or such other period as may be fixed by mutual agreement). It also requires that renegotiation be conducted upon an over-all basis unless the contractor or subcontractor requests, and the War Contracts Board agrees, that such renegotiation be conducted with respect to his contracts and subcontracts separately or as two or more groups.

(2) Generally, renegotiation will be conducted on the basis of the amounts received or accrued by a contractor from his renegotiable contracts and subcontracts for a past fiscal year. Under this method excessive profits are determined by examining the contractor's financial position and the profits from such contracts and subcontracts taken as a whole for a particular fiscal year rather than by separate analysis of each contract or subcontract. This avoids problems of allocation of costs and profits, as between each contract and subcontract, allows the contractor to offset the results of one contract against another and simplifies administration. [RR 301.2]

(c) *Renegotiation on a completed contract fiscal year basis; construction contracts.* (1) Contractors having construction contracts or subcontracts may have used a completed contract method of accounting for Federal income tax purposes with respect to some or all of such contracts or subcontracts. With respect to the contracts and subcontracts for which the completed contract method of accounting was used, such method of accounting will be followed for all purposes of the Renegotiation Act and the regulations and interpretations promulgated thereunder. In the case of any contract or subcontract for which the completed contract method of accounting is followed, all amounts received or accrued thereunder and all costs paid or incurred with respect thereto will be treated as having been received or accrued or paid or incurred within the fiscal year in which the contract or subcontract was completed.

(2) A contractor who has used the completed contract method of accounting for Federal income tax purposes with respect to some of his construction contracts and subcontracts and who desires the use of such method with respect to his other construction contracts and subcontracts, or a contractor who has not used such method of accounting for Federal income tax purposes with respect to any of his contracts or subcontracts, may, nevertheless, request that the completed contract method of accounting be used for the purposes of renegotiation with respect to all of his construction contracts and subcontracts completed or terminated within the fiscal year. If such request is approved by the Department to which the contractor has been assigned, the contractor will be deemed to have adopted the completed contract method of accounting with respect to such contracts and subcontracts, for the purposes of renegotiation. The form to be used in making such a request is set forth in § 1603.723. The Department concerned will not approve such request unless (i) it appears that the effect of granting such a request would not be inconsistent with the general purposes of the Act, (ii) the contractor agrees to all the terms and conditions stated in § 1603.723, and (iii) the request relates to all construction contracts and subcontracts completed or terminated within the fiscal year being renegotiated. If such request is approved, the Renegotiation Act, and the regulations and interpretations promulgated thereunder other than those dealing with the allowance of tax credits, will be applied in all respects to such construction contracts and subcontracts and the profits derived therefrom as though, with respect to them, the contractor had used the completed contract basis of accounting in keeping his books and in making his Federal income tax return. The $500,000 fiscal-year exemption provided in subsection (c) (6) of the Renegotiation Act, the interpretation relating to the $500,000 "floor" as set forth in § 1603.348 (c), as well as all other provisions of the 1943 act, will be applied in like manner. The contracts or subcontracts renegotiated on the completed contract basis are subject to such separate treatment as may be required because of the different types of contracts involved (such as fixed-price, cost-plus-fixed fee, price-minus contracts, contracts subject to contractual or statutory fixed profit limitations and contracts providing for redetermination or revision of the contract price during the life of the contracts). In this connection, attention is directed to §§ 1603.306 and 1603.307. [RR 301.3]

(d) *Renegotiation of completed or terminated contracts on a completed contract basis where a contractor is out of war business.* Completed contract renegotiation under the principles set forth in paragraphs (c) and (f) of this section may also be granted upon the request of a contractor or subcontractor although certain amounts received or accrued under one or more of the contracts or subcontracts involved have been included in renegotiation for a prior fiscal year, provided that any amounts received or accrued and costs paid or incurred which have been included in any previous renegotiations shall be excluded from consideration in the completed contract renegotiation. No such request shall be granted, however, unless (1) only a limited number of contracts and subcontracts are involved, (2) all such contracts and subcontracts have been completed or terminated at the time renegotiation takes place, and (3) the contractor or subcontractor then holds no additional contracts or subcontracts subject to renegotiation. If more than five contracts or subcontracts are involved in such a case, express approval of the War Contracts Board must be obtained before granting the contractor's request. In all such cases the final agreement must contain appropriate provision for the protection of the interest of the Government in the event the contractor enters into contracts or subcontracts for additional renegotiable business at some subsequent time during the latest fiscal period of the contractor with which the completed contract renegotiation is concerned. [RR 301.4]

(e) *Ascertainment of date of completion of contracts.* For the purposes of this section a contract shall be regarded as having been completed when the performance by the contractor thereunder has been completed unless there are exceptional circumstances or contractual provisions which justify or require the application of a different principle in a particular case. [RR 301.5]

(f) *Contracts to be included in a completed contract renegotiation.* Subject to the provisions of subparagraph (2) of paragraph (c) of this section with respect to separate treatment of different types of contracts, contracts and subcontracts to be renegotiated on a completed contract basis will be renegotiated as a group when completed within a given fiscal year, but contracts completed in one fiscal year may not be grouped with contracts completed in a different fiscal year. In the event that contracts to be renegotiated on a completed contract basis are uncompleted at the termination date of the 1943 act, the Department to which the contractor is assigned for renegotiation will be guided by the provisions of § 1603.302 as well as by the principles of subsection (h) of the 1943 Act (see § 1603.370 and following). [RR 301.6]

(g) *Renegotiation of related contracts.* Contracts and subcontracts under which architectural, engineering or management services or any combination thereof are rendered and which are related to a contract or subcontract which is renegotiable on a completed contract basis under these regulations may also be renegotiated on a completed contract basis. [RR 301.7]

§ 1603.302 *Differing accounting methods.* Should there be employed a method of computing profit in a renegotiation for any fiscal year which is different from that employed in renegotiation for the fiscal year immediately preceding, the Department conducting the renegotiation must make adequate provision in the agreement or otherwise so that renegotiable business will not escape renegotiation because of the change. The interest of the Government in connection with the year which is the subject of renegotiation and for future years must also be protected and generally no item of cost which has been allowed in a previous renegotiation should be allowed in any subsequent renegotiation. These principles apply to renegotiation conducted with respect to a fiscal year, to a period other than a fiscal year or on a contract-by-contract basis. Under ordinary circumstances a contractor will be

[1] 9 F.R. 4140, 6157.

[1] 9 F.R. 6158, 7020.

renegotiated on the same basis as that used for the determination of his income for Federal income tax purposes and, where a contractor requests and is allowed to renegotiate on some other basis, he will be required to agree that future renegotiations will be conducted on the same basis unless the War Contracts Board approves a variation of this proceeding by reason of unusual circumstances in a particular case. [RR 302]

§ 1603.303 *Long-term ship construction contracts and certain types of utility contracts.* The renegotiation of long-term ship construction contracts and of certain classes of utility contracts which are subject to renegotiation by reason of their particular size or character (see § 1603.842) may with the consent of the contractor be conducted on such basis as, in the opinion of the Department conducting the renegotiation, will be most appropriate for the determination of excessive profits. In determining such basis, consideration will be given to the basis of renegotiation used by such Department in prior renegotiations where the contractor concerned has been renegotiated for a prior period or with respect to other contracts. [RR 303]

SUBPART B—METHODS FOR SEGREGATING SALES BETWEEN RENEGOTIABLE AND NON-RENEGOTIABLE BUSINESS

Section 1603.322 (e) (3) is amended to read as follows:

§ 1603.322 *Methods of segregating sales.* • • •

(e) *Applicable basis for percentages of allocation.* • • •

(3) Percentages developed through spot check of the end use of the products for one or more months of the year. The selection of, the month or months should be made only after a thorough review of the equity of the choice by the Department and by the contractor. [RR 322.5]

SUBPART C—CONTRACTS AND SUB-CONTRACTS WITHIN THE SCOPE OF THE 1943 ACT

Section 1603.331 (d) is added, and §§ 1603.333 (d) (1), 1603.335 (b) (3) and (4) are amended to read as follows:

§ 1603.331 *General coverage of 1943 act.* • • •

(d) *Interpretation.* The 1943 act is construed to be inapplicable to sales by the Departments and contracts therefor. [RR 331.4]

§ 1603.333 *General interpretation of subcontracts.* • • •

(d) *General effect of interpretation.* (1) In general it is intended to include as subject to statutory renegotiation the sale of all machinery, equipment, materials and other articles which contribute directly to the actual production of an end item or an article incorporated therein, in connection with the physical handling of the item from the time of entry of the component materials to departure of the item from the plant in question and to include all machinery which similarly contributed directly to the actual production of other machinery so used. Packaging materials and containers are included only when they are furnished in connection with end-products delivered to a Department.

§ 1603.335 *Contracts and subcontracts involving real property.* • • •

(b) *Agreements for fixtures, construction and improvements on real property.* • • •

(3) Where a contract for the construction of a building or improvements on or to real property is made by a Department, or if not made by a Department the Government acting through a Department is to obtain title to such building or improvements either immediately or ultimately (such as contracts for plant and facilities), then such contract is renegotiable unless exempted. Likewise all subcontracts under such a renegotiable contract for furnishing services, or articles, such as building materials and structural steel, which are personal property when furnished, but which became real property during the course of construction, are renegotiable unless exempted, and so are subcontracts for furnishing any machinery and equipment installed in the building.

(4) Where, however, an agreement is for the construction of a building or improvement on or to real property for a contractor or subcontractor for the purpose of performing a renegotiable contract or subcontract and the Government acting through a Department is not to acquire title to such building or improvements, either immediately or ultimately, then except as provided in (2) above, such agreement and subcontracts thereunder are not subject to renegotiation even though the improvements may be covered by Certificates of Necessity.

SUBPART D—MANDATORY EXEMPTIONS AND EXCLUSIONS FROM RENEGOTIATION

Sections 1603.344 (d) (2) (ii) (e) and (f), 1603.344 (d) (2) (iii) and (iv), 1603.346 (b) (1) (i) and (ii), 1603.346 (b) (3), and 1603.348 (c) (4) are amended and §§ 1603.346 (b) (1) (iii) and 1603.348 (c) (5) are added to read as follows:

§ 1603.344 *Contracts and subcontracts for certain raw materials and agricultural commodities.* • • •

(d) *Profits from increment in value of excess inventories.* • • •

(2) *Interpretation and application.* • • •

(ii) *Definitions.* For the purposes of this subparagraph the following definitions shall apply:

• • • • • •

(e) *Replacement value.* Replacement value of excess inventory is the value of such excess inventory calculated by determining as of the date on which the contractor or subcontractor enters into a contract with a Department or subcontract, under which the amounts received or accrued are subject to renegotiation, the market value of the materials of the grade, of the quality, and in the quantities to be used by the contractor or subcontractor in fulfilling the contract or subcontract. Any factors tending to establish a fair market value may be taken into consideration. If purchase prices or quotations for the particular grade, class and type are used, it will be required that the source of the information be satisfactory, and that the date of the quotation or sale be within a reasonable time of the date of the contract. Inasmuch as the calculation of excess inventory is made on a monthly basis, a weighted average of the market prices existing during each month may be used.

(f) *Increment in value.* Increment in value is the amount by which the replacement value of the portion of the excess inventory (such excess being applied first to the inventory of material before any processing, to the extent that it can be absorbed thereby), allocated to the fulfillment of renegotiable contracts or subcontracts, exceeds the cost of such portion of the excess inventory as determined by the method of accounting which was or is being used in actual renegotiation.

(iii) *Time for determining excess inventory.* Accounting for the purposes of determining excess inventory will commence as of the beginning of the month, four weeks period, or other similar period of accounting employed by the contractor or subcontractor, in which the contractor or subcontractor entered into the first contract with a Department or subcontract under which any part of the amounts received or accrued were subject to renegotiation. Subsequently, excess inventory will be determined as of the beginning of each month, four weeks period, or other similar accounting period in which the contractor or subcontractor enters into contracts with a Department or subcontracts under which the amounts received or accrued are subject to renegotiation. If no excess inventory is found to exist at the beginning of the month, it shall be deemed that none existed throughout the month. If excess inventory is found to exist at the beginning of the month, transactions within that month shall not be deemed to increase the amount of such excess inventory as computed at the beginning of the month, until new computations at the beginning of the succeeding month shall be made. It will not be necessary to calculate actual physical inventories and orders on hand at the beginning of each month; a cumulative calculation may be made by applying the purchases made and orders taken in each month to the position at the beginning thereof, until the date of the succeeding physical inventory.

(iv) *Treatment of excess inventory.* Upon the establishment of the existence of the excess inventory, such inventory is deemed to be the inventory first used by the contractor or subcontractor thereafter, and shall be allocated pro rata between contracts with the Departments and subcontracts taken during the month under which the amounts received or accrued are subject to renegotiation, and other contracts, to the extent that such contracts and subcontracts require the use of the material, up to the end of the month in which the excess inventory is exhausted.

§ 1603.346 *Construction contracts awarded as a result of competitive bidding.* • • •

(b) *Interpretation and application of exemption.* (1) The exclusion from renegotiation of construction contracts with a Department awarded as a result of competitive bidding applies only to contracts for the construction of buildings, structures, improvements and other similar facilities let to the lowest qualified bidder and which were entered into after advertisement and for which bids have been received from two or more independent, responsible and qualified contractors in actual competition with each other. (See § 1603.355 (c))

(i) As used herein "advertisement" shall be interpreted as meaning published advertising or such other solicitation for bids as has opened the bidding to all probable bidders under the circumstances of the particular case. "All probable bidders" shall be deemed to include all qualified bidders who could have been reasonably expected to bid on a job of the size, character and location concerned.

(ii) The determination with respect to any contract of the type included under subparagraph (1) as to whether or not such contract is exempt under the provisions of this subparagraph (1) shall be made by the Department or Service conducting the renegotiation of such contract.

(iii) In any case involving the renegotiable status of a subcontract under a prime contract the exempt status of which is the subject of question by reason of the possible application of this subparagraph (1), where no determination has been made as to whether such prime contract is so exempt, the procedure shall be as follows: The Department or Service conducting the renegotiation of such subcontract shall advise the Assignments and Statistics Branch of the identity of the prime contract, the exempt status of which is subject to question. The Assignments and Statistics Branch shall thereupon inform the Department or Service to which the prime contractor has been assigned for renegotiation and such Department or Service shall thereupon determine whether such prime contract is exempt under the provisions of this subparagraph (1) and shall notify the Assignments and Statistics Branch of such determination and the said Branch shall thereupon notify the Department or Service conducting the renegotiation of the subcontract. In the event that such prime contractor has not been, and will not be, assigned for renegotiation, or if previously assigned and such assignment has been cancelled, the Assignments and Statistics Branch shall so notify the Department or Service conducting the renegotiation of the subcontract and such Department or Service shall determine whether the prime contract would be entitled to exemption under the provisions of this subparagraph (1) and shall notify the Assignments and Statistics Branch of such determination.

(3) Contracts for the furnishing of materials or supplies or for the lease, sale or manufacture of machinery or equipment are not within the scope of this exemption. In determining whether a particular contract constitutes a contract for the construction of a building, structure, improvement or other similar facility or constitutes a contract for the lease, sale or manufacture of machinery or equipment, the essential character of the performance under the contract will control. In those cases where the items to be furnished under the contract have a predominantly prefabricated character at the time of installation or assembly, the contract will ordinarily be regarded as one of sale or manufacture rather than of "construction". This question arises most frequently in connection with contracts for the sale and installation of machinery or equipment where both the furnishing of the machinery or equipment and its installation are embraced within a single contract. In cases of this character an undertaking to furnish the article may be severed from an agreement to install and an appropriate finding made as to that portion of the contract undertaking which might properly be exempted. On the other hand, where an item to be furnished under a contract has no substantial existence as such until its construction from materials at the site and time of installation so that the contract in its essence is one of construction as distinguished from manufacture or sale, the exemption will be applicable. The essential distinction does not depend upon whether the item involved does or does not become part of the real estate, but depends rather on whether the contract is essentially one for "construction" as distinguished from a contract for manufacture or sale. (See § 1603.335 (b)) [RR 346.1]

§ 1603.348 *Annual receipts under statutory minimum.* • • •

(c) *No reduction by refund below exemption.* • • •

(4) In the renegotiation of contractors who are subject to renegotiation by reason of the common control provisions of the 1943 act (see paragraph (a)) the aggregate of the recoveries from such contractors must not reduce the combined adjusted sales of the contractors below the minimum referred to in this paragraph. Subject to observance of the rule in this subparagraph (4), on separate renegotiation of a contractor who is a member of a group under common control, the refund may reduce the aggregate amount of gross receipts or accruals of any such member below the floor specified in subparagraph (1) or (2) of this paragraph.

(5) Except in those cases where prior to the commencement or renegotiation a contractor makes a retroactive price reduction or refund, applicable to the period which is the subject of renegotiation, in an amount at least equivalent to the maximum recovery permitted under the preceding provisions of this paragraph (so that if renegotiation proceedings were conducted there could be no recovery by reason of such limitation) the amount of excessive profits will be estimated by the renegotiating agency in the first instance without regard to the possible final effect of the above limitation on the amount of recovery. [RR 348.3]

SUBPART E—PERMISSIVE EXEMPTIONS FROM RENEGOTIATION

Section 1603.353 (b) is added and §§ 1603.352 (b), 1603.354 (b) and 1603.356 (b) are amended to read as follows:

§ 1603.352 *Contracts and subcontracts where profits determinable when price established.* • • •

(b) *Exemptions.* In the opinion of the War Contracts Board, the profits from:

(1) Contracts and subcontracts for the purchase or lease of any interest in real estate (see § 1603.335 (a)), or

(2) Contracts for the purchase of capital assets, where the sale of such assets is not a part of or connected with the ordinary course of business of the vendor,

can be determined with reasonable certainty when the contract price is established, and such contracts and subcontracts are accordingly exempted from the provisions of the Renegotiation Act of 1943. For an exemption relating to certain contracts and subcontracts involving electric power, gas, transportation and communications and subcontracts thereunder, see § 1608.842. [RR 352.2]

§ 1603.353 *When contract provisions adequate to prevent excessive profits.* • • •

(b) *Requests for exemption.* Requests for exemption of particular contracts and subcontracts should be directed to the procurement officials of the Department concerned, and not to the War Contracts Board. [RR 353.2]

§ 1603.354 *Contracts and subcontracts for standard commercial articles.* • • •

(b) *Interpretation and application.* (1) Exemption of standard commercial articles will be made on the basis of "articles" by types or classes and not on the basis of individual contracts or individual contractors. Exemptions will be effective with respect to such date as may be specified in the exemption and will apply to amounts received or accrued or to contracts entered into after the specified date.

(2) Studies made with respect to the existence of excessive profits in the standard commercial article field in con-

nection with the Congressional hearings on the amendments to the Renegotiation Act indicated that the production of standard commercial articles purchased in substantial volume for war purposes had generally resulted in excessive profits on renegotiable business both in 1942 and in 1943. The Congress rejected the suggestion that a basis for exemption existed by reason of the fact a particular article constituted a standard commercial article or was sold under OPA ceiling prices. Furthermore, it is to be noted that the fact that an individual contractor may not be making excessive profits on such an article is of little significance. The status of the individual contractor is more readily dealt with through renegotiation where he can be given a clearance if after examination it is found that no excessive profits exist in the particular case. Accordingly, in order that useless requests for exemption may be avoided, it should be noted that exemptions under section 403 (i) (4) (D) can only be made where competitive conditions have been such as reasonably to protect the Government against excessive prices and on the basis of broad national conditions and considerations and after complete research and development of the factual and legal questions involved.

(3) For exemptions under the standard commercial article exemption, see § 1608.845. [RR 354.2]

§ 1603.356 *Subcontracts as to which it is not administratively feasible to determine and segregate profits.* • • •

(b) *Exemption.* For an exemption relating to subcontracts under certain contracts and subcontracts involving electric power, gas, transportation and communications, see § 1608.842. [RR 356.2]

SUBPART F—LIMITATIONS ON COMMENCEMENT AND COMPLETTON OF RENEGOTIATION

Section 1603.363 is amended to read as follows:

§ 1603.363 *Completion of renegotiation proceedings.* Renegotiation must be completed by the making of an agreement or the entry of an order within one year following the commencement of the renegotiation proceeding, or the liability of the contractor or subcontractor for the fiscal year involved will be discharged. The one year period of limitation on completion of renegotiation proceedings does not apply, however, to the review by the War Contracts Board of an order made by a Secretary of a Department or any officer or agency to whom his authority in this respect has been redelegated. Also, the one year period may be extended by mutual agreement. A form which may be used for such extension is set out in § 1607.725. The formalities for its execution are similar to the formalities for the execution of a renegotiation agreement (see § 1605.502 (l) including subparagraph (5)). [RR 363]

SUBPART H—COSTS ALLOCABLE AND ALLOWABLE AGAINST RENEGOTIABLE BUSINESS

Section 1603.381 (d) (4) is added and §§ 1603.381 (d) (1), 1603.385 (b), 1603.387 (a) and (b) (3), and 1603.389 (a) are amended to read as follows:

§ 1603.381 *Statutory provisions and general regulations.* • • •

(d) *Profit, cost allocation and allowance; general*—(1) *Profit.* The term "profits derived from contracts with the Departments and subcontracts" is defined by the act as the excess of the amount received or accrued under contracts and subcontracts over the costs paid or incurred with respect thereto. The term "costs" includes selling, general and administrative expenses. In connection with renegotiation on an over-all fiscal-year basis income received or accrued and items of cost paid or incurred will be considered as having been received or accrued or paid or incurred in the fiscal year to which such items are to be attributed in accordance with the method of accounting employed by the contractor or subcontractor in keeping his books or in accordance with such other method of accounting as the contractor and the Department conducting the renegotiation may agree upon pursuant to the provisions of §§ 1603.301 and 1603.303. The method of accounting employed in determining the net income of the contractor or subcontractor for Federal income tax purposes shall be deemed to be the method of accounting employed by him in keeping his books. When the contractor requests that renegotiation be conducted on a completed contract basis, receipts and accruals and costs paid or incurred will be determined in accordance with the method agreed upon in connection with the granting of such request.

• • • • • •

(4) *Conditional allowance of cost.* The estimate of the renegotiating agency as to whether an item is allowable as a deduction or exclusion under Chapters 1 and 2E of the Internal Revenue Code will, with the exception discussed hereafter in this subparagraph, be final for the purposes of renegotiation regardless of the difficulty of making such an estimate. However, in a few special cases it may be impossible for the agency to make any reasonable estimate as to whether or to what extent a particular item is allowable as a deduction or exclusion under the Internal Revenue Code for the fiscal year under renegotiation. In such special cases where the item is substantial in relation to the profits to be eliminated, the renegotiating agency may, subject to the restrictions set forth below, allow the item as a cost in renegotiation on the condition that in the renegotiation agreement the contractor will agree to refund as additional excessive profits, the amount so allowed as a cost of renegotiable business which is finally determined to be not allowable as a deduction or exclusion under the Internal Revenue Code for the fiscal year in which it was so allowed in renegotiation. If such conditional allowance is desirable, the renegotiating agency will observe the following procedure:

(i) The renegotiating agency, prior to making the conditional allowance, shall transmit to the Chairman of the Price Adjustment Board of the Department concerned, a statement setting forth the approximate amount of excessive profits to be finally eliminated and the amount of the item to be conditionally allowed in determining such excessive profits, a full description of the facts and the reasons why the agency is unable to determine whether the item should be allowed or disallowed as a cost, and a copy of the special clause proposed to be included in the renegotiation agreement.

(ii) The renegotiating agency shall, at the same time, advise the Chairman of the Price Adjustment Board of the Department concerned whether the financial condition of the contractor appears to be such as to justify postponement of final determination of the allowability of the item as a cost.

(iii) The Chairman of the Price Adjustment Board of the Department concerned, in his discretion, may authorize the conditional allowance and the use of a special clause, or may advise the renegotiating agency that the item should be unconditionally allowed or disallowed as a cost in renegotiation, or may instruct the renegotiating agency to treat the item in such other manner as the Chairman, in his discretion, may consider appropriate. Additional provisions may be prescribed for insertion in the renegotiation agreement to assure payment by the contractor of any amounts which may become due in the future by reason of the special clause, if, in the opinion of the Chairman, the financial condition of the contractor is such that the interests of the Government require the same. [RR 381.4]

§ 1603.385 *Losses.* • • •

(b) *War losses.* Section 127 of the Internal Revenue Code provides that the amount of the loss on account of property destroyed or seized on or after December 7, 1941, in the course of military or naval operations by the United States or any other country engaged in the present war may be allowed as a deduction from income in the year in which such destruction or seizure occurs. The fact that the property has been destroyed or seized in the course of the war does not of itself, however, establish that the loss is properly allocable to renegotiable business. Such a loss may be recognized in renegotiation only to the extent it is properly chargeable against renegotiable business. [RR 385.2]

§ 1603.387 *Advertising expenses*—(a) *Allocation.* Institutional advertising (designed to keep the advertiser's name or the identity of his peacetime products before the public) should ordinarily be allocated between renegotiable (including business done under cost-plus-fixed-fee or other similar contractual arrangements) and non-renegotiable business on a pro rata basis in the amount allowed in accordance with the provision of paragraph (b) hereof. Product advertising (specifically offering individual products for current sale) is ordinarily allocable to non-renegotiable business. However, where a contractor's normal volume of peacetime products has been wholly or partly replaced by war products, an amount of product advertising not inconsistent with the past practice of the business may be considered as essentially institutional advertising and allocated on the same basis. [RR 387.1]

(b) *Allowance.* • • •

(3) In considering advertising expenditures in connection with the determination of the "reasonableness of costs" of the contractor's business, the relationship between advertising costs and sales in present and past periods should be considered and a determination made as to whether or not the total advertising costs are reasonable and proper under the circumstances. [RR 387.2]

§ 1603.389 *State income taxes*—(a) *In general.* Under subsection (a) (4) (B) of the 1943 act, taxes measured by income cannot be allowed as items of cost for purposes of renegotiation. However, this subsection provides specifically that in determining the amount of excessive profits to be eliminated, proper adjustment shall be made on account of the taxes measured by income (other than Federal taxes) so excluded, which are attributable to non-excessive renegotiable profits. The amount of any such adjustment will in no case exceed that part of such taxes actually payable which is payable because of the inclusion in income of the non-excessive renegotiable profits. The term "taxes measured by income" is interpreted to mean taxes which vary in accordance with the amount of net income of the taxpayer. Such term does not include taxes imposed upon or measured by gross income, gross receipts or sales. Such taxes measured by net income are herein referred to generally as "state income taxes" although actually they may not be designated as "income taxes" in the legislation imposing such taxes, and although they may be imposed by political subdivisions other than a state. [RR 389.1]

PART 1604—DETERMINATION AND ELIMINATION OF EXCESSIVE PROFITS[1]

SUBPART A—PRINCIPLES AND FACTORS IN DETERMINING EXCESSIVE PROFITS

Section 1604.403 (e) (3) is added and §§ 1604.406, 1604.412 (b), and the heading of § 1604.403 (e) are amended to read as follows:

§ 1603.403 *Specific considerations.* • • •

(e) *Significance of settlements, or profits or losses of other years.* • • •

(3) In the case of renegotiation conducted on a fiscal year basis, the contractor's profits or losses on renegotiable sales in a year prior or subsequent to the year subject to renegotiation shall not be used as an off-set or adjustment in the determination of excessive profits for the year which is the subject of renegotiation. (See § 1603.385 (c). [RR 403.5]

§ 1604.406 *Minimum refund.* No refund of excessive profits should, in the absence of unusual circumstances, be required in an amount less than $10,000 before credit for the adjustment for state income taxes (see § 1603.389). The provisions of this section shall not apply, however, to subcontracts under subsection (a) (5) (B) of the 1943 act or to cases where the provisions of § 1603.348 (c) operate to limit the amount of the refund. [RR 406]

§ 1604.412 *Capital employed.* • • •

(b) *Comment.* Consideration is to be given to the amount and source of capital employed. This should include establishing and considering the proportion of plant or equipment or materials supplied by Government agencies or other contractors; the amount of production from plant and equipment furnished by the Government or others; the amount and proportion of investment covered by certificates of necessity; the amount of private capital at the beginning of the year; the extent and source of additional investment during the year in fixed assets; and loans, advances or Government guarantees. The relationship of the profit before taxes realized before and after renegotiation from the use of capital employed in renegotiable business to the value thereof at the beginning of the year should be used as a check to determine the return being realized on such investment. A contractor using his own capital is generally entitled to more favorable consideration than a contractor largely dependent upon Government financing or Government furnished facilities. Where a large part of the capital or facilities is supplied by the Government, the contractor's contribution tends to become one of the management only and the profit margin should be considered accordingly. [RR 412.2]

SUBPART B—RECOVERY OF EXCESSIVE PROFITS ALREADY REALIZED

Section 1604.423 (d) is added and paragraphs (a) and (g) of § 1604.422 are amended to read as follows:

§ 1604.422 *Recovery by voluntary repayment*—(a) *In general.* In renegotiation with respect to a completed fiscal period, the elimination of excessive profits will ordinarily be effected pursuant to an agreement providing for a refund. This refund may be made by the contractor in a single payment or in installments as the agreement may provide (see §§ 1603.323 and 1605.502 (e)). [RR 422.1]

(g) *Authority to enforce payment.* The authority to enforce payment is dealt with in §§ 1604.421, 1606.626 (a) and 1608.821 (a). (See also §§ 1604.423 and 1605.502 (e) (4).) [RR 422.7]

§ 1604.423 *Withholding as a method of recovery.* • • •

(d) A form which may be used to direct a contractor to withhold and a form which may be used to direct a contractor to pay over amounts withheld are found in §§ 1607.748 (a) and (b). [RR 423]

SUBPART D—RENEGOTIATION AND TAXES

Section 1604.440 is amended to read as follows:

§ 1604.440 *Scope of subpart.* This subpart deals with the effect of renegotiation upon a contractor's Federal income and excess profits taxes. With reference to adjustment for state taxes see § 1603.389. [RR 440]

[1] 9 F.R. 6175.

PART 1605—AGREEMENTS AND STATEMENTS[1]

SUBPART A—AGREEMENTS AND CLEARANCES

Sections 1605.506 (d) and (e), and 1605.508 (b) (3) are added, § 1605.506 (d) is redesignated (f) [RR 506.5], and §§ 1605.502 (e), 1605.506 (b), 1605.507 (c) and 1605.508 (c) are amended to read as follows:

§ 1605.502 *Standard form of agreement.* • • •

(e) *Article 4: Terms of payment.* (1) The schedule of the payments to be made will be set forth in Article 4. A suggested form of such schedule is set forth in § 1607.741 (b) (5) of these regulations. The Department or Service which has conducted the renegotiation will also provide, in this article, for the place of payment. In the event that the profits agreed in Article 1 to be eliminated are derived in part from prime contracts with Defense Plant Corporation, Metals Reserve Company, Defense Supplies Corporation and Rubber Reserve Company or any of such corporations, the payment provision, in accordance with the footnote to Article 4 on the standard form will require payment of the amount thereof to the RFC Price Adjustment Board.

(2) For the purpose of determining the portion of the profits which are to be eliminated which were derived from such prime contracts, the Department conducting renegotiation will segregate the amounts received or accrued under such contracts from amounts received or accrued under other renegotiable contracts and subcontracts involved in the renegotiation of a particular contractor. It will also generally segregate the profits derived from such prime contracts. Where, however, it is indicated that the margin of profit attributable to contracts with the RFC subsidiaries is substantially the same as that attributable to other contracts and subcontracts involved in the renegotiation, a fair allocation of the profits to be eliminated may be effected by prorating the amount of the refund on the basis of the amount of renegotiable business attributable to contracts with the RFC subsidiaries and the amount of such business attributable to other contracts and subcontracts. Accordingly, the Department conducting renegotiation may determine the amount of the renegotiation refund to be paid to the RFC Price Adjustment Board on such basis where it is believed that the application of the same will result in a fair and reasonably accurate result.

(3) Responsibility for the collection of, and for the maintenance of records concerning, any amounts due the RFC Price Adjustment Board under renegotiation agreements, shall rest with the RFC Price Adjustment Board, and any such agreements providing for refunds to the RFC under the 1943 act shall be referred to the RFC Price Adjustment Board for the collection of that portion of the refund payable to that Board. The Department conducting the renegotiation will retain responsibility for the collection of only that portion of the refund which is payable into the Treasury

[1] 9 F.R. 6181.

of the United States. In such cases, an authenticated copy of the renegotiation agreement shall be forwarded to the RFC Price Adjustment Board, through the Assignments and Statistics Branch, Renegotiation Division, ASF. The Assignments and Statistics Branch should be promptly notified of any default in the collection of any installment due under such agreements and the enforcement of the obligations under the agreement properly coordinated under the supervision of the War Contracts Price Adjustment Board.

(4) In the case of suit for the collection of any amounts due under any renegotiation agreements in which the RFC is entitled to a portion of the refund, under ordinary circumstances the Assignments and Statistics Branch should assign such case for collection to the Department then having the predominant interest in the balance of the refund.

(5) If a portion of the refund is to be made to the RFC Price Adjustment Board, any such tax credit should be apportioned ratably between the portion of the refund payable to the RFC Price Adjustment Board and the portion payable to the Treasurer of the United States.

(6) Specially detailed terms for elimination of excessive profits may be set forth on an Exhibit C and incorporated by reference in Article 4 (see § 1605.505). If no subsidiaries are involved and there is, therefore, no Exhibit B referring to such subsidiaries, this exhibit setting forth the terms of payment should, of course, be designated "Exhibit B," instead of "Exhibit C."

(7) Limitations upon the period of time beyond which the schedule of payments must not extend are set forth in § 1604.422 of these regulations. [RR 502.5]

§ 1605.506 *Additional provisions; variations.* • • •

(b) *Forward pricing clause.* The Renegotiation Act of 1943 specifically authorizes provision in the renegotiation agreement, by agreement with the contractor, for the elimination of excessive profits likely to be received or accrued in the future. When agreement cannot be reached upon specific price reductions, use may be made in the renegotiation contract of the article set forth at § 1607.741 (b) (1). In this connection reference is made to § 1604.430 and following. If specific price reductions are agreed upon, the agreement should clearly identify the contracts affected by such price reductions in order that the Department administering the agreement can determine whether the contractor has complied therewith. [RR 506.2]

• • • • • • •

(d) *Clause to be used in certain cases where renegotiation is conducted on completed contract basis.* Whenever renegotiation is conducted on a completed contract basis pursuant to the request of a contractor in the form therefor which is set forth in § 1607.723, the clause set forth in § 1607.741 (b) (6) must be included in the renegotiation agreement. In each such case, a copy of such form executed by the contractor requesting renegotiation on a completed contract basis (§ 1607.723) must be attached to the renegotiation agreement as an exhibit as provided in the clause set forth in § 1607.741(b) (6). [RR 506.4]

(e) *Clause covering conditional allowance of cost.* If pursuant to the procedure set forth in § 1603.381 (d) (4) of these Regulations, an item of cost is allowed conditionally pending final determination of its allowability as a deduction or exclusion under Chapters 1 and 2E of the Internal Revenue Code, an appropriate clause will be inserted in the renegotiation agreement. The form of the clause may vary, but essentially it will consist of an agreement by the contractor to repay, as additional excessive profits, the amount of the item allowed as a cost in renegotiation which is finally determined to be not allowable as a deduction or exclusion under Chapters 1 and 2E of the Internal Revenue Code. As pointed out in § 1603.381 (d) (4), the clause must be approved by the chairman of the Price Adjustment Board of the Department concerned before it can be used in the renegotiation agreement. [RR 506.5]

§ 1605.507 *Prohibited provisions.* • • •

(c) *Periodic refunds of future excessive profits.* As part of the general policy of discouraging excessive prices and of encouraging price reductions, final agreements in renegotiation should not contain provisions for any periodic or other refunds by contractors of excessive profits realized after the date of such agreements. However, it is appropriate for such agreements to contain provisions for future price reductions or stated discounts from an agreed upon price. [RR 507.3]

§ 1605.508 *Clearances.* • • •

(b) *Use and form of clearance notice.* • • •

(3) Whenever renegotiation is conducted on a completed contract basis pursuant to the request of the contractor made in the form therefor which is set forth in § 1607.723, the clearance notice will not be used. In such cases where it is determined that no excessive profits have been received or accrued, a clearance agreement (§ 1605.508 (c)) will be used. [RR 508.2]

(c) *Use and form of clearance agreement.* Upon request of the contractor, a clearance agreement executed by the contractor and the Government may be used in place of the clearance notice. Such agreement should follow the general structure of the standard form of renegotiation agreement (see §§ 1605.506 and 1607.741 (a)) except that Articles 3, 4, 5 and 9 of the standard agreement should be omitted. The articles used should be renumbered consecutively. The first article should be substantially the same as that contained in the standard form, except that the finding and agreement should be that no profits should be refunded pursuant to the act. Whenever renegotiation is conducted upon a completed contract basis pursuant to the request of the contractor in the form therefor which is set forth in § 1607.723, the alternative clause set forth in § 1607.741 (b) (6) will be included in the clearance agreement. [RR 508.3]

PART 1606—IMPASSE PROCEDURE[1]

SUBPART B—FAILURE TO AGREE

Sections 1606.623, 1606.625 (b) and (c), and 1606.626 (a) are amended to read as follows:

§ 1606.623 *Authority of departments to make unilateral determinations.* The War Contracts Board has delegated to each Secretary the authority to issue and enter an order determining the amount of the excessive profits of a contractor who has not entered into an agreement to eliminate the same. (See § 1608.821 (a).) Successive redelegations of such authority are authorized and have been made. Any such order entered pursuant to such delegated authority is, however, subject to review by the War Contracts Board. Upon the entry of such an order notice will be given forthwith by registered mail to the contractor and a copy of such order and notice shall be sent to the Secretary of the War Contracts Board at the address specified in § 1607.791 (f). Such order will become final (that is, be deemed the determination of the War Contracts Board) when and as prescribed in subsection d (5) of the 1943 act. (See §§ 1606.621 and 1606.625.) Forms which may be used with reference to such unilateral determinations under delegated authority are set out in § 1607.746, namely: order under delegated authority determining excessive profits (see § 1607.746 (a)), notice thereof (see § 1607.746 (b)), and notice of such order having become the determination of the War Contracts Price Adjustment Board (see § 1607.746 (c)). [RR 623]

§ 1606.625 *Finality of orders determining excessive profits.* • • •

(b) *Orders entered by the War Contracts Board.* Upon any review by the War Contracts Board whether pursuant to request by the contractor or initiated by the Board on its own motion, the Board will enter an order determining as the amount of excessive profits an amount either less than, equal to, or greater than that determined by the order which has been reviewed. Such order of the War Contracts Board is final immediately upon its entry. A form which may be used for such order is set out in § 1607.741 (a). [RR 625.2]

(c) *Notice of final order to be given to the contractor.* When an order determining excessive profits made by delegated authority has become final or an order is entered by the War Contracts Board determining excessive profits (which, as stated in § 1606.625 (b), is final upon entry), notice thereof will be given forthwith by registered mail to the contractor. Forms which may be used with reference to such notices are set out in §§ 1607.746 (c) and 1607.747 (b). [RR 625.3]

GENTLEMEN: We attach a copy of a communication sent to you under date of ------- by which we requested that you file with this office the "Standard Form of Contractor's Report" which was enclosed therewith. We have no record of your having filed such a Report nor of the receipt of a statement from you that the Renegotiation Act of 1943 is not applicable in your case.

Your attention is called to the fact that by the provisions of subsection (c) (5) (A) of the Act, the "Standard Form of Contractor's Report" is required to be filed by all concerns subject to that Act. A penalty is prescribed for noncompliance.

Although without authority to waive or extend the requirements of the Act with respect to the time for filing of Reports, we suggest that, if your business exceeded the statutory minimum as defined in subsection (c) (6) of the Act, you should file the Report with the least possible delay.

On the other hand, if your business did not exceed the statutory minimum as defined in subsection (c) (6) of the Act, you are not required to file the "Standard Form of Contractor's Report" to which we refer. In that event, it would be helpful for the maintenance of our records if you would file, in duplicate, the enclosed form entitled "Statement by Contractor, Non-Applicability of the Renegotiation Act of 1943".

STATEMENT BY CONTRACTOR

NON-APPLICABILITY OF THE RENEGOTIATION ACT OF 1943

To the War Contracts Price Adjustment Board:

We acknowledge receipt of a copy of the pamphlet entitled "Renegotiation" containing the text of the Renegotiation Act of 1943 and have noted particularly the provisions of subsections (a) (5), (c) (5) (A) and (c) (6) of that Act.

We certify that the aggregate receipts or accruals of the undersigned and of all persons, firms or corporations under the control of or controlling or under common control with the undersigned under contracts with the War Department, Navy Department, Treasury Department, Maritime Commission, War Shipping Administration, Defense Plant Corporation, Defense Supplies Corporation, Metals Reserve Company and Rubber Reserve Company and under subcontracts as defined in the Act, *including* those which are exempted under subsection (1) of the Act or which expressly provide that they are not subject to renegotiation pursuant to the authority granted by said subsection (1) (but not including commissions and other income within the meaning of subsection (a) (5) (B) of the Act), did not exceed $500,000 for the fiscal year ended -------- 194--; and we further certify that commissions and other income within the meaning of subsection (a) (5) (B) of the Renegotiation Act of 1943 received or accrued by the undersigned and by all persons, firms or corporations under the control of or controlling or under common control with the undersigned under contracts and subcontracts above referred to did not exceed $25,000 for the same fiscal year.

In making this certification recognition is given to the fact that in order to qualify for exemption it is necessary that both of the above conditions should be met; i. e., that the total of receipts and accruals under contracts with the above-named departments or agencies or subcontracts as defined in the Act (excluding commissions and other income below mentioned) does not exceed $500,000 *and* that the total of commissions and other income within the meaning of subsection (a) (5) (B) of the Act does not exceed $25,000. Accordingly, we do not intend to file a financial statement in conformity with the provisions of the first sentence of subsection (c) (5) (A) of the Act. If we have been assigned for statutory renegotiation, we request that such assignment be cancelled.

Very truly yours,

SUBPART D—FORMS RELATING TO AGREEMENTS AND UNILATERAL DETERMINATIONS

1. Section 1607.741 (a) is amended by the modification of Article 4 as set forth below.

§ 1607.741 *Agreement forms*—(a) *Standard form of agreement.* • • •

4. *Terms of payment.* The Contractor agrees to pay to the Government the sum of _____ Dollars ($_____), being the amount determined in Article 1 hereof to be eliminated, as follows:

Payment shall be made by check to the order of the Treasurer of the United States and forwarded _____.** All unpaid installments hereunder may at the option of the Government be declared and thereupon shall become immediately due and payable, in the event of a default continuing for twenty days in the payment of any amount required to be paid under this agreement. Interest at the rate provided by law in the District of Columbia as the rate which is applicable in the absence of express contract as to the rate of interest, shall accrue and shall be payable upon each payment due under this agreement from and after the due date thereof, whether original or accelerated.

**If any part of the profits to be eliminated were derived from prime contracts with Defense Plant Corporation, Metals Reserve Company, Defense Supplies Corporation or Rubber Reserve Company, insert here: "to the extent of $_____ and by check to the order of and delivered to the RFC Price Adjustment Board, 811 Vermont Avenue, Washington 25, D. C., to the extent of $_____"

2. Section 1607.741 (b) (1) is amended to read as follows:

(b) *Variations in the standard form*—(1) *Forward pricing.* When agreement cannot be reached upon specific price reductions, use may be made of the following clause:

The Contractor agrees that so long as it shall have contracts and subcontracts which are by law subject to renegotiation, it will from time to time adjust its prices under such contracts and subcontracts to eliminate the accumulation of profits thereunder regarded by the Contractor as excessive. Within twenty days after the close of that quarter of the Contractor's current fiscal year in which the Contractor has received a fully executed counterpart of this agreement, the Contractor agrees to file with _____ a report setting forth the price reductions, if any, made during all then expired quarters of such current fiscal year applicable to its contracts and subcontracts subject to renegotiation. The Contractor further agrees to file a similar report within twenty days following each subsequent quarter of its current fiscal year setting forth its price reductions, if any, made during such quarter. Each such report may be in such general terms or in such detail as the Contractor deems necessary to an intelligent appraisal thereof, but shall set forth, if feasible, the unit prices before and after each such reduction, and shall set forth an estimate of the aggregate reduction effected thereby for such fiscal year under contracts and subcontracts subject to renegotiation; and shall include, if available, a summary profit and loss statement for the period covered by the report. It is understood and agreed that price reductions will be taken into consideration in any renegotiation which may hereafter be conducted with the Contractor with respect to periods subsequent to the date of this agreement, the obligations of the Contractor under this article will not be deemed to be satisfied by refunds or retroactive price reductions.

Failure on the part of the Contractor to comply fully with this article shall not constitute grounds for reopening this agreement or for setting aside the discharge provided for in Article 8 hereof.

3. Section 1607.741 (b) (5) is amended to read as follows, and § 1607.741 (b) (6) is added as set forth below.

(5) *Variations in Article 4 of the standard form.* (i) If the profits to be eliminated are to be paid in installments, and the amount of the tax credit has not been ascertained, Article 4 may be drafted to read as follows:

4. Terms of Payments. The Contractor agrees to pay to the Government the amount agreed in Article 1 hereof to be eliminated, less the tax credit, if any, applicable thereto pursuant to Article 3, as follows:

(a) $_____, less the pro rata portion of the tax credit applicable thereto, within ten days after the Contractor shall have received a fully executed counterpart of this agreement or written notice of the amount of the tax credit, whichever is later; and

(b) $_____, less the pro rata portion of the tax credit applicable thereto, on or before _____ or the due date of the first scheduled payment, whichever shall be later.

Payment shall be made by check to the order of the Treasurer of the United States and forwarded _____.* All unpaid installments hereunder may at the option of the Government be declared and thereupon shall become, immediately due and payable, in the event of a default continuing for twenty days in the payment of any amount required to be paid under this agreement. Interest at the rate provided by law in the District of Columbia as the rate which is applicable in the absence of express contract as to the rate of interest, shall accrue and shall be payable upon each payment, due under this agreement from and after the due date thereof, whether original or accelerated.

(ii) If the amount of the tax credit has been ascertained before the agreement is drawn, Article 4 may be drafted to read as follows:

4. Terms of Payment. The Contractor agrees to pay to the Government the sum of _____ ($_____), being the difference between the amount agreed in Article 1 hereof to be eliminated and the amount of the tax credit referred to in Article 3 which has been determined to be applicable thereto, as follows:

$_____ within ten days after the Contractor shall have received a fully executed counterpart of this agreement, and

$_____ on or before _____; and

$_____ on or before _____

Payment shall be made by check to the order of the Treasurer of the United States and forwarded _____.*

All unpaid installments hereunder may at the option of the Government be declared and thereupon shall become, immediately due and payable, in the event of a default continuing for twenty days in the payment of any amount required to be paid under this agreement. Interest at the rate provided by law in the District of Columbia as the rate which is applicable in the absence of express contract as to the rate of interest, shall accrue and shall be payable upon each payment, due under this agreement from and after the due date thereof, whether original or accelerated.

(6) *Clause to be used in connection with renegotiation on a completed contract basis in certain cases.* Whenever renegotiation is conducted on a completed contract basis pursuant to the request of the contractor in the form therefor which is set forth in § 1607.723, the following clause will be inserted in the renegotiation agreement:

Renegotiation of Construction Contracts and Subcontracts on Completed Contract Basis. At the request of the contractor and with the consent of the renegotiating agency, the renegotiation concluded by this agreement was conducted on a completed contract basis with respect to the construction contracts and subcontracts of the contractor completed within said fiscal year. A copy of said request dated _____ is attached hereto as Exhibit _____, incorporated herein by reference as though set forth herein, and the contractor hereby agrees to be bound by all of the undertakings and conditions set forth in said request.

*If any part of the profits to be eliminated were derived from prime contracts with Defense Plant Corporation, Metals Reserve Company, Defense Supplies Corporation or Rubber Reserve Company, appropriate provision should be made so that the portion of the profits eliminated allocable to such prime contracts is paid by check payable and delivered to the RFC Price Adjustment Board, 811 Vermont Avenue, Washington 25, D. C.

4. Section 1607.742 is amended by the addition of a note at the end of the form, as follows.

§ 1607.742 *Clearance Notice.* • • •

NOTE: If subsidiaries of the contractor with like fiscal years are to be included in the clearance notice, add the following sentence:

"This instrument also applies to the _____ subsidiaries of Contractor listed
(insert number)
on the reverse hereof, as if each were named as Contractor in a separate instrument of like tenor."

Then list the names of the subsidiaries on the reverse side of the clearance notice. If space permits, it is preferable to list them in the inserted paragraph on the face and vary the insertion appropriately. Should corporations with like fiscal years which are affiliated with the Contractor be included in the clearance notice, the suggested insertion should be varied accordingly.

5. Sections 1607.746 to 1607.748, inclusive, are added as set forth below.

§ 1607.746 *Unilateral determination; delegated authority*—(a) *Order under delegated authority determining excessive profits.*

ORDER UNDER DELEGATED AUTHORITY DETERMINING EXCESSIVE PROFITS

Pursuant to authority duly delegated by the War Contracts Price Adjustment Board, a renegotiation proceeding was duly commenced with _____ (hereinafter called the "Contractor") with respect to the aggregate of the amounts received or accrued by the Contractor under contracts with the Departments and subcontracts as defined in the Renegotiation Act (such contracts and subcontracts being hereinafter collectively referred to as "said contracts with the Departments and subcontracts") for the Contractor's fiscal year ended _____ (hereinafter called "said fiscal year").

In connection with such renegotiation proceeding, a conference was held with the Contractor at or in connection with which there were submitted by the Contractor and obtained from governmental or other reliable sources, certain financial, operating and other data relating to the Contractor's business and the Contractor's profits derived from said contracts with the Departments and subcontracts during said fiscal year. At and in connection with such conference the Contractor has been afforded full opportunity to submit such additional information and to present such contentions as the Contractor deemed material to a determination of excessive profits within the meaning of the Renegotiation Act.

In determining the excessive profits hereinafter determined, due consideration has been given to all such financial, operating and other data and information so furnished or obtained, to each of the contentions so presented, and to all of the factors referred to in subsection (a) (4) (A) of the Renegotiation Act.

As a result of such renegotiation it is hereby determined that _____ Dollars ($_____) represents the portion of the Contractor's profits derived from said contracts with the Departments and subcontracts for said fiscal year, which is excessive within the meaning of the Renegotiation Act. After proper adjustment on account of taxes, other than Federal taxes, measured by income which are attributable to that portion of the Contractor's profits derived from said contracts with the Departments and subcontracts for said fiscal year which is not excessive, it is hereby determined that the amount of excessive profits of the Contractor which should be eliminated is _____ Dollars ($_____).

This order will be deemed the determination of the War Contracts Price Adjustment Board upon the conditions prescribed in subsection (d) (5) of the Renegotiation act. If, and as soon as, this order shall be deemed the determination of the War Contracts Price Adjustment Board pursuant to subsection (d) (5) of the Renegotiation Act, then _____ (or such official or
(Secretary of a Department)
officials in such Department to whom the power, function and duty of exercising such authority and carrying out such direction may be or have been delegated or successively redelegated) is hereby authorized and directed to take such action (including the authorization and direction of any other Secretary or Secretaries to take such action) as is provided by the Renegotiation Act and as he deems appropriate to eliminate such excessive profits to be eliminated.

In connection with the payment or discharge by any means of such excessive profits to be eliminated, the Renegotiation Act provides that the Contractor shall be allowed the applicable credit, if any, for Federal income and excess profits taxes as provided in Section 3806 of the Internal Revenue Code.

If this is not practicable, reference to net worth shall be omitted. Such matters as (i) profits on non-renegotiable business and (ii) profits after Federal taxes do not constitute factors or reasons to be taken into consideration in the renegotiation proceeding or included in the statement to be furnished to the contractor, although such figures are frequently included in the financial data submitted by the contractor and attached as exhibits to the statement. (d) *I. T. 3671—Section 3806—Mitigation of effect of renegotiation of war contracts or disallowance of reimbursement.*

1944-12-11764

INTERNAL REVENUE CODE

The term "renegotiation," for the purposes of section 3806 of the Internal Revenue Code, as amended, is not limited to a renegotiation within the meaning of section 403 of the Sixth Supplemental National Defense Appropriation Act, 1942 (56 Stat., 226), as amended.

Advice is requested whether the term "renegotiation," for the purposes of section 3806 of the Internal Revenue Code, as amended, is limited to a renegotiation within the meaning of section 403 of the Sixth Supplemental National Defense Appropriation Act, 1942 (56 Stat., 226), as amended, or whether any Government contractor, acting upon his own initiative and desirous of refunding direct to the United States profits he has realized under a Government contract, or a subcontract thereunder, may effect a repayment of such profits in a manner coming within the provisions of sections 3806 of the Code, as amended.

Section 3806 (a) (1) (A) of the Code provides as follows:

The term "renegotiation" includes any transaction which is a renegotiation within the meaning of section 403 of the Sixth Supplemental National Defense Appropriation Act (Public 528, 77th Cong., 2d Sess.) or such section, as amended, any modification of one or more contracts with the United States or any agency thereof, and any agreement with the United States or any agency thereof in respect of one or more such contracts or subcontracts thereunder.

It will be noted that the above-quoted provision of the Code includes within the term "renegotiation"—"any modification of one or more contracts with the United States or any agency thereof, and any agreement with the United States or any agency thereof in respect of one or more such contracts or subcontracts thereunder."

It is held that the term "renegotiation," for the purposes of section 3806 of the Internal Revenue Code, as amended, is not limited to a renegotiation within the meaning of section 403 of the Sixth Supplemental National Defense Appropriation Act, 1942, as amended, supra (which section is cited as the Renegotiation Act). It includes an agreement in writing made in respect of one or more Government contracts or subcontracts thereunder, and may be effected by an exchange of correspondence which embodies a binding agreement by both parties as to the amount repaid or to be repaid and the year to which the repayment relates. A Government contractor, acting upon his own initiative and desirous of refunding direct to the United States profits he has realized under a Government contract, or a subcontract thereunder, should, however, get in touch with the renegotiating agency as to the form of agreement in writing which may be employed.

PART 2—ADJUDICATION: VETERANS' CLAIMS

PROOF OF RELATIONSHIP AND DEPENDENCY

Section 2.1057 is amended to read as follows:

§ 2.1057 *Conditions which determine dependency.* (a) Dependency will be held to exist if the father or mother of the veteran does not have an income sufficient to provide reasonable maintenance for such father or mother and members of his or her family under legal age, and for dependent adult members of the family if the dependency of such adult member results from mental or physical incapacity. "Reasonable maintenance" includes not only housing, food, clothing and medical care sufficient to sustain life, but such items beyond the bare necessities, and as well as other requirements reasonably necessary to provide those conveniences and comforts of living suitable to and consistent with the parents' reasonable mode of life. "Members of the family" will be considered to mean those persons whom the father or mother is under moral or legal obligation to support.

(b) (1) In determining the amount of income, consideration will be given to (i) net income from property owned, or business operated, by the mother or father; (ii) earnings of the mother or father and other members of their family under legal age; (iii) actual contributions of any character to the family expenses by the adult members; (iv) so-called social security benefits, i. e., old age assistance and old age and survivors' insurance; (v) family allowances received pursuant to Public No. 625, 77th Congress (June 23, 1942), as amended by Public No. 174, 78th Congress (October 26, 1943).

(2) In determining whether other members of the family under legal age are factors in necessary expenses of the mother or father, consideration will be given to any income from business or property (including trusts) actually available, directly or indirectly, to the mother or father, for the support of the minor, but not to the corpus of the estate or the income of the minor which is not so available.

(3) In determining dependency, amounts received from the following named sources, by the father or mother, or other member of the family, will be disregarded, viz., (i) as designated beneficiary or otherwise, of any insurance under the War Risk Insurance Act, the World War Veterans' Act, 1924, as amended, or the National Service Life Insurance Act or any amendments to either; (ii) any pension or compensation under laws administered by the Veterans Administration; (iii) benefits under the World War Adjusted Compensation Act or the Adjusted Compensation Payment Act, or any amendments to either; (iv) the six months pay made to the designated beneficiary thereof pursuant to 10 U.S.C. 903, 903 (a) and 456; 34 U.S.C. 943, 944 and 855c-2; (v) payments pursuant to Mustering-out Payment Act, 1944, Public No. 225, 78th Congress; (vi) donations or assistance from charitable sources.

(4) In addition to considering income of a father or mother, consideration will be given to the corpus of such claimant's estate if under all the circumstances it is reasonable that the same or some part thereof be sold and the proceeds consumed for the claimant's maintenance.

(c) The fact that the veteran has made habitual contributions to his father or mother, or both, is not conclusive evidence that dependency existed, but shall be considered in connection with all other evidence.

(d) The remarriage of a mother or father does not, per se, bar entitlement, but is prima facie evidence that dependency has ceased.

(e) (1) In the absence of evidence indicating the contrary, dependency will be held to exist when the monthly income from sources proper to consider does not exceed:

(i) $60 for a mother or father (not living together),

(ii) $100 for a mother and father (living together),

(iii) The amounts stated in subdivision (i) or (ii) of this subparagraph plus $25 for each additional member of the family whose support is to be considered under the criteria indicated in paragraphs (a) and (b) of this section.

It must be definitely understood that the amounts stated are not controlling in any case but are to be used only as prima facie evidence. Each claim is subject to adjudication upon the facts thereof in the light of the governing legal principles summarized in this section. (August 1, 1944.) (56 Stat. 381; 57 Stat. 577; 58 Stat. 9, 10)

Administrator.

Where there is no provision for an evaluation of the disease or injury as a disability and the condition is not a disability within the meaning of the instructions issued defining the term "disability" as used in section 1 (b), Public No. 198, 76th Congress, but it is clear that the disease or injury constituted a definitely ascertainable disability the rating agency or the board of veterans appeals, as the case may be, will outline the evidence and influencing reasons relied on to show the existence of a disability: *Provided, however*, That rating boards in field offices will make recommendatory ratings in such cases which will be forwarded to central office for review and final rating by the dependents pension board, dependents claims service. PART 35—VETERANS' REGULATIONS

PRINCIPLES GOVERNING THE ADJUDICATION OF CLAIMS

Instruction No. 1, Public No. 300, 78th Congress (Act of May 11, 1944).

For the purpose of effectuating the provisions of Public No. 300, 78th Congress, with respect to disability benefits, the following instruction is promulgated.

1. Public No. 300, 78th Congress, provides "That Veterans Regulation Numbered 1 (a), Part II, be amended by adding thereto a new paragraph, numbered paragraph IV, to read as follows:

IV. For the purposes of paragraph I hereof, as amended, any person who, on or after August 27, 1940, and prior to termination of the present hostilities, has applied or shall hereafter apply for enlistment or enrollment in the active military or naval forces and who was or shall be provisionally accepted and directed or ordered to report to a place for final acceptance into such military or naval service, or who was or is selected for service and after reporting pursuant to the call of his local board and prior to rejection, or who after being called in the Federal service as a member of the National Guard but before being enrolled for the Federal service suffered or shall suffer an injury or a disease in line of duty and not the result of his own misconduct, will be considered to have incurred such disability in active military or naval service: *Provided*, That payments of pension under the terms of this paragraph shall not be effective prior to the date of enactment of this amendment.

2. The provisions of Public No. 300, 78th Congress, attach whenever a person is acting pursuant to an order of his draft board, including an order to report to the board for a preinduction examination. The protection covers any injury or disease which is or was acquired during time spent away from home or en route home in connection with such order and as a result thereof. An injury or disease which is or was suffered on the trip when reporting for active duty or final induction is covered. The injury or disease to be pensionable must be attributable to some cause or factor relating to his activity in connection with complying with proper orders. These provisions do not extend to such persons as to disease or injury suffered during the period of inactive duty or period of waiting after passing final physical examination and prior to beginning the trip to report for induction. Such protection also applies to a member of the National Guard after he reports to a designated rendezvous pursuant to proper call.

3. The presumptions governing determinations of service connection under § 35.01, as amended, are not for application.

4. The provisions of Public No. 300, 78th Congress, are expressly for the purposes of § 35.012 (a) as amended.

Accordingly, the law has the effect of awarding the rates of pension applicable to the time of incurrence of disability, subject to the provisions of § 35.012 (a) (3), as amended by Public No. 359, 77th Congress.

5. While, as to incurrence of disability, the law is effective August 27, 1940, payments of pension may not be made for any period prior to May 11, 1944. The effective dates of awards will be governed by the provisions of § 35.021 (a), as amended. Claims filed and disallowed prior to May 11, 1944, may be reopened upon receipt of new informal applications.

6. It will be noted that Public No. 300, 78th Congress, adds paragraph (d) to § 35.012, whereas a paragraph (d) was previously added to § 35.012 by an amendment promulgated January 19, 1934. In view of this duplication in numbering, the amendment effected by the instant law should be referred to as paragraph (d) of this section (approved May 11, 1944). (July 19, 1944.) OFFICE OF PRICE ADMINISTRATION.

[RMPR 320, Order 7]

CYPRESS TOMATO FIELD CRATES AND CITRUS CRATES

ADJUSTMENT OF MAXIMUM PRICES

Order No. 7 under section 11 of Revised Maximum Price Regulation No. 320. Eastern and Central wooden agricultural containers.

Applications have been made by principal producers, representing approximately 65 percent of total production, for increased prices on cypress tomato field crates and cypress citrus crates on the basis that present production costs will not permit production at present ceiling prices. The problem is general in nature, and the data supporting the individual applications are inadequate for general price action. Since immediate production of these crates is necessary for harvesting present crops, and acquisition of necessary additional data will require some time, the granting of authorization to use adjustable pricing, pending receipt of additional information and further action by this Office, is deemed necessary to promote production and distribution of the commodities involved. The granting of such authorization will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended.

Therefore, under authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328 and in accordance with section 11 of Revised Maximum Price Regulation 320, *It is ordered:*

(a) Sellers in the area covered by Revised Maximum Price Regulation 320 may sell and deliver, and any person may buy and receive cypress tomato field crates and cypress citrus crates at prices adjustable to those later established by the Office of Price Administration.

(b) However, prices in excess of the maximums currently established in the regulation may not be collected or paid, pending further action by this Office.

(c) This order shall expire at midnight on September 30, 1944.

This order shall become effective July 26, 1944.

Issued this 26th day of July 1944.

SECURITIES AND EXCHANGE COMMISSION.

[File Nos. 54–63, 59–47, 70–922, 70–923]

REPUBLIC SERVICE CORP., ET AL.

NOTICE OF FILING AND ORDER FOR HEARING AND CONSOLIDATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 25th day of July, A. D. 1944.

In the matters of Republic Service Corporation, et al., File Nos. 54–63 and 59–47; The Potomac Edison Company, File No. 70–922; American Gas and Electric Company, File No. 70–923.

The Commission having heretofore in proceedings under sections 11 (b) (1) and 11 (b) (2) of the Public Utility Holding Company Act of 1935 ordered Republic Service Corporation ("Republic"), a registered holding company, among other things, to divest itself of its interests in its Virginia subsidiaries and to recapitalize in an appropriate manner so as to ensure that the corporate structure of Republic does not unduly or unnecessarily complicate the structure or unfairly or inequitably distribute voting power among security holders of Republic's holding company system, and that, upon such recapitalization, the common stock of Republic shall be accorded no participation;

Notice is hereby given that declarations or applications (or both) have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935, by Republic in the form of an amendment designated as Amendment No. 1 to its application, heretofore filed pursuant to section 11 (e) of the act for approval of a plan to effectuate the provisions of section 11 (b) of the act and tc comply with the order of the Commission dated February 19, 1943. Separate declarations or applications (or both) have also been filed pursuant to the Public Utility Holding Company Act of 1935 by The Potomac Edison Company ("Potomac"), a registered holding company and a subsidiary of American Water Works and Electric Company, Incorporated, and by American Gas and Electric Company ("American"), a registered holding company and a subsidiary of Electric Bond and Share Company, also a registered holding company.

All interested persons are referred to such documents, which are on file in the offices of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

Republic and Potomac have entered into an agreement for the sale and purchase of all of the outstanding securities of certain wholly-owned subsidiaries of Republic for $2,007,137.60, which is the aggregate of the following prices as of December 31, 1943 subject to adjustments for changes in net property accounts and in net current assets to date of closing:

Company	Basic price as of Dec. 31, 1943	Adjusted net current assets at Dec. 31, 1943
Page Power Company	$1,333,248.47	$32,491.69
Madison Power Company	274,537.81	1,356.19
Massanutten Power Corporation	283,958.05	29,746.31
Massanutten Water Corporation	44,325.02	7,474.06
	1,936,069.35	71,068.25

Republic and American have entered into an agreement for the sale and purchase of all the outstanding capital stock of Holston River Power Company, a wholly-owned subsidiary of Republic, for a consideration of $715,306 in cash as of December 31, 1943 subject to adjustments for changes in net property account and in net current assets to the date of closing.

Republic proposes to deposit the net proceeds of the sale of the said securities, estimated at $2,590,000 (after estimated adjustments in sales prices and allowances for expenses and escrow funds provided for as security against contingent liabilities), with the Indenture Trustee to be used for pro rata payments on the principal of its Collateral Trust Bonds outstanding in the principal amount of $4,409,500. In addition, Republic proposes that it shall have the privilege, at its option, of furnishing such additional cash to its Indenture Trustee as may be necessary to permit an aggregate pro rata payment of 60% of the outstanding principal amount of the said bonds. It is further proposed that interest on the portion of the principal to be paid shall cease to accrue as of the end of the calendar month in which the equivalent cash funds (including interest accrued to such date) are deposited with the Indenture Trustee.

Republic requests that the Commission find the plan fair and equitable to the persons affected thereby and appropriate to effectuate the provisions of section 11 (b) of the Act and requests that an order approving this plan and the proposed transactions contain appropriate recitals and specifications as described in sections 371 (b), 371 (f) and 1808 (f) of the Internal Revenue Code. Republic further requests if the Commission approves the proposed plan that the Commission apply to a Federal Court pursuant to the provisions of section 11 (e) and 18 (f) of the act to enforce and carry out the terms and provisions of this plan.

The filings designate sections 11 (b), 11 (e), 12 (d), 12 (f), 9 (a), and 10 of the act as applicable to the proposed transactions.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said matters and that said declarations or applications (or both) shall not become effective or be granted except pursuant to further order of this Commission; and

It further appearing that all of the foregoing matters are related and involve common questions of law and fact and that evidence offered in respect of each of the matters may have a bearing on the others, and that substantial savings of time, effort, and expense and substantial progress toward the speedy and effective carrying out of the purposes of the Act and the applicable provisions thereof will result after the hearings if said matters are consolidated so that they may be heard as one matter, and that evidence adduced in each matter may stand as evidence in the other for all purposes;

It is hereby ordered, That the said matters be and the same hereby are consolidated, *Provided*, That nothing herein contained shall be deemed to constitute a re-opening of the record in any proceedings in any matters contained in Commission's File Nos. 54–63 and 59–47 in respect of any issue decided by the Commission's order of February 19, 1943 or to constitute a modification or amendment of said order.

It is further ordered, That jurisdiction be and hereby is reserved to separate, either in whole or in part, or for disposition in whole or in part, any of the issues or questions which may arise in these proceedings and to take such other action as may appear conducive to an orderly, prompt, and economic disposition of the matters involved.

The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

Notice is hereby given of said consolidated hearing to the above-named declarants or applicants, State Corporation Commission of Virginia, Public Service Commission of Maryland, The Pennsylvania Company for Insurance on Lives and Granting Annuities, Indenture Trustee of said Collateral Trust Bonds, and to all interested persons; said notice to be given to said declarants or applicants and to The Pennsylvania Company for Insurance on Lives and Granting Annuities, Indenture Trustee, State Corporation Commission of Virginia, and Public Service Commission of Maryland by registered mail, and to all other persons by publication of this notice and order in the FEDERAL REGISTER. It is requested that any person desiring to be heard in this proceeding shall file with the Secretary of this Commission, on or before August 10, 1944, an appropriate request or application to be heard, as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Republic shall give additional notice of said hearing to all known holders of its outstanding First Lien Collateral Trust Twenty-five Year Bonds, 5% Series A, by causing a copy of this notice and order of hearing to be mailed to such holders at their last-known addresses, such mailing to be made not less than ten days prior to the date of said hearing.

It is further ordered, That without limiting the scope of the issues presented by the said declarations or applications (or both) and otherwise to be considered in this proceeding, particular attention shall be directed at the hearing to the following matters and questions:

PART 1490—MISCELLANEOUS FOOD PRODUCTS

SOLUBLE COFFEE AND SOLUBLE COFFEE PRODUCTS

The fulfillment of requirements for the defense of the United States will result in a shortage in the supply of soluble coffee and soluble coffee products for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1409.7 *Restrictions relative to soluble coffee and soluble coffee products*—(a) *Definitions.* (1) "Soluble coffee" means the dried, powdered, water soluble solids derived from the brew of roasted and ground coffee.

(2) "Soluble coffee products" means soluble coffee to which there has been added any carbohydrates or other ingredient.

(3) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons whether incorporated or not.

(4) "Government agency" means (i) the Armed Services of the United States (excluding for the purpose of this order United States Army Post Exchanges, United States Navy ships' service departments, and United States Marine Corps post exchanges); (ii) the War Food Administration (including, but not being restricted to, any corporate agency thereof); (iii) the War Shipping Administration; (iv) the Veterans Administration; and (v) any other agency designated by the War Food Administrator. The term "governmental agency" also includes any person who, pursuant to a war food order, is entitled to purchase soluble coffee or soluble coffee products subject to this order.

(5) "Armed Services of the United States" means the Army, the Navy, the Marine Corps, and the Coast Guard of the United States.

(6) "Director" means the Director of Distribution, War Food Administration.

(b) *Restrictions.* (1) All soluble coffee and soluble coffee products owned on August 1, 1944, by a manufacturer thereof shall be set aside immediately on such date by such manufacturer and thereafter held for sale and delivery to a governmental agency. All soluble coffee and soluble coffee products manufactured on or after August 1, 1944, shall be set aside immediately by the respective manufacturer thereof and thereafter held for sale and delivery to a governmental agency.

(2) The provisions of this order shall be observed without regard to contracts heretofore or hereafter entered into or any rights accrued or any payments made thereunder. This order shall not, however, be construed as reducing the amount of soluble coffee or soluble coffee products which any person is required to offer or deliver pursuant to a contract heretofore or hereafter entered into with a governmental agency.

(c) *Audits and inspections.* The Director shall be entitled to make such audit or inspection of the books, records and other writings, premises or stocks of soluble coffee and soluble coffee products of any person, and to make such investigations, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

(d) *Records and reports.* (1) The Director shall be entitled to obtain such information from, and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

The Director may, after said review, take such action as he deems appropriate, and such action shall be final. The provisions of this paragraph (e) shall not be construed to deprive the Director of authority to consider originally any petition for relief from hardship submitted in accordance herewith. The Director may consider any such petition and take such action with reference thereto that he deems appropriate, and such action shall be final.

(f) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using the material subject to priority or allocation control pursuant to this order. In addition, any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter A—Income and Excess-Profits Taxes

[T. D. 5394]

GAIN OR LOSS UPON CUTTING OF TIMBER AND DISPOSAL OF TIMBER

Regulations 111, 103, 101, 94, 86, 77, 74, 69, 65, 62, 45, 33, and 33 (revised) amended to conform to sections 101 and 127 of the Revenue Act of 1943 relating to gain or loss upon the cutting of timber and upon certain disposal of timber.

In order to conform Regulations 111 [Part 29, Title 26, Code of Federal Regulations, Cum. Supp.], 103 [Part 19, Title 26, Code of Federal Regulations, 1940 Supp.], 101 [Part 9, Title 26, Code of Federal Regulations, 1939 Supp.], 94 [Part 3, Title 26, Code of Federal Regulations], and Regulations 86, 77, 74, 69, 65, 62, 45, 33, and 33 (revised) to sections 101 and 127 of the Revenue Act of 1943 (Public Law 235, 78th Congress), enacted February 25, 1944, such regulations are amended as follows:

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

PARAGRAPH 1. Section 29.113 (a) (14)-1 is amended by inserting at the end of the second paragraph the following new sentence: "However, see sections 117 (k) (1) and 117 (k) (2) with respect to the determination of loss upon timber which under the provisions of those sections is considered to be sold or exchanged."

PAR. 2. There is inserted immediately preceding § 29.117-1 the following:

SEC. 127. GAIN OR LOSS UPON THE CUTTING OF TIMBER. (Revenue Act of 1943, Title I.)

(a) *In general.* Section 117 (relating to capital gains and losses) is amended by inserting at the end thereof the following new subsection:

(k) *Gain or loss upon the cutting of timber.* (1) If the taxpayer so elects upon his return for a taxable year, the cutting of timber (for sale or for use in the taxpayer's trade or business) during such year by the taxpayer who owns, or has a contract right to cut, such timber (providing he has owned such timber or has held such contract right for a period of more than six months prior to the beginning of such year) shall be considered as a sale or exchange of such timber cut during such year. In case such election has been made, gain or loss to the taxpayer shall be recognized in an amount equal to the difference between the adjusted basis for depletion of such timber in the hands of the taxpayer and the fair market value of such timber. Such fair market value shall be the fair market value as of the first day of the taxable year in which such timber is cut, and shall thereafter be considered as the cost of such cut timber to the taxpayer for all purposes for which such cost is a necessary factor. If a taxpayer makes an election under this paragraph such election shall apply with respect to all timber which is owned by the taxpayer or which the taxpayer has a contract right to cut and shall be binding upon the taxpayer for the taxable year for which the election is made and for all subsequent years, unless the Commissioner, on showing of undue hardship, permits the taxpayer to revoke his election; such revocation, however, shall preclude any further elections under this paragraph except with the consent of the Commissioner.

(2) In the case of the disposal of timber (held for more than six months prior to such disposal) by the owner thereof under any form or type of contract by virtue of which the owner retains an economic interest in such timber, the difference between the amount received for such timber and the adjusted depletion basis thereof shall be considered as though it were a gain or loss, as the case may be, upon the sale of such timber.

(b) *Technical amendment.* Section 117 (j) (1) (relating to gains and losses from involuntary conversion and from the sale or exchange of certain property used in the trade or business) is amended by inserting at the end thereof the following: "Such term also includes timber with respect to which subsection (k) (1) or (2) is applicable".

(c) *Effective date.* A provision having the effect of section 117 (k) (2) of the Internal Revenue Code inserted by the amendment made by subsection (a) shall be deemed to be included in the revenue laws respectively applicable to taxable years beginning after February 28, 1913. The amendment made by subsection (b) shall be effective as if it were made by section 151 of the Revenue Act of 1942.

SEC. 101. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1943, Title I.) Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1943.

PAR. 3. Section 29.117-7 is amended as follows:

(A) By changing the first paragraph after the heading to read as follows:

Section 117 (j) provides that the recognized gains and losses:

(a) From the sale, exchange, or involuntary conversion of property used in the trade or business of the taxpayer at the time of the sale, exchange, or involuntary conversion, held for more than six months, which is:

(1) Of a character subject to the allowance for depreciation provided in section 23 (l), or

(2) Real property,

Provided, That such property is not of a kind which would properly be includible in the inventory of the taxpayer if on hand at the close of the taxable year, or is not held by the taxpayer primarily for sale to customers in the ordinary course of trade or business, and

(b) From the involuntary conversion of capital assets held for more than six months, and

(c) From timber held for more than six months which is considered to have been sold under the provisions of section 117 (k) (2), and with respect to taxable years beginning after December 31, 1943, from timber owned or held under a contract right to cut for more than six months prior to the beginning of the taxable year which is considered to have been sold or exchanged under the provisions of section 117 (k) (1), regardless of whether such timber would be properly includible in the inventory of the taxpayer if on hand at the close of the taxable year or whether such timber was held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business,

shall be treated as gains and losses from the sale or exchange of capital assets held for more than six months if the aggregate of such gains exceeds the aggregate of such losses. If the aggregate of such gains does not exceed the aggregate of such losses, such gains and losses shall not be treated as gains and losses from the sale or exchange of capital assets.

(B) By changing the first sentence of the fourth paragraph to read as follows:

Section 117 (j) does not apply to gains and losses on the sale, exchange, or involuntary conversion of any property which would properly be includible in the inventory of the taxpayer if on hand at the close of the taxable year, or which is held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business, but not including as such property timber which is considered to have been sold or exchanged as provided in section 117 (k) (1) or which has been sold as provided in section 117 (k) (2).

PAR. 4. There is inserted immediately following § 29.117-7 the following new section:

§ 29.117-8 *Gain or loss upon the cutting and disposal of timber*—(a) *Gain or loss upon the cutting of timber*—(1) *Election to consider cutting as a sale or exchange.* With respect to a taxable year beginning after December 31, 1943, a taxpayer who has owned, or has held a contract right to cut, timber for a period of more than six months prior to the beginning of such taxable year may elect under section 117 (k) (1) to consider the cutting of such timber during such year for sale or for use in the taxpayer's trade or business as a sale or exchange of the timber so cut. Such election must be made by the taxpayer in its income tax return for the taxable year, and cannot be made thereafter. The election shall take the form of a computation in the return under the provisions of section 117 (k) (1) and section 117 (j).

The election provided by section 117 (k) (1) need not be made with respect to the first taxable year of the taxpayer beginning after December 31, 1943, to which the provisions of such section are applicable. Such election may be made for any taxable year beginning after December 31, 1943, to which the provisions of section 117 (k) (1) are applicable.

The election made under the provisions of section 117 (k) (1) shall be applicable with respect to all timber which was owned by the taxpayer or which the taxpayer had a contract right to cut, and the cutting of timber, whether or not actually sold or exchanged, shall be considered to be a sale or exchange, except that timber which is not cut for sale or for use in the taxpayer's trade or business and timber which was held for a period of not more than six months prior to the beginning of the taxable year shall not be considered to have been sold or exchanged upon the cutting thereof. If an election has been made under the provisions of section 117 (k) (1), such election shall be binding upon the taxpayer not only for the taxable year for which the election is made but also for all subsequent taxable years, unless the Commissioner on showing by the taxpayer of undue hardship permits the taxpayer to revoke his election for such subsequent taxable years. Such election shall apply with respect to all timber which the taxpayer has owned, or has had a contract right to cut, for a period of more than six months prior to the beginning of a subsequent taxable year and which was cut for sale or for use in the taxpayer's trade or business, whether such timber or contract right was acquired prior or subsequent to the election. If the taxpayer has revoked his election, such revocation shall preclude any further elections by the taxpayer under section 117 (k) (1), except with the consent of the Commissioner.

(2) *Computation of gain or loss.* If the cutting of timber is considered as a sale or exchange pursuant to an election made under the provisions of section 117 (k) 1, gain or loss shall be recognized to the taxpayer in an amount equal to the difference between the adjusted basis for depletion in the hands of the taxpayer of the timber which has been cut during the taxable year and the fair market value of such timber as of the first day of the taxable year in which such timber is cut. The adjusted basis for depletion of such cut timber shall be based upon the number of units of timber cut during the taxable year which are considered to be sold or exchanged and upon the depletion unit of the timber in the timber account or accounts pertaining to the timber cut, and shall be computed in the same manner as is provided in § 29.23 (m)-21 with respect to the computation of the allowance for depletion.

The fair market value of the timber as of the first day of the taxable year in which such timber is cut shall be determined, subject to approval or revision by the Commissioner upon examination of the taxpayer's return, by the taxpayer electing to apply the provisions of section 117 (k) (1) in the light of the most reliable and accurate information available with reference to the condition of the property as it existed at that date, regardless of all subsequent changes, such as changes in surrounding circumstances, in methods of exploitation, in degree of utilization, etc. The value sought will be the selling price, assuming a transfer between a willing seller and a willing buyer as of that particular day. Due consideration will be given to the factors and the principles involved in the determination of the fair market value of timber as described in § 29.23 (m)-25.

The fair market value as of the beginning of the taxable year of the timber cut during such year shall be considered to be the cost of the timber which was cut, in lieu of the actual cost or other basis of such timber, for all purposes for which such cost is a necessary factor. Thus if the products of the timber cut during a taxable year were sold during such year, the fair market value as

of the beginning of such taxable year of the timber cut during the year shall be used in computing the depletion unit and the allowance for depletion as provided in § 29.23 (m)–21. This is also the rule in case the products of the timber cut during one taxable year with respect to which an election has been made under section 117 (k) (1) are sold during a subsequent taxable year, whether or not the election provided in section 117 (k) (1) is applicable with respect to such subsequent year. If the products of the timber cut during a taxable year with respect to which an election under section 117 (k) (1) was made were not sold during such year and are included in inventory at the close of such year, the fair market value as of the beginning of the year of the timber cut during the year shall be used in lieu of the actual cost of such timber in computing the closing inventory for such year and the opening inventory for the succeeding year. With respect to the costs applicable in the determination of the amount of such inventories there shall be included the fair market value of the timber cut, the costs of cutting, logging, and all other expenses incident to the cost of converting the standing timber into the products in inventory. See § 29.22 (c)–3. The fact that the fair market value as of the first day of the taxable year in which the timber is cut is deemed to be the cost of such timber shall not preclude the taxpayer from computing its inventories upon the basis of cost or market, whichever is lower, if such is the method used by the taxpayer. Nor shall it preclude the taxpayer from computing its inventories under the elective method provided by section 22 (d) if such section is applicable to, and has been elected by, the taxpayer.

For any taxable year beginning after December 31, 1943, for which the cutting of timber is considered to be a sale or exchange of such timber under section 117 (k) (1), the timber so cut shall be considered as property used in the trade or business for the purposes of section 117 (j) along with other property of the taxpayer used in the trade or business as defined in section 117 (j) (1). Whether the gain or loss considered to have resulted from the cutting of the timber will be considered to be gain or loss resulting from the sale or exchange of capital assets held for more than six months depends upon the application of section 117 (j) to the taxpayer for the taxable year. See § 29.117–7.

In case the products of the timber are sold after cutting, either in the form of logs or lumber or in the form of a manufactured product, the income from such actual sale shall be considered ordinary income. In determining the cost of the products so sold, the cost of the timber shall be computed pursuant to the provisions of section 117 (k) (1).

(b) *Gain or loss upon the disposal of timber under cutting contract.* If a taxpayer disposes of timber under any form or type of contract whereby he retains an economic interest in such timber, the disposal under the contract shall be considered to be a sale of such timber. The difference between the amounts received for the timber in any taxable year and the adjusted basis for depletion of the timber with respect to which the amounts were so received shall be considered to be a gain or loss upon the sale of such timber for such year. If the taxpayer owned the timber for a period of more than six months prior to the date of such contract, for the purposes of section 117 (j) such timber shall be considered to be property used in the trade or business for the taxable year for which it is considered to have been sold, along with other property of the taxpayer used in the trade or business as defined in section 117 (j) (1). Whether gain or loss resulting from the disposition of the timber which is considered to have been sold will be deemed to be gain or loss resulting from the sale of a capital asset held for more than six months will depend upon the application of section 117 (j) in the case of the taxpayer.

PART 19—INCOME TAX UNDER THE INTERNAL REVENUE CODE

PAR. 5. Section 19.113 (a) (14)–1 is amended by inserting at the end of the second paragraph the following new sentence: "However, see section 117 (k) (2) with respect to the determination of loss upon timber which under the provisions of that section is considered to be sold."

PAR. 6. There is inserted immediately preceding § 19.117–1 the following:

SEC. 127. *Gain or loss upon the cutting of timber.* (Revenue Act of 1943, Title I.)

(a) *In general.* Section 117 (relating to capital gains and losses) is amended by inserting at the end thereof the following new subsection:

(k) *Gain or Loss Upon the Cutting of Timber.* • • •

(2) In the case of the disposal of timber (held for more than six months prior to such disposal) by the owner thereof under any form or type of contract by virtue of which the owner retains an economic interest in such timber, the difference between the amount received for such timber and the adjusted depletion basis thereof shall be considered as though it were a gain or loss, as the case may be, upon the sale of such timber.

• • • • •

(c) *Effective date.* A provision having the effect of section 117 (k) (2) of the Internal Revenue Code inserted by the amendment made by subsection (a) shall be deemed to be included in the revenue laws respectively applicable to taxable years beginning after February 28, 1913. • • •

PAR. 7. There is inserted immediately following § 19.1177, as added by Treasury Decision 5217, approved January 19, 1943, the following new section.

§ 19.117–8 *Gain or loss upon the disposal of timber under cutting contract.* If a taxpayer disposes of timber under any form or type of contract whereby he retains an economic interest in such timber, the disposal under the contract shall be considered to be a sale of such timber. The difference between the amounts received for the timber in any taxable year and the adjustable basis for depletion of the timber with respect to which the amounts were so received shall be considered to be a gain or loss upon the sale of such timber for such year. The holding period of such timber shall be measured by reference to the date of the contract of disposition.

PART 3—INCOME TAX UNDER REVENUE ACT OF 1936

PART 9—INCOME TAX UNDER REVENUE ACT OF 1938

PAR. 8. Regulations 101 and prior income tax regulations applicable to taxable years beginning after February 28, 1913 are amended by incorporating therein a provision having the effect of section 117 (k) (2) and provisions having the effect of § 19.117–8 of Regulations 103 and the amendment to § 19.113 (a) (14)–1 of Regulations 103 made by this Treasury decision to the extent necessary to accord with that portion of section 127 of the Revenue Act of 1943 relating to section 117 (k) (2) of the Internal Revenue Code.

(53 Stat. 32; 26 U. S. C. 62) and corresponding provisions of prior internal revenue laws, and Secs. 101 and 127, Rev. Act of 1943 (Pub. Law 235, 78th Cong.) enacted Feb. 25, 1944.)

PART 3208—SCHEDULED PRODUCTS

[General Scheduling Order M–293, Direction 1 to Table 4]

PURCHASERS OF INTERNAL COMBUSTION ENGINES OR COMPONENTS TO FURNISH MANUFACTURERS INFORMATION REGARDING USE OF ENGINES AND COMPONENTS

The following direction is issued pursuant to Table 4 of General Scheduling Order M–293:

The demand for internal combustion engines and engine components, the shipments of which are scheduled under War Production Board General Scheduling Order M–293, Table 4, is so large that it is necessary for the War Production Board to determine the relative urgency of shipments to be made by each manufacturer of these products. In many instances the manufacturer does not have the necessary information in sufficient detail to inform the War Production Board as to the end use of the engines or components, as this information is known only to the purchaser and sometimes only to the customer of that purchaser. Unless purchase orders already placed and also future orders are properly identified, the War Production Board may be compelled to postpone delivery by the manufacturer or remove the orders entirely from the manufacturer's shipping schedule.

Consequently, in order that each manufacturer of internal combustion engines or their components may be in a position to furnish the War Production Board with the required information, all purchasers of any product listed on Order M–293, Table 4, are directed to furnish immediately to the manufacturer of the product the following information in respect to the items he has ordered:

1. The specific use the purchaser will make of the engine or component: for example—tractor, generator, pump, truck, combine, truck replacement, etc.

2. The program or project for which the engine or component is required: for example—farm machinery, advanced Naval base, heavy truck, truck replacement, etc.

3. Government contract number (if any) identifying the prime contract placed by the claimant agency for such program or project: for example, W–04–353–Eng–339 (this indicates Army Engineer Corps—Contract No. 339). NOBs–1161 (this indicates Navy-Bureau of Ships—Contract No. 1161).

4. The claimant agency sponsoring the program or project; for example:— the Army, Navy, War Food Administration, Office of Defense Transportation, etc.

The foregoing information must also be furnished by purchasers in respect to all future orders for any product listed on Order M-293, Table 4, at the time the orders are given the manufacturer. In giving the information, purchasers should furnish a separate statement for purchase orders involving different programs or covered by more than one government contract number.

If the purchaser of the product does not have any part of the foregoing information, he may get it from his customer and the customer likewise, if he does not have the information, may get it from his customer.

This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 28th day of July 1944.

Recording Secretary.

PART 3270—CONTAINERS

[Limitation Order L-197, as Amended July 28, 1944]

STEEL SHIPPING DRUMS

§ 3270.15 *Limitation Order L-197*— (a) *Definitions.* For the purpose of this order:

(1) "Drum" means any single-walled cylindrical or bilged container with a capacity of 132 gallons or less (including but not limited to buckets, kits and pails) constructed wholly of steel. It does not include cans as defined in Order M-81, high or low pressure gas steel cylinders, storage tanks, or any container not usable commercially for transporting commodities.

(2) "Used drum" means any drum which has been used for shipping, storage or intra-plant transfer of products. The affixing of ends or other parts to used drums shall not cause them to be regarded as new drums.

(3) "New drum" means any drum which is not a used drum and includes rejects or seconds.

(4) "Reject or second" means any newly manufactured drum which cannot be used for the purpose for which it was intended due to some defect in it.

(5) "Industrial order" means any purchase order for or contract to buy a commodity except one placed by, or to be shipped directly to the Army, Navy, Aircraft Resources Control Office, Maritime Commission or War Shipping Administration, or one placed by any United States Government Agency when operating under Lend-Lease.

(6) "Class of Commodity" means any one of the numbered items listed in Schedule A.

Restriction on New Drums

(b) *Restriction against manufacture, sale or delivery.* No person shall manufacture, sell or deliver any new drums which he has reason to believe will be accepted or used in violation of the terms of this order.

(c) *Restriction against acceptance or use.* No person shall accept delivery of or use a new drum for packing any commodity listed in Schedule B to fill an industrial order. This restriction shall not apply to a person who has received a license from the Foreign Economic Administration for the export of the commodity to be packed in drums to the extent of the license granted. Where a specific commodity is listed in Schedule B, the provisions of this paragraph apply even though the general class under which the commodity may be included has a quota under Schedule A.

(d) *Quota restrictions.* (1) No person shall, during any calendar quarter, unless specifically authorized by the War Production Board in accordance with paragraph (d) (2):

(i) Use a greater tonnage of new drums for the packing of any class of commodities listed in Schedule A for industrial orders than 95% of the tonnage of new drums he used for that class of commodities for industrial orders in the corresponding quarter of 1943;

(ii) Use more new drums for purposes other than packing commodities (such as drums to be used entirely within the plant or installed as integral parts of other equipment) than he used for the same purpose in the corresponding quarter of 1943.

(2) Application for authorization to establish a quota or exceed the quota established in paragraph (d) (1) shall be made by filing Form WPB 3770 in quadruplicate. Such applications will be considered only on the basis of essential need for, and the supply of new drums, and the availability of used or substitute containers.

(3) As an alternative to basing his packing quota for any quarter upon the usage of new drums in the corresponding quarter of 1943 as provided in paragraph (d) (1), a person may determine his packing quota for any class of commodities for any quarter by taking 23¾% of his total usage of new drums for packing that class of commodities for industrial orders during 1943. A person may not change his method of computing his packing quotas in the course of any calendar year.

(4) Where a commodity is listed in Schedule A with a quota based on previous packing in fibre drums during 1943, any person who packed the commodity in fibre drums during 1943 may in any calendar year pack in new steel drums the designated percentage of the quantity of that commodity that he packed in fibre drums in 1943 in addition to his packing quota for that commodity provided for in paragraph (d) (1).

(5) No person shall use any part of a quota given to him to pack one class of commodities to pack another class of commodities.

(6) Any person who has any part of his packing quota for a class of commodities left over from one calendar quarter may use it to pack that class of commodities in the next calendar quarter. He may also borrow up to 25% of the next quarter's quota for that purpose.

(7) The quota restrictions in this order shall apply to all new drums used for packing commodities for industrial orders beginning with May 15, 1944. For the period from May 15, 1944 to July 1, 1944, a person's quota based on usage of steel drums under paragraph (d) (1) shall be one-half of what his quota would have been for the second quarter of 1944 under the terms of this order. For the period from May 15, 1944 to December 31, 1944, a person's quota based on usage of fibre drums under paragraph (d) (4) shall be five-eighths of what it would have been for the calendar year of 1944 under the terms of this order. All authorizations issued prior to May 27, 1944, shall be null and void after May 27, 1944, when the quota restrictions go into effect.

(8) Whenever a quota is given to a person based on use of new drums for packing a product, the quota shall belong to the person who owned the drums (steel or fibre) whether he packed them himself or had someone pack them for him. A person who packed drums in the base period owned by someone else does not have a quota based on packing those drums as that quota belongs to the person who owned the drums and for whose account the packing was done. An exception to this rule as to quota is made in the case of foreign petroleum operators operating under authorization from The Petroleum Administration for War on Form WPB 743. The quota in such cases shall belong to the person who obtained the authorization for the drums for export under that form, and the person who packs for him, whether he buys the drums or not, shall not be entitled to a quota based upon such packing.

A person who has a quota under the provisions of this paragraph may either pack the commodity himself or have someone else pack it for him. When someone else packs it for him, it shall be chargeable to his quota and not to the quota of the person who packs it for him. a person who packs a commodity for an other, to be charged against the latter's quota, must receive a statement from such person that the packing of that commodity is within his quota under the order.

(e) *Inventory restrictions.* No person shall, at any time, accept delivery of any new drum which will increase his total inventory of that type or size of new drum to more than his requirements for the following sixty-day period or will increase his total inventory of all types and sizes of new drums to more than one and one-half carloads, whichever is the greater. This restriction does not apply to the Army, Navy, Aircraft Resources Control Office, Maritime Commission or War Shipping Administration.

Restrictions on Used Drums

(f) *Prohibition on use.* No person shall pack in used drums for industrial orders a commodity which is listed in Schedule B without an asterisk. This restriction shall not apply to a person who has received a license from the Foreign Economic Administration for the export of the commodity to be packed in used drums to the extent of the license granted. Any other commodity not appearing on Schedule B or listed there with an asterisk may be packed in used drums without limitation.

(g) *Prohibition on sale or delivery.* No person shall sell or deliver any used drum which he knows or has reason to believe will be accepted or used in violation of the terms of this order.

(h) *Restrictions.* (1) No person shall sell or deliver any empty drum which was packed with an edible product the last time it was used, and which is capable of being reused for the same purpose, if he knows or has reason to believe that it will be used for packing inedible products.

(2) No person shall sell or deliver any empty drums which were packed with a naval store product the last time it was used, and which is capable of being reused for the same purpose, if he knows or has reason to believe that it will be used for packing anything other than naval store products. Naval store products as used in this paragraph means those materials which are directly derived from the oleo-resinous secretions of various species of coniferous trees; the term includes resins and liquid terpines, both crude and refined, special materials derived from these and such related products as tall oil and pine tars.

(i) *Exceptions.* Nothing in this order shall apply to the use of used drums (1) for storage purposes by any person having less than five drums in use for all purposes or (2) constructed wholly of lighter than 23 gauge steel.

(j) *Exception for packing molasses.* Notwithstanding the fact that molasses appears without an asterisk on Schedule B, packers of molasses may pack it in used steel drums owned by a farmer and packed on his order for his use for ensilage. The packer may rely upon a signed statement by the purchaser that he is a farmer, that he owns the steel drum which is to be filled and that the molasses is for his own use for ensilage. If he has knowledge of these facts, he may waive the signed statement.

Preference Ratings

(k) *Use of preference ratings.* No preference rating shall be applied to obtain delivery of new drums except a rating which has been specifically assigned for drums by the Army, Navy, Aircraft Resources Control Office, Maritime Commission, War Shipping Administration or to other persons pursuant to the authorization by the Maritime Commission under Form WPB 646 (formerly PD-300) for direct or ultimate delivery to them of drums either filled or empty.

(l) *Cancellation of ratings previously assigned.* Any order for new drums for which a rating of AA-3 or lower has been assigned before May 27, 1944 shall be considered an unrated order whether it was placed before or after May 27, 1944.

(m) *Certificate.* No person shall sell or deliver any new drums unless he receives a purchaser's certificate, signed manually or as provided in Priorities Regulation No. 7. This certificate shall be in substantially the form attached hereto as Exhibit A. Attention is called to the fact that this certificate, once filed by a purchaser with a supplier, covers all future deliveries from that supplier to that purchaser.

Miscellaneous Provisions

(n) *Reports.* Any person affected by this order shall file such reports and questionnaires as the War Production Board may request from time to time, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(o) *Appeals.* Any appeal from the provisions of this order shall be filed on Form WPB 3770 in quadruplicate.

(p) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(q) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Containers Division, Washington 25, D. C., Ref: L-197.

(r) *Approval by Bureau of the Budget.* The use of Form WPB 3770 has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 28th day of July 1944.

INTERPRETATION 1

STEEL SHIPPING DRUMS; APPEALS GRANTED BEFORE MAY 27, 1944 NOT CANCELLED

Authorization by the War Production Board was required for delivery and acceptance of delivery of new drums under Order L-197 prior to May 27, 1944, but is no longer required under the order as amended on that date. Paragraph (d) (7) declaring all authorizations null and void after May 27, 1944 does not invalidate appeals granted before that date. An appeal is a request for permission to use a new or used drum for packing a product listed without an asterisk in Schedule A of the old order or to use a new drum to pack a product listed with a single asterisk. PART 3285—LUMBER AND LUMBER PRODUCTS

[Order L-335, Direction 12]

SPECIAL AUTHORIZATION NEEDED TO GET LUMBER FOR CERTAIN PRIVATELY FINANCED DWELLING PROJECTS

The following direction is issued pursuant to Order L-335:

(a) *Whom this direction applies to.* This direction applies to any Class II Consumer who has been authorized to construct a privately financed dwelling as a result of having filed Form WPB-2896 (formerly PD-105). It also applies to any person that will need to receive authority on Form WPB-2896, as revised July 7, 1944, to construct a privately financed dwelling. This direction does not apply to privately financed dwelling projects which involve only (1) remodeling, conversion, alteration, installation of new equipment only, or repair of existing structures; and (2) the completion of new structures in a project which has been previously authorized but which does not require the delivery of more than 1,000 board feet of lumber after September 1, 1944.

(b) *What this direction does.* This direction forbids a Class II Consumer who needs lumber to construct a privately financed dwelling to use a certification on orders requesting the delivery of lumber after September 1, 1944 unless he has been authorized by the Federal Housing Administration to receive the lumber required for that project. This does not apply to the types of projects excepted in paragraph (a) above or to projects which can be constructed without filing form WPB-2896.

(c) *Privately financed dwelling projects for which Form WPB 2896 (formerly PD-105) has been filed.* A Class II Consumer who needs to receive lumber for a privately financed housing project that has been approved by the Federal Housing Administration as a result of having filed Form WPB-2896 (formerly PD-105) other than the July 7, 1944 revision of Form WPB-2896, is forbidden to use the certification prescribed in paragraph (q) (1) of Order L-335 on an order requesting the delivery of lumber after September 1, 1944 for such a project unless he has received from the Federal Housing Administration an authorization on Form WPB-2896.1 to receive the lumber. This does not apply to the exceptions referred to in paragraph (a) above. Application Form WPB-2896.1 may be obtained from a field office of the Federal Housing Administration. It must be executed in accordance with the instructions on the form and filed with the same field office of the Federal Housing Administration that Form WPB-2896 (formerly PD-105) was filed when the project was originally authorized.

(d) *Privately financed dwelling projects for which Form WPB-2896 as revised July 7, 1944 is required.* A person who needs to receive lumber for a privately financed housing project which is approved on Form WPB-2896 as revised July 7, 1944 is not required to file Form WPB-2896.1 as the revised version of Form WPB-2896 requires the applicant to report his lumber requirements for that project and the approval of the project by the Federal Housing Administration carries with it the authority to receive the lumber required for that project. A person filing the revised form of WPB-2896 should only report the lumber that he will need to receive after August 31, 1944 and his lumber requirements for the third quarter in 1944 should only show the amount he needs for the month of September 1944.

(e) *Receipts of lumber may not be had prior to the quarter in which receipt is authorized.* A Class II consumer receiving an authorization on either Form WPB-2896.1 or Form WPB-2896 as revised July 7, 1944 may not receive lumber prior to the beginning of the quarter in which he is authorized on the form to receive the lumber.

(f) *Receipts of lumber after calendar quarter in which receipts are authorized.* A person receiving an authorization on either Form WPB-2896.1 or Form WPB-2896 as revised July 7, 1944 to receive lumber in a calendar quarter may receive that lumber in any succeeding calendar quarter if it is required to complete the authorized project but he may not receive more lumber than is actually required for that project.

(g) *Additional authorizations and return of authorizations.* A Class II consumer who needs to receive more lumber than he has been authorized on either Form WPB-2896.1 or Form WPB-2896 as revised July 7, 1944, may file an amended application for an additional amount of lumber. Amended applications should be on the same type of form as was used in making the original application. If he finds that he will not need as much lumber as authorized by the form, he must notify the Federal Housing Administration on Form WPB-3773 of the amount of lumber he does not need and has not received and must cancel or reduce his outstanding delivery orders accordingly.

(h) *Certification of delivery orders and use of ratings.* Any Class II consumer that has been authorized on either Form WPB-2896.1 or Form WPB-2896 as revised July 7, 1944 to receive a stated quantity of lumber must certify his purchase orders, sales tickets, or other orders requesting the delivery or transfer of that lumber in accordance with the instructions contained in paragraph (q) of Order L-335. If such a consumer has been authorized on Form WPB-2896 to construct a privately financed housing project but has not received an authorization on Form WPB-2896.1 or Form WPB-2896 as revised July 7, 1944 to receive lumber for that project he is forbidden to place a certification on orders he places to obtain lumber for that project. This provision does not apply to the exceptions stated in paragraph (a) of this direction.

Issued this 28th day of July 1944.

Chapter XI—Office of Price Administration

PART 1448—EATING AND DRINKING ESTABLISHMENTS

[Rev. Restaurant MPR 5-2]

FOOD AND DRINKS SOLD FOR IMMEDIATE CONSUMPTION IN HOUSTON, TEX., DISTRICT

Maximum Price Regulation No. 5-2 is redesignated Revised Maximum Price Regulation No. 5-2 and is revised and amended to read as follows:

In the judgment of the Houston, Texas District Director of Region V the prices of food and beverages sold for immediate consumption in the Houston District as described in this regulation have risen, and are threatening further to rise, to an extent and in a manner inconsistent with the purpose of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328.

In the judgment of the District Director of the Houston, Texas District, the maximum prices established by this regulation are generally fair and equitable and are necessary to and will check inflation and effectuate the purposes of the act. So far as practicable, the District Director of the Houston, Texas District gave due consideration to prices prevailing between October 1 and 15, 1941, and consulted with the representatives of those affected by this regulation.

A statement of the considerations involved in the issuance of this regulation, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Therefore, in accordance with the direction of the President to take action which will stabilize prices affecting the cost of living, and under the authority therewith delegated by the President pursuant to the Act of Congress approved October 2, 1942, entitled "An Act to Aid in Stabilizing the Cost of Living" (7 F.R. 7565), 77th Congress, Second Session, and under the authority of Executive Order 9250, Executive Order 9328, and the Emergency Price Control Act of 1942, the District Director of the Houston, Texas District hereby issues this Revised Restaurant Maximum Price Regulation No. 5-2, establishing as maximum prices for food and drink sold for immediate consumption the prices prevailing therefor during the seven-day period beginning April 4, 1943, and ending April 10, 1943.

§ 1448.402 *Maximum prices for food and drink sold for immediate consumption.* Under the authority vested in the District Director of the Houston, Texas District by the Emergency Price Control Act of 1942, as amended, Executive Order 9250, Executive Order 9328, and General Order No. 50 issued by the Office of Price Administration Revised Restaurant Maximum Price Regulation No. 5-2 (Food and Drink Sold for Immediate Consumption), which is annexed hereto and made part hereof, is hereby issued.

AUTHORITY: § 1448.402 issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

SECTION 1. *Sales at higher than ceiling prices prohibited.* If you own or operate a restaurant, hotel, cafe, bar, delicatessen, soda fountain, boarding house, or any other eating or drinking place, you must not offer or sell any "food item" (including any beverage) or "meal" at a price higher than the ceiling price which you figure according to the directions in the next two sections (sections 2 and 3). You may, of course, sell at lower than ceiling prices.

SEC. 2. *How you figure ceiling prices for food items and meals you offered in the seven-day period from April 4, 1943, to April 10, 1943.* Your ceiling price for any food item or meal which you offered in the seven-day period beginning Sunday, April 4, 1943, and ending Saturday, April 10, 1943, is the highest price at which you offered the same food item or meal in that seven-day period.

SEC. 3. *How you figure ceiling prices for food items and meals you did not offer in the seven-day period.* You must figure your ceiling price for a food item or meal which you did not offer during the seven-day period as follows:

(a) If you offered the same food item or meal at any time during the four weeks from March 7 to April 3, 1943, inclusive, and if you have adequate records of the prices you then charged, take as your ceiling price the highest price at which you offered that food item or meal during that four-week period.

(b) If you did not offer the food item or meal during the five-week period from March 7 to April 10, 1943, inclusive, or if you do not have adequate records of prices charged prior to the seven-day period you must proceed as follows:

(1) Determine the cost of the raw food which you use in preparing the new food item or meal.

(2) From the food items and meals for which you have already established ceiling prices, choose a food item or meal which currently has a raw food cost equal to or less than the raw food cost of the new food item or meal.

(3) Take as your ceiling price for the new food item or meal your ceiling price for the food item or meal chosen for comparison. The food item or meal chosen for such comparison should be of the same class as the new food item or meal. If, however, you can find no food item or meal of the same class, you may use for comparison the most similar food item or meal of another class having a food cost equal to or less than your food cost for the new food item or meal. "Currently" as used herein means current on the day you figure your price.

(c) Once your ceiling price for a food item or meal has been fixed, it may not be changed except as provided in section 4.

SEC. 4. *How to figure your prices for seasonal items.* First, determine your ceiling price for a "seasonal food item" (defined in section 20 (e)) in accordance with the appropriate rule of sections 2 and 3 of this regulation. Thereafter, this price must be varied in proportion to any seasonal change in the raw food cost of the item: *Provided*, That in no event shall the price be higher than the ceiling price as originally determined. If in the past it has been your practice to maintain one price throughout the season, you need not vary your ceiling price according to this rule provided the ceiling price was based upon estimated average raw food cost of the item for the entire season.

SEC. 5. *No ceiling price for any food item or meal to be higher than the highest ceiling price for a food item or meal of the same class in the base period.* Under no circumstances are you permitted to charge a higher price for a food item or a meal than:

(a) Your highest ceiling price for food items or meals of the same class offered in the seven-day period; or

(b) The last price at which you sold the same food item or meal prior to April 4, 1943, provided you first file with the appropriate War Price and Rationing Board a menu or certified copy of a record showing the last price charged. The provisions of this section shall not apply to seasonal dessert specialities specified in section 21A, Class 24a.

Example 1. If your highest ceiling price for any soup offered by you during the seven-day period is 15 cents, you may not offer any other soup at a higher price than 15 cents.

Example 2. You served sirloin steak in March at $1.50. You did not serve sirloin steak during the base period. The highest price at which you can now serve sirloin steak of $1.50.

SEC. 6. *Substitution of food items in meals.* If you have already determined your ceiling price for a meal, you may substitute for any food item other than the entree (or main dish) in that meal any other food item of the same class without refiguring your ceiling price, provided the new food item costs you approximately as much and offers customers about the same value as the food item which it replaces. A meal becomes a "new" meal whenever the entree (or main dish) is changed or a new food item is substituted which costs you less or offers your customer lower value than the food item which it replaces, and you must therefore determine its ceiling price in accordance with the rules established by section 3.

SEC. 7. *Prohibition against manipulation of meal offerings.* You must not manipulate your meal offerings in a manner which will force your customers to pay more than they did during the seven-day period. Among other things you must not:

(a) Reduce the number of meals offered at prices equal to or below your "middle price" for meals of the same class without making a corresponding reduction in the number of meals offered at prices above that middle price. By "middle price" is meant the price most nearly at the mid-point of your price range for meals of the same class.

(b) Cease to offer at least as many different meals at or below the lowest price charged by you for meals of the same class on any day you select in the seven-day period, as you did on that day.

Example: If you select Friday, April 9, 1943, to determine the lowest price and the number of week-day meals offered at that price, and if on that day you offered six week-day dinners of which two were priced at 85¢, and one each at 90¢, $1.00, $1.10, $1.15, you must continue to offer two week-day dinners at 85¢. Note that Sunday meals and week-day meals are meals of a different class.

SEC. 8. *Evasion.* (a) You must not evade or avoid the provisions of this regulation by any scheme or device whatsoever. Some, but not all, practices which will be regarded as evasive are:

(1) Dropping food items from meals, deteriorating quality or reducing quantity without making sufficient reduction in price so as to maintain the raw food cost ratio at least equal to such ratio prior to the deterioration or reduction;

(2) Withdrawing the offer, or increasing the price, of any meal ticket, weekly rate, or other arrangement by which customers may buy food items or meals at less than the prices they must pay when purchasing by item or meal;

(3) Increasing any cover, minimum, bread-and-butter, service, corkage, entertainment, check-room, parking or other special charges, or making such charges when they were not in effect in the seven-day period except that a cover or minimum charge in effect during the base period may be increased in accordance with customary practice, where it was the practice to vary the charge in accordance with the type of entertainment offered and the increase does not cause the charge to go above the highest charge made during the last twelve-month period: *Provided, however,* If you had prior to April 4, 1943, customarily maintained established prices for admission, cover, entertainment or other services, but were prevented from maintaining or collecting such charges during the base period by reason of any order issued by any agency of the United States, state or local government, or because of a Federal, State or local court order restricting or limiting such charge, you may upon termination of such restriction continue to make such charges as you customarily had in effect prior to the base period: *Provided*, That such charges may not go above the highest charge made during the last twelve-month period prior to this date for such admission, cover, entertainment or other services; *And provided, further,* That no such charge for such services shall be instituted until written approval of such charge is obtained from the Director of the Houston District office upon presentation of satisfactory proof of the requirements hereunder.

(4) Requiring as a condition of sale of an item or meal the purchase of other items or meals when such condition was not in effect during the base period except that you may refuse to sell coffee unless a customer also purchases another food item;

(5) Reducing the selection of meals offered at table d'hote prices when the food items which you customarily offered in such meals are being offered at a la carte prices which when added together total more than the table d'hote price for the complete meal or give your customers less value for their money.

Example 1. If you customarily offered fish on table d'hote dinners at $1.10, you may not now offer fish a la carte and refuse to offer it on a table d'hote dinner priced at $1.10.

Example 2. If you offered table d'hote dinners during the base period at 85¢ to $1.25 which included dessert and beverage, you may now offer the same food item excluding dessert and beverage at 65¢ to $1.05, providing you also offer dessert and beverage to be served with the meals at prices which do not total more than 20¢.

(b) You will not be considered evading the provisions of this regulation, however, if you do any of the following things, even though you did not do any of these things during the seven-day period:

(1) You may limit your customers to one cup of coffee per meal.

(2) You may limit your customers to one pat of butter per meal.

(3) You may reduce the quantity, or eliminate altogether, condiments (such as catsup, chili sauce, etc.) which you may have customarily placed at the disposal of your customers and which now are, or may hereafter be, subject to any rationing order or rationing regulation of the Office of Price Administration.

(4) You may reduce the amount of sugar served with each cup of coffee or tea, or each bowl of cereal, fruit, or other similar food items with which sugar is served, to, but not less than, one teaspoonful except that less than that may be, given if required by your available supply.

You may not, however, make the curtailment authorized in the foregoing subparagraphs and furnish these curtailed items at an additional charge. For example, if during the seven-day period you furnished catsup, you may not now discontinue furnishing this item free, and at the same time offer to furnish it for an additional charge.

SEC. 9. *Rules for new proprietors.* (a) If you acquire another's business subsequent to the effective date of this regulation and continue the business in the same place, you are subject to the same ceiling prices and duties as the previous proprietor. Prior to acquiring another's business, however, you may apply to the Office of Price Administration for permission to price under paragraph (b) of this section. If such permission is granted it may be subject to such conditions as the Office of Price Administration deems necessary.

(b) If you open an eating or drinking place after the seven-day period, you must fix ceiling prices in line with the ceiling prices of the nearest eating or drinking place of the same type as yours. If the ceiling prices so fixed are too high and threaten to have an inflationary effect on the price of food or drink, the Office of Price Administration may issue an order requiring you to reduce your ceiling prices. You are subject to the record requirements of section 12 and the posting requirements of section 13 immediately upon the opening of your place.

SEC. 10. *Seasonal eating and drinking places.*—(a) *Exempt places.* If you are the proprietor of a seasonal eating or drinking place that:

(1) Was not open during the base period from April 4 to 10, 1943;

(2) Receives 90 percent or more of its total annual revenue during four calendar months of the year;

(3) Is located in an area for which no maximum rent regulation has been issued;

the prices for food items and meals offered by you in that place are exempt from control.

You must not regard this exemption as relieving you from the obligations imposed upon you by General Order 50, and you are still subject to the provisions of section 22 of this regulation. Pursuant to this latter section the administrator will by special order establish maximum prices for any seasonal eating or drinking place which takes undue advantage of the exemption.

(b) *Non-exempt places.* If you are the proprietor of a seasonal eating or drinking place which is not exempt under the terms of paragraph (a), you must figure your ceiling prices as follows:

(1) If the place was in operation during the base period from April 4 to April 10, 1943, use the rules set forth in sections 2, 3 and 4.

(2) If the place was not in operation during the base period from April 4 to April 10, 1943, but another place of the same type and within a reasonable distance was in operation during that period, fix your ceiling prices as a new proprietor under the terms of section 9 (b).

(3) If you cannot price under subparagraphs (1) or (2) above, you must apply for a price to the OPA District Office for the area in which your place is located. Your application must be filed ten days prior to the date you plan to commence operations and present the following information:

(i) Your name and address.

(ii) A brief description of your business and the manner of operation.

(iii) A list showing the prices you charged during the previous season as well as the prices you propose to charge during the coming season.

(iv) The date when you plan to commence operations.

(v) The names of two establishments similar to yours. You may charge the prices listed if they are not disapproved by the Office of Price Administration prior to the date specified for the commencement of operations. That office may at any time, after proper investigation and hearing, establish such maximum prices for your business as it deems proper.

SEC. 11. *Taxes.* If during the seven-day period you stated and collected the amount of any tax separately from the price you charged, you may continue to do so. You may also separately state and collect the amount of any new tax or of, any increase in the amount of a previous tax on the sale of food or drink or on the business of selling food or drink, if the tax is measured by the number or price of items or meals.

SEC. 12. *Records.* (a) You must observe all the record keeping and filing requirements of General Order No. 50 which are hereby made a part of this regulation by reference.

(b) *Customary records.* You must preserve all your existing records relating to your prices, costs and sales. You must also continue to maintain such records as you ordinarily kept. All such records shall be subject to examination by the Office of Price Administration.

(c) *Records of the seven-day period.* You must make available for examination by any person during ordinary business hours a copy of each menu used by you in the seven-day period. If you did not use menus, you must make available for such examination a list of the highest prices you charged in the seven-day period.

(d) *Filing by new proprietors.* The proprietor of an eating or drinking place which was not open during the seven-day period (including newly-opened places) shall file menus or a price list in accordance with paragraph (a), (of General Order 50) except that (1) the filing shall be for the seven-day period beginning with the first Sunday that place is open after April 4, 1943, and (2) the filing shall be made within three weeks of such first Sunday.

(e) *Future records.* Beginning with the effective date of the regulation, you must keep for examination by the Office of Price Administration, two each of the menus used by you each day. If you do not use menus you must prepare in duplicate, and preserve for such examination, a record of the prices charged by you each day, except that you need not record prices which are the same as, or less

than, prices you previously recorded for the same items or meals. Proprietors who operate a number of eating or drinking places in the same city which have customarily been subject to central control may keep the records required by this paragraph for those places at a central office or the principal place of business within the city.

SEC. 13. *Posting.* (a) Beginning September 4, 1943, each menu must have clearly and plainly written on or attached to it the following statement:

All prices listed are our ceiling prices or below. By the Office of Price Administration regulation, our ceilings are based on our highest prices from April 4, 1943, to April 10, 1943. Records of these prices are available for your inspection.

(b) If you made menus available to customers in the seven-day period, you shall continue to make them available.

(c) In addition to requirements in (a) and (b) you must post in a conspicuous place, preferably at or near the cash register, a sign or poster when furnished by the Office of Price Administration. You must enter after each meal or food item in this list your ceiling price for such meal or food item.

SEC. 14. *Operation of several places.* If you own or operate more than one eating or drinking place, you must do everything required by this regulation for each place separately.

SEC. 15. *Relation to other maximum price regulations.* The provisions of this regulation shall supersede other regulations, including the General Maximum Price Regulation, now or hereafter issued by the Office of Price Administration, insofar as they establish maximum prices for meals and food items sold by eating and drinking places. However, a price charged during the base period of this regulation shall not become a maximum price under this regulation to the extent that it exceeded the maximum price established by another regulation applicable at that time.

SEC. 16. *Geographical application.* This Revised Restaurant Maximum Price Regulation No. 5–2 applies to the following counties in the State of Texas: Angelina, Austin, Brazoria, Brazos, Burleson, Chambers, Colorado, Fayette, Fort Bend, Galveston, Grimes, Hardin, Harris, Houston, Jackson, Jasper, Jefferson, Lee, Leon, Liberty, Madison, Polk, Robertson, Sabine, Matagorda, San Augustine, San Jacinto, Shelby, Milam, Trinity, Tyler, Orange, Montgomery, Nacogdoches, Walker, Waller, Newton, Washington, Wharton, and all of Lavaca County except the corporate limits of the City of Yoakum.

(2) Hospitals, except for food items and meals served to persons other than the patients when a separate charge is made for such food items and meals.

(4) Eating and drinking places operated by a school, college, university or other educational institution, primarily for the convenience or accommodation of students and faculty, and not for profit as a commercial or business enterprise or undertaking.

(5) Bona fide private clubs insofar as such clubs sell only to members and bona fide guests of members and (whose sales of food items or meals are on a non-profit or cost basis or as near thereto as reasonable accounting methods will permit and where no part of the net earnings of said private club inures to the benefit of any private shareholder or individual). Whenever such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking place within the meaning of this regulation. No club shall be considered to be exempt as a private club, within the meaning of this subparagraph, unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and it otherwise is operated as a private club. No club organized after the effective date of this regulation shall be exempt unless and until it has filed a request for exemption with the Houston, Texas District Office of the Office of Price Administration, furnishing such information as may be required, and has received communication from such office authorizing exemption as a private club.

SEC. 19. *Adjustments.* (a) The Office of Price Administration may adjust the maximum prices for any eating establishment under the following circumstances:

(1) The establishment is operating under such hardship as to cause a substantial threat to the continuance of its operation.

(2) It is determined with reasonable certainty that such discontinuance will result in serious inconvenience to consumers in that they will either be deprived of all restaurant service or will have to turn to other establishments that present substantial difficulties as to distance, hours of service, selection of meals or food items offered, capacity, or transportation.

(3) By reason of such discontinuance, the same meals or food items will cost the customers of the eating establishment as much or more than the proposed adjusted prices.

(b) If you are the proprietor of an eating establishment which satisfies the requirements specified above, you may apply for an adjustment of your maximum prices by submitting to your OPA District Office a statement setting forth:

(1) Your name and address.

(2) A description of your eating establishment including: type of service rendered (such as cafeteria, table service, etc.), classes of meals offered (such as breakfast, lunch and dinner), number of persons served per day during the most recent thirty-day period, and such other information that may be useful in classifying your establishment. In counting the number of persons served, anyone who was served more than once is to be counted separately for each occasion he was served.

(3) The reasons why your customers will be seriously inconvenienced if you discontinue operations.

(4) The names and addresses of the three nearest eating places of the same type as yours.

(5) A list showing your present maximum prices and your requested adjusted prices.

(6) A profit and loss statement for your restaurant business for the most recent three-month accounting period, and a copy of your last income tax return if one was filed separately for your restaurant business.

PART 1448—EATING AND DRINKING ESTABLISHMENTS

[Rev. Restaurant MPR 5–7]

FOOD AND DRINK SOLD FOR IMMEDIATE CONSUMPTION IN OKLAHOMA CITY DISTRICT

Restaurant Maximum Price Regulation 5–7 is redesignated as Revised Restaurant Maximum Price Regulation 5–7 and is revised and amended to read as follows:

In the judgment of the District Director of the Oklahoma City District, the prices of food and beverages sold for immediate consumption in the counties of Alfalfa, Atoka, Beaver, Beckham, Blaine, Bryan, Caddo, Canadian, Carter, Choctaw, Cimarron, Cleveland, Coal, Comanche, Cotton, Custer, Dewey, Ellis, Garfield, Garvin, Grady, Grant, Grear, Harmon, Harper, Jackson, Jefferson, Johnston, Kay, Kingfisher, Kiowa, Lincoln, Logan, Love, McClain, McCurtain, Major, Marshall, Murray, Noble, Oklahoma, Payne, Pontotoc, Pottawatomie, Pushmataha, Roger Mills, Seminole, Stephens, Texas, Tillman, Washita, Woods, Woodward, have risen and are threatening further to rise to an extent and in a manner inconsistent with the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328.

In the judgment of the said District Director, the maximum prices established by this regulation are generally fair and equitable and are necessary to check inflation and to effectuate the purposes of the act. So far as practicable, said District Director gave due consideration to prices prevailing between October 1 and 15, 1941, and consulted with the representatives of those affected by this regulation.

A statement of the considerations involved in the issuance of this regulation is issued simultaneously herewith.*

Therefore, in accordance with the direction of the President to take action which will stabilize prices affecting the cost of living, and under the authority therewith delegated by the President pursuant to the Act of Congress approved October 2, 1942, entitled "An Act to Aid in Stabilizing the Cost of Living", 77th Congress, Second Session, and under the authority of Executive Order No. 9250, Executive Order No. 9328, and the Emergency Price Control Act of 1942, the District Director of the Oklahoma City District hereby issues this Revised Restaurant Maximum Price Regulation No. 5–7, establishing as maximum prices for food and drink sold for immediate consumption in the counties mentioned above the prices prevailing therefor during the seven-day period beginning April 4, 1943, and ending April 10, 1943.

§ 1448.407 *Maximum prices for food and drink sold for immediate consumption.* Under the authority vested in the District Director of the Oklahoma City District by the Emergency Price Control Act of 1942, as amended, Executive Order 9250, Executive Order 9328, and General Order No. 50 issued by the Office of Price Administration, and Order of Delegation of Authority No. 48 issued by the Regional Administrator of Region V, Revised Restaurant Maximum Price Regulation No. 5–7 (Food and Drink Sold for Immediate Consumption) which is annexed hereto and made part hereof, is issued.

AUTHORITY: § 1448.407 issued under Pub. Law 151, 78th Cong., 56 Stat. 23, 765; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

*Copies may be obtained from the Office of Price Administration.

SECTION 1. *Sales at higher than ceiling prices prohibited.* If you own or operate a restaurant, hotel, cafe, bar, delicatessen, soda fountain, boarding house, or any other eating or drinking place, you must not offer or sell any "food item" (including any beverage) or "meal" at a price higher than the ceiling price which you figure according to the directions in the next two sections (sections 2 and 3). You may, of course, sell at lower than ceiling prices.

SEC. 2. *How you figure ceiling prices for food items and meals you offered in the seven-day period from April 4, 1943, to April 10, 1943.* Your ceiling price for any food item or meal which you offered in the seven-day period beginning Sunday, April 4, 1943, and ending Saturday, April 10, 1943, is the highest price at which you offered the same food item or meal in that seven-day period.

SEC. 3. *How you figure ceiling prices for food items and meals you did not offer in the seven-day period.* You must figure your ceiling price for a food item or meal which you did not offer during the seven-day period as follows:

(a) If you offered the same food item or meal at any time during the four weeks from March 7 to April 3, 1943, inclusive, and if you have adequate records of the prices you then charged, take as your ceiling price the highest price at which you offered that food item or meal during that four-week period.

(b) If you did not offer the food item or meal during the five-week period from March 7 to April 10, 1943, inclusive, or if you do not have adequate records of prices charged prior to the seven-day period you must proceed as follows:

(1) Determine the cost of the raw food which you use in preparing the new food item or meal.

(2) From the food items and meals for which you have already established ceiling prices, choose a food item or meal which currently has a raw food cost equal to or less than the raw food cost of the new food item or meal.

(3) Take as your ceiling price for the new food item or meal your ceiling price for the food item or meal chosen for comparison. The food item or meal chosen for such comparison should be of the same class as the new food item or meal. If, however, you can find no food item or meal of the same class, you may use for comparison the most similar food item or meal of another class having a food cost equal to or less than your food cost for the new food item or meal. "Currently" as used herein means current on the day you figure your price.

(c) Once your ceiling price for a food item or meal has been fixed, it may not be changed except as provided in section 4.

SEC. 4. *How you figure your prices for seasonal items.* First, determine your ceiling price for a "seasonal food item" (defined in section 20 (e)) in accordance with the appropriate rule of sections 2 and 3 of this regulation. Thereafter, this price must be varied in proportion to any seasonal charge in the raw food cost of the item: *Provided*, That in no event shall the price be higher than the ceiling price as originally determined. If in the past it has been your practice to maintain one price throughout the season, you need not vary your ceiling price according to this rule provided the ceiling price is based upon estimated average raw food cost of the item for the entire season.

SEC. 5. *No ceiling price for any food item or meal to be higher than the highest ceiling price for a food item or meal of the same class in the base period.* Under no circumstances are you permitted to charge a higher price for a food item or meal than:

(a) Your highest ceiling price for food items or meals of the same class offered in the seven-day period; or

(b) The last price at which you sold the same item or meal prior to April 4, 1943, provided you first file with the appropriate war price and rationing board a menu or certified copy of a record showing the last price charged.

The provisions of this section shall not apply to seasonal dessert specialties specified in section 20 A Class 24a.

Example 1. If your highest ceiling price for any soup offered by you during the seven-day period is 15 cents, you may not offer any other soup at a higher price than 15 cents.

Example 2. You last served sirloin steak in March at $1.50. You did not serve sirloin steak during the base period. The highest price at which you can now serve sirloin steak is $1.50.

SEC. 6. *Substitution of food items in meals.* If you have already determined your ceiling prices for a meal you may substitute for any food item other than the entree (or main dish) in that meal any other food item of the same class without refiguring your ceiling price: *Provided*, The new food item costs you approximately as much and offers customers about the same value as the food item which it replaces. A meal becomes a "new" meal whenever the entree (or main dish) is changed or a new food item is substituted which costs you less or offers your customers lower value than the food item which it replaces, and you must therefore determine its ceiling price in accordance with the rules established by section 3.

SEC. 7. *Prohibition against manipulation of meal offerings.* You must not manipulate your meal offerings in a manner which will force your customers to pay more than they did during the seven-day period. Among other things you must not

(a) Reduce the number of meals offered at prices equal to or below your "middle price" for meals of the same class without making a corresponding reduction in the number of meals offered at prices above that middle price. By "middle price" is meant the price most nearly at the mid-point of your price range for meals of the same class.

(b) Cease to offer at least as many different meals at or below the lowest price charged by you for meals of the same class on any day you select in the seven-day period, as you did on that day.

Example. If you select Friday, April 9, 1943, to determine the lowest price and the number of week-day meals offered at that price, and if on that day you offered six week-day dinners of which two were priced at 85¢, and one each at 90¢, $1.00, $1.15, you must continue to offer two week-day dinners at 85¢. Note that Sunday meals and week-day meals are meals of a different class.

SEC. 8. *Evasion.* (a) You must not evade the provisions of this regulation by any scheme or device whatsoever. Some, but not all, practices which will be regarded as evasive are:

(1) Dropping food items from meals, deteriorating quality or reducing quantity without making sufficient reduction in price so as to maintain the raw food cost ratio at least equal to such ratio prior to the deterioration or reduction;

(2) Withdrawing the offer, or increasing the price, of any meal ticket, weekly rate, or other arrangement by which customers may buy food items or meals at less than the prices they must pay when purchasing by item or meal;

(3) Increasing any cover, minimum, bread-and-butter, service, corkage, entertainment, check-room, parking or other special charges, or making such charges when they were not in effect in the seven-day period except that a cover or minimum charge in effect during the base period may be increased in accordance with customary practice, where it was the practice to vary the charge in accordance with the type of entertainment offered and the increase does not cause the charge to go above the highest charge made during the last twelve-month period;

(4) Requiring as a condition of sale of an item or meal the purchase of other items or meals when such condition was not in effect during the base period;

(5) Reducing the selection of meals offered at table d'hote prices when the food items which you customarily offered in such meals are being offered at a la carte prices which when added together total more than the table d'hote price for the complete meal or give your customers less value for their money.

Example 1. If you customarily offered fish on table d'hote dinners at $1.10, you may not now offer fish a la carte and refuse to offer it on table d'hote dinner priced at $1.10.

Example 2. If you offered table d'hote dinners during the base period at 85¢ to $1.25 which included dessert and beverage, you may now offer the same food item excluding dessert and beverage at 65¢ to $1.05, providing you also offer dessert and beverage to be served with the meals at prices which do not total more than 20¢.

(b) You will not be considered evading the provisions of this regulation, however, if you do any of the following things, even though you did not do any of these things during the seven-day period:

(1) You may limit your customers to one cup of coffee per meal.

(2) You may limit your customers to one pat of butter per meal.

(3) You may reduce the quantity, or eliminate altogether, condiments (such as catsup, chili sauce, etc.), which you may have customarily placed at the disposal of your customers and which now are, or may hereafter be, subject to any rationing order or rationing regulation of the Office of Price Administration.

(4) You may reduce the amount of sugar served with each cup of coffee or tea, or each bowl of cereal, fruit, or other similar food items with which sugar is served, to, but not less than, one teaspoonful, except that less may be given if required by your available supply.

You may not, however, make the curtailment authorized in the foregoing subparagraphs and furnish these curtailed items at an additional charge. For example, if during the seven-day period you furnished catsup, you may not now discontinue furnishing this item free, and at the same time offer to furnish it for an additional charge.

SEC. 9. *Rules for new proprietors.* (a) If you acquire another's business subsequent to the effective date of this regulation and continue the business in the same place, you are subject to the same ceiling prices and duties as the previous proprietor. Prior to acquiring another's business, however, you may apply to the Office of Price Administration for permission to price under paragraph (b) of this section. If such permission is granted it may be subject to such conditions as the Office of Price Administration deems necessary.

(b) If you open an eating or drinking place after the seven-day period, you must fix ceiling prices in line with the ceiling prices of the nearest eating or drinking place of the same type as yours. If the ceiling prices so fixed are too high and threaten to have an inflationary effect on the price of food or drink, the Office of Price Administration may issue an order requiring you to reduce your ceiling prices. You are subject to the record requirements of section 11 and the posting requirements of section 12 immediately upon the opening of your place.

SEC. 10. *Taxes.* If in the seven-day period you stated and collected the amount of any tax separately from the price you charged, you may continue to do so. You may also separately state and collect the amount of any new tax or of any increase in the amount of a previous tax on the sale of food or drink or on the business of selling food or drink, if the tax is measured by the number or price of items or meals.

SEC. 11. *Records.* (a) You must observe all of the record-keeping and filing requirements of General Order No. 50 which are hereby made a part of this regulation by reference.

(b) *Customary records.* You must preserve all your existing records relating to your prices, costs and sales. You must also continue to maintain such records as you ordinarily kept. All such records shall be subject to examination by the Office of Price Administration.

(c) *Records of the seven-day period.* You must make available for examination by any person during ordinary business hours a copy of each menu used by you in the seven-day period. If you did not use menus, you must make available for such examination a list of the highest prices you charged in the seven-day period.

(d) *Filing by new proprietors.* The proprietor of an eating or drinking place which was not open during the seven-day period (including newly-opened places) shall file menus or a price list in accordance with paragraph (a) of General Order 50 (except that (1) the filing shall be for the seven-day period beginning with the first Sunday that place is open after April 4, 1943, and (2) the filing shall be made within three weeks of such first Sunday.

(e) *Future records.* Beginning with the effective date of this regulation, you must keep, for examination by the Office of Price Administration, two each of the menus used by you each day. If you do not use menus you must prepare in duplicate, and preserve for such examination, a record of the prices charged by you each day, except that you need not record prices which are the same as, or less than, prices you previously recorded for the same items or meals. Proprietors who operate a number of eating or drinking places in the same city which have customarily been subject to central control may keep the records required by this paragraph for those places at a central office or the principal place of business within the city.

SEC. 12. *Posting.* (a) Beginning November 1, 1943, each menu must have clearly written on or attached to it the following statement:

All prices listed are our ceiling prices or below. By Office of Price Administration regulation, our ceiling prices are based on our highest prices from April 4, 1943, to April 10, 1943. Records of these prices are available for your inspection.

(b) If you made menus available in the seven-day period, you shall continue to make them available.

(c) In addition to the requirements in (a) and (b), you must post in a conspicuous place, preferably at or near the cash register, a sign or poster when furnished by the Office of Price Administration. You must enter after each meal or food item on this list your ceiling price for such meal or food item.

SEC. 13. *Operation of several places.* If you own or operate more than one eating or drinking place, you must do everything required by this regulation for each place separately.

SEC. 14. *Relation to other maximum price regulations.* The provisions of this regulation shall not supersede other regulations, including the General Maximum Price Regulation, now or hereafter issued by the Office of Price Administration, nor Oklahoma City District Order No. G–1 and the amendments thereto, under General Order No. 50, insofar as they establish maximum prices for meals and food items sold by eating and drinking places.

SEC. 15. *Geographical application.* This Revised Restaurant Maximum Price Regulation No. 5–7 applies to the counties of Alfalfa, Atoka, Beaver, Beckham, Blaine, Bryan, Caddo, Canadian, Carter, Choctaw, Cimarron, Cleveland, Coal, Comanche, Cotton, Custer, Dewey, Ellis, Garfield, Garvin, Grady, Grant, Greer, Harmon, Harper, Jackson, Jefferson, Johnston, Kay, Kingfisher, Kiowa, Lincoln, Logan, Love, McClain, McCurtain, Major, Marshall, Murray, Noble, Oklahoma, Payne, Pontotoc, Pottawatamie, Pushmataha, Roger Mills, Seminole, Stephens, Texas, Tilman, Washita, Woods and Woodward in the State of Oklahoma.

SEC. 16. *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 17. *Exempt sales.* Sales by the following eating or drinking places are specifically exempt from the provisions of this regulation:

(a) Eating and drinking places operated by or in connection with church, Sunday school or other religious organizations.

(b) Hospitals, except for food items and meals served to persons other than the patients, when a separate charge is made for such food items and meals.

(c) Eating and drinking places located on board common carriers (when operated as such), including railroad dining cars, club, bar and buffet cars, and peddlers aboard railroad cars traveling from station to station.

(d) Eating and drinking places operated by any school, college or university which is a non-profit institution (that is, where no part of the net earnings inures to the benefit of any private shareholder or individual), which sells food items or

meals on a non-profit or cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to students, faculty members and employees of such institution. For purposes of this paragraph, persons receiving instruction on the premises of such institution by arrangement with the War Department or Department of the Navy or any other part of the Armed Forces of the United States shall be considered students.

(e) Eating cooperatives formed by officers in the Armed Forces (as, for example, officers' mess) operated as a non-profit cooperative (where no part of the net earnings inures to the benefit of any individual), which sell food items or meals on a cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to persons who are members of the cooperative.

(f) Bona fide private clubs which file with the appropriate OPA District Office a statement setting forth that:

(1) The club is a non-profit organization and is recognized as such by the Bureau of Internal Revenue;

(2) It sells food items and meals only to members and bona fide guests of members;

(3) Its members pay dues of more than a merely nominal amount and are elected to membership by a governing board, membership committee or other body, and

(4) It is otherwise operated as a club.

Five days after filing such information, or earlier if so notified by the District Director, a private club may consider itself exempt unless and until it is otherwise notified by the District Director.

SEC. 18. *Adjustments.* (a) The Office of Price Administration may adjust the maximum prices for any eating establishment under the following circumstances:

(1) The establishment is operating under such hardship as to cause a substantial threat to the continuance of its operation.

(2) It is determined with reasonable certainty that such discontinuance will result in serious inconvenience to consumers in that they will either be deprived of all restaurant service or will have to turn to other establishments that present substantial difficulties as to distance, hours of service, selection of meals or food items offered, capacity, or transportation.

(3) By reason of such discontinuance, the same meals or food items will cost the customers of the eating establishment as much or more than the proposed adjusted prices.

(1) Your name and address.

(3) The reasons why your customers will be seriously inconvenienced if you discontinue operations.

(4) The names and addresses of the three nearest eating places of the same type as yours.

(5) A list showing your present maximum prices and your requested, adjusted prices.

(6) A profit and loss statement for your restaurant business for the most recent three-month accounting period, and a copy of your last income tax return if one was filed separately for your restaurant business.

(7) Any other information requested by the Director of the Oklahoma City District Office.

(8) Application for adjustment under this section shall be acted upon by the Director of the Oklahoma City District Office.

PART 1448—EATING AND DRINKING ESTABLISHMENTS

[Rev. Restaurant MPR 5-5]

FOOD AND DRINK SOLD FOR IMMEDIATE CONSUMPTION IN LUBBOCK, TEX., DISTRICT

In the judgment of the Lubbock District Director, the prices of food and beverages sold for immediate consumption in the Lubbock, Texas, District, composed of the Counties of Andrews, Armstrong, Bailey, Borden, Brewster, Briscoe, Carson, Castro, Childress, Cochran, Collingsworth, Cottle, Crane, Crosby, Culberson, Dallam, Dawson, Deaf Smith, Dickens, Donley, Ector, El Paso, Floyd, Gaines, Garza, Glasscock, Gray, Hale, Hall, Hansford, Hartley, Hemphill, Hockley, Howard, Hudspeth, Hutchinson, Irion, Jeff Davis, Kent, King, Lamb, Lipscomb, Loving, Lubbock, Lynn, Martin, Midland, Mitchell, Moore, Motley, Ochiltree, Oldham, Parmer, Pecos, Potter, Presidio, Randall, Reagan, Reeves, Roberts, Scurry, Sherman, Sterling, Stonewall, Swisher, Terry, Upton, Ward, Wheeler, Winkler, and Yoakum in the State of Texas, have risen and are threatening further to rise to an extent and in a manner inconsistent with the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328.

In the judgment of the Lubbock District Director, the maximum prices established by this regulation are generally fair and equitable and are necessary to check inflation and to effectuate the purposes of the Act. So far as practicable, the Lubbock District Director gave due consideration to prices prevailing between October 1 and 15, 1941, and consulted with the representatives of those affected by this regulation.

A statement of the considerations involved in the issuance of this regulation is issued simultaneously herewith.*

Therefore, in accordance with the direction of the President to take action which will stabilize prices affecting the cost of living, and under the authority therewith delegated by the President pursuant to the Act of Congress approved October 2, 1942, entitled "An Act to Aid in Stabilizing the Cost of Living" 77th Congress, Second Session, and under the authority of Executive Order 9250, Executive Order 9328, and the Emergency Price Control Act of 1942, the Lubbock District Director hereby issues this Revised Restaurant Maximum Price Regulation No. 5-5, establishing as maximum prices for food and drink sold for immediate consumption in the Lubbock, Texas, District, composed of the above named counties, the prices prevailing therefor during the seven-day period beginning April 4, 1943, and ending April 10, 1943.

§ 1448.405 *Maximum prices for food and drink sold for immediate consumption.* Under the authority vested in the Lubbock District Director by the Emergency Price Control Act of 1942, as amended, Executive Order No. 9250, Executive Order No. 9328, General Order No. 50, and Order of Delegation of Authority No. 48, issued by the Regional Administrator of Region V, Revised Restaurant Maximum Price Regulation No. 5-5 (Food and Drink Sold for Immediate Consumption) which is annexed hereto and made part hereof, is issued.

AUTHORITY: § 1448.405 issued under 56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. No. 9250, 7 F.R. 7871, and E.O. No. 9328, 8 F.R. 4681.

SECTION 1. *Sales at higher than ceiling prices prohibited.* If you own or operate a restaurant, hotel, cafe, bar, delicatessen, soda fountain, boarding house, or any other eating or drinking place, you must not offer or sell any "food item" (including any beverage) or "meal" at a price higher than the ceiling price which you figure according to the directions in the next two sections (sections 2 and 3). You may, of course, sell at lower than ceiling prices.

SEC. 2. *How you figure ceiling prices for food items and meals you offered in the seven-day period from April 4, 1943, to April 10, 1943.* Your ceiling price for any food item or meal which you offered in the seven-day period beginning Sunday, April 4, 1943, and ending Saturday, April 10, 1943, is the highest price at which you offered the same food item or meal in that seven-day period.

SEC. 3. *How you figure your ceiling prices for food items and meals you did not offer in the seven-day period.* You must figure your ceiling price for a food item or meal which you did not offer during the seven-day period as follows:

(a) If you offered the same food item or meal at any time during the four weeks from March 7 to April 3, 1943, inclusive, and if you have adequate records of the prices you then charged, take as your ceiling price the highest price at which you offered that food item or meal during that four-week period.

(b) If you did not offer the food item or meal during the five-week period from March 7 to April 10, 1943, inclusive, or if you do not have adequate records of prices charged prior to the seven-day period, you must proceed as follows:

(1) Determine the cost of the raw food which you use in preparing the new food item or meal.

(2) From the food items and meals for which you have already established ceiling prices, choose a food item or meal which currently has a raw food cost equal to or less than the raw food cost of the new food item or meal.

(3) Take as your ceiling price for the new food item or meal your ceiling price for the food item or meal chosen for comparison. The food item or meal chosen for such comparison should be of the same class as the new food item or meal. If, however, you can find no food item or meal of the same class as the new food item or meal, you may use for comparison the most similar food item or meal of another class having a food cost equal to or less than your food cost for the new food item or meal. "Currently" as used herein, means current on the day you figure your price.

(c) Once your ceiling price for a food item or meal has been fixed, it may not

be changed except as provided in section 4.

SEC. 4. *How you figure your prices for seasonal items.* First, determine your ceiling price for a "seasonal food item" (defined in section 20 (e)) in accordance with the appropriate rule of sections 2 and 3 of this regulation. Thereafter, this price must be varied in proportion to any seasonal change in the raw food cost of the item: *Provided*, That in no event shall the price be higher than the ceiling price as originally determined. If in the past it has been your practice to maintain one price throughout the season, you need not vary your ceiling price according to this rule provided the ceiling price was based upon estimated average raw food cost of the item for the entire season.

SEC. 5. *No ceiling price for any food item or meal to be higher than the highest ceiling price for a food item or meal of the same class in the base period.* Under no circumstances are you permitted to charge a higher price for a food item or a meal than:

(a) Your highest ceiling price for food items or meals of the same class offered in the seven-day period; or

(b) The last price at which you sold the same food item or meal prior to April 4, 1943, provided you first file with the appropriate War Price and Rationing Board a menu or certified copy of a record showing the last price charged.

The provisions of this section shall not apply to seasonal dessert specialties specified in section 21A, class 25a.

Example 1. If your highest price for any soup offered by you during the seven-day period is 15 cents, you may not offer any other soup at a higher price than 15 cents.

Example 2. You served sirloin steak in March at $1.50. You did not serve sirloin steak during the base period. The highest price at which you can now serve sirloin steak is $1.50.

SEC. 6. *Substitution of food items in meals.* If you have already determined your ceiling price for a meal you may substitute for any food item other than the entree (or main dish) in that meal any other food item of the same class without refiguring your ceiling price, provided the new food item costs you approximately as much and offers customers about the same value as the food item which it replaces. A meal becomes a "new" meal whenever the entree (or main dish) is changed or a new food item is substituted which costs you less or offers your customers lower value than the food item which it replaces, and you must therefore determine its ceiling price in accordance with the rules established by section 3.

SEC. 7. *Prohibition against manipulation of meal offerings.* You must not manipulate your meal offerings in a manner which will force your customers to pay more than they did during the seven-day period. Among other things, you must not

(a) Reduce the number of meals offered at prices equal to or below your "middle price" for meals of the same class without making a corresponding reduction in the number of meals offered at prices above that middle price. By "middle price" is meant the price most nearly at the mid-point of your price range for meals of the same class.

(b) Cease to offer at least as many different meals at or below the lowest price charged by you for meals of the same class on any day you select in the seven-day period, as you did on that day.

Example. If you select Friday, April 9, 1943, to determine the lowest price and the number of week-day meals offered at that price, and if on that day you offered six week-day dinners, of which two were priced at 85¢, and one each at 90¢, $1.00, $1.10, $1.15, you must continue to offer two week-day dinners at 85¢. Note that Sunday meals and week-day meals are meals of a different class.

SEC. 8. *Evasion.* (a) You must not evade or avoid the provisions of this regulation by any scheme or device whatsoever. Some, but not all, practices which will be regarded as evasive are:

(1) Dropping food items from meals, deteriorating quality or reducing quantity without making sufficient reduction in price so as to maintain the raw food cost ratio at least equal to such ratio prior to the deterioration or reduction;

(2) Withdrawing the offer, or increasing the price, of any meal ticket, weekly rate, or other arrangement by which customers may buy food items or meals at less than the prices they must pay when purchasing by item or meal;

(3) Increasing any cover, minimum, bread-and-butter, service, corkage, entertainment, check-room, parking or other special charges, or making such charges when they were not in effect during the base period except that a cover or minimum charge in effect during the base period may be increased in accordance with customary practice, where it was the practice to vary the charge in accordance with the type of entertainment offered and the increase does not cause the charge to go above the highest charge made during the last twelve month period;

(4) Requiring as a condition of sale of an item or meal the purchase of other items or meals when such condition was not in effect during the base period, except that you may refuse to sell coffee unless a customer also purchases another food item;

(5) Reducing the selection of meals offered at table d'hote prices when the food items which you customarily offered in such meals are being offered at a la carte prices which when added together total more than the table d'hote price for the complete meal or give your customers less value for their money.

Example 1. If you customarily offered fish on table d'hote dinners at $1.10, you may not now offer fish a la carte and refuse to offer it on a table d'hote dinner priced at $1.10.

Example 2. If you offered table d'hote dinners during the base period at 85¢ to $1.25 which included dessert and beverages, you may now offer the same food item excluding dessert and beverage at 65¢ to $1.05, providing you also offer dessert and beverage to be served with the meals at prices which do not total more than 20¢.

(b) You will not be considered evading the provisions of this regulation, however, if you do any of the following things, even though you did not do any of these things during the seven-day period:

(1) You may limit your customers to one cup of coffee per meal.

(2) You may limit your customers to one pat of butter per meal.

(3) You may reduce the quantity, or eliminate altogether, condiments (such as catchup, chili sauce, etc.) which you may have customarily placed at the disposal of your customers and which now are, or may hereafter be, subject to any rationing regulation or rationing order of the Office of Price Administration.

(4) You may reduce the amount of sugar served with each cup of coffee or tea, or each bowl of cereal, fruit, or other similar food items with which sugar is served, to, but not less, than one teaspoonful, except that less may be given if required by your available supply.

You may not, however, make the curtailment authorized in the foregoing subparagraphs and furnish these curtailed items at an additional charge. For example, if during the seven-day period you furnished catchup, you may not now discontinue furnishing this item free, and at the same time offer to furnish it for an additional charge.

SEC. 9. *Rules for new proprietors.* (a) If you acquire another's business subsequent to the effective date of this regulation and continue the business in the same place, you are subject to the same ceiling prices and duties as the previous proprietor. Prior to acquiring another's business, however, you may apply to the Office of Price Administration for permission to price under paragraph (b) of this section. If such permission is granted, it may be subject to such conditions as the Office of Price Administration deems necessary.

(b) If you open an eating or drinking place after the seven-day period, you must fix ceiling prices in line with the ceiling prices of the nearest eating or drinking place of the same type as yours. If the ceiling prices are so fixed as to be too high and threaten to have an inflationary effect on the price of food or drink, the Office of Price Administration may issue an order requiring you to reduce your ceiling prices. You are subject to the record requirements of section 12 and the posting requirements of section 13 immediately upon the opening of your place.

SEC. 10. *Seasonal eating and drinking places*—(a) *Exempt places.* If you are the proprietor of a seasonal eating or drinking place that

(1) Was not open during the base period from April 4 to 10, 1943;

(2) Receives 90 per cent or more of its total annual revenue during four calendar months of the year;

(3) Is located in an area for which no maximum rent regulation has been issued;

the prices for food items and meals offered by you in that place are exempt from control.

You must not regard this exemption as relieving you from the obligations imposed upon you by General Order 50, and you are still subject to the provisions of section 22 of this regulation.

Pursuant to this latter section, the Lubbock District Director will, by special order, establish maximum prices for any seasonal eating or drinking place which takes undue advantage of the exemption.

(b) *Non-exempt places.* If you are the proprietor of a seasonal eating or drinking place which is not exempt under the terms of paragraph (a), you must figure your ceiling prices as follows:

(1) If the place was in operation during the base period from April 4 to April 10, 1943, use the rules set forth in sections 2, 3, and 4.

(2) If the place was not in operation during the base period from April 4 to April 10, 1943, but another place of the same type and within a reasonable distance was in operation during that period, fix your ceiling prices as a new proprietor under the terms of section 9 (b).

(3) If you cannot price under subparagraph (1) or (2) above, you must apply for a price to the OPA District Office for the area in which your place is located. Your application must be filed ten days prior to the date you plan to commence operations and present the following information:

(i) Your name and address.

(ii) A brief description of your business and the manner of operation.

(iii) A list showing the prices you charged during the previous season as well as the prices you propose to charge during the coming season.

(iv) The date when you plan to commence operations.

(v) The names of two establishments similar to yours.

You may charge the prices listed if they are not disapproved by the Office of Price Administration prior to the date specified for the commencement of operations. That Office may, at any time, after proper investigation and hearing, establish such maximum prices for your business as it deems proper.

SEC. 11. *Taxes.* If in the seven-day period you stated and collected the amount of any tax separately from the price you charged, you may continue to do so. You may also separately state and collect the amount of any new tax or of any increase in the amount of a previous tax on the sale of food or drink or on the business of selling food or drink, if the tax is measured by the number of price of items or meals.

SEC. 12. *Records.* (a) You must observe all the record keeping and filing requirements of General Order No. 50 which are hereby made a part of this regulation by reference.

(b) *Customary records.* You must preserve all your existing records relating to your prices, costs and sales. You must also continue to maintain such records as you ordinarily kept. All such records shall be subject to examination by the Office of Price Administration.

(c) *Records of the seven-day period.* You must make available for examination by any person during ordinary business hours a copy of each menu used by you in the seven-day period. If you did not use menus, you must make available for such examination a list of the highest prices you charged in the seven-day period.

(d) *Filing by new proprietors.* The proprietor of an eating or drinking place which was not open during the seven-day period (including newly-opened places) shall file menus or a price list in accordance with paragraph (a) of General Order 50 except that (1) the filing shall be for the seven-day period beginning with the first Sunday that place is open after April 4, 1943, and (2) the filing shall be made within three weeks of such first Sunday.

(e) *Future records.* Beginning with the effective date of this regulation you must keep, for examination by the Office of Price Administration, two each of the menus used by you each day. If you do not use menus you must prepare in duplicate, and preserve for such examination, a record of the prices charged by you each day, except that you need not record prices which are the same as, or less than, prices which you previously recorded for the same item or meals. Proprietors who operate a number of eating or drinking places in the same city which have customarily been subject to central control may keep the records required by this paragraph for those places at a central office or the principal place of business within the city.

SEC. 13. *Posting.* (a) Beginning September 22, 1943, each menu must have clearly written on or attached to it the following statement:

All prices listed are our ceiling prices or below. By Office of Price Administration regulation, our ceiling prices are based on our highest prices from April 4, 1943, to April 10, 1943. Records of these prices are available for your inspection.

(b) If you made menus available in the seven-day period, you shall continue to make them available.

(c) In addition to the requirements in (a) and (b), you must post in a conspicuous place, preferably at or near the cash register, a sign or poster when furnished by the Office of Price Administration. You must enter after each meal or food item on this list your ceiling price for such meal or food item.

SEC. 14. *Operation of several places.* If you own or operate more than one eating or drinking place, you must do everything required by this regulation for each place separately.

SEC. 15. *Relation to other maximum price regulations.* The provisions of this regulation shall supersede other regulations, including the General Maximum Price Regulation, now or hereafter issued by the Office of Price Administration, insofar as they establish maximum prices for meals and food items sold by eating and drinking places. However, a price charged during the base period of this regulation shall not become a maximum price under this regulation to the extent that it exceeded the maximum price established by another regulation applicable at that time.

SEC. 16. *Geographical application.* This Revised Restaurant Maximum Price Regulation No. 5–5 applies to the Lubbock, Texas, District composed of the Counties of Andrews, Armstrong, Bailey, Borden, Brewster, Briscoe, Carson, Castro, Childress, Cochran, Collingsworth, Cottle, Crane, Crosby, Culberson, Dallam, Dawson, Deaf Smith, Dickens, Donley, Ector, El Paso, Floyd, Gaines, Garza, Glasscock, Gray, Hale, Hall, Hansford, Hartley, Hemphill, Hockley, Howard, Hudspeth, Hutchinson, Irion, Jeff Davis, Kent, King, Lamb, Lipscomb, Loving, Lubbock, Lynn, Martin, Midland, Mitchell, Moore, Motley, Ochiltree, Oldham, Parmer, Pecos, Potter, Presidio, Randall, Reagan, Reeves, Roberts, Scurry, Sherman, Sterling, Stonewall, Swisher, Terry, Upton, Ward, Wheeler, Winkler, and Yoakum in the State of Texas.

SEC. 17. *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 18. *Exempt sales.* Sales by the following eating or drinking places are specifically exempt from the provisions of this regulation:

(a) Eating and drinking places located on church premises and operated in connection with special church, Sunday school, and other religious occasions.

(b) Hospitals, except for food items and meals served to persons other than the patients when a separate charge is made for such food items and meals.

(c) Eating and drinking places located on board common carriers (when operated as such), including railroad dining cars, club, bar, and buffet cars, and peddlers aboard railroad cars traveling from station to station.

(d) Eating and drinking places operated by any school, college, or university, which is a non-profit institution; that is where no part of the net earnings inures to the benefit of any private individual, which sells food items or meals on a non-profit or cost basis, or as near thereto as reasonable accounting methods will permit, and substantially all sales of which are made to students, faculty members, and employees of such institutions. For the purpose of this section, persons receiving instruction on the premises of such institutions by arrangement with the War Department or the Department of the Navy shall be considered as students.

SEC. 19. *Adjustments.* (a) The Office of Price Administration may adjust the maximum prices for any eating establishment under the following circumstances:

(1) The establishment is operating under such hardship as to cause a substantial threat to the continuance of its operation.

(2) It is determined with reasonable certainty that such discontinuance will result in serious inconvenience to consumers in that they will either be deprived of all restaurant service or will have to turn to other establishments that present substantial difficulties as to distance, hours of service, selection of meals or food items offered, capacity, or transportation.

(3) By reason of such discontinuance, the same meals or food items will cost the customers of the eating establishments as much or more than the proposed adjusted prices.

(b) If you are the proprietor of an eating establishment which satisfies the requirements specified above, you may apply for an adjustment of your maximum prices by submitting to your OPA District Office a statement setting forth:

(1) Your name and address.

(2) A description of your eating establishment including: type of service rendered (such as cafeteria, table service, etc.), classes of meals offered (such as breakfast, lunch, and dinner), number of persons served per day during the most recent thirty-day period,[1] and such other information that may be useful in classifying your establishment.

(3) The reasons why your customers will be seriously inconvenienced if you discontinue operations.

(4) The names and addresses of the three nearest eating places of the same type as yours.

(5) A list showing your present maximum prices and your requested adjusted prices.

(6) A profit and loss statement for your restaurant business for the most recent three-month accounting period, and a copy of your last income tax return if one was filed separately for your restaurant business.

(7) Any other information requested by the Lubbock District Office.

Applications for adjustment under this section shall be acted upon by the Director of the Lubbock District Office.

PART 1448—EATING AND DRINKING ESTABLISHMENTS

[Rev. Restaurant MPR 5-3]

FOOD AND DRINK SOLD FOR IMMEDIATE CONSUMPTION IN SAN ANTONIO, TEX., DISTRICT

Restaurant Maximum Price Regulation No. 5-3 is redesignated Revised Restaurant Maximum Price Regulation No. 5-3 and is revised and amended to read as follows:

In the judgment of the San Antonio, Texas, District Director of Region V, the prices of food and beverages sold for immediate consumption in the San Antonio District as described in this regulation have risen, and are threatening further to rise, to an extent and in a manner inconsistent with the purpose of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328.

In the judgment of the District Director of the San Antonio, Texas, District, the maximum prices established by this regulation are generally fair and equitable and are necessary to (and will) check inflation and effectuate the purposes of the Act. So far as practicable, the District Director of the San Antonio, Texas, District gave due consideration to prices prevailing between October 1 and 15, 1941, and consulted with the representatives of those affected by this regulation.

A statement of the considerations involved in the issuance of this regulation is issued simultaneously herewith.*

Therefore, in accordance with the direction of the President to take action which will stabilize prices affecting the cost of living, and under the authority therewith delegated by the President pursuant to the Act of Congress approved October 2, 1942, entitled "An Act to Aid in Stabilizing the Cost of Living (7 F.R. 7565), 77th Congress, Second Session, and under the authority of Executive Order 9250, Executive Order 9328, and the Emergency Price Control Act of 1942, the District Director of the San Antonio, Texas, District hereby issues this Revised Restaurant Maximum Price Regulation No. 5-3, establishing as maximum prices for food and drink sold for immediate consumption the prices prevailing therefor during the seven-day period beginning April 4, 1943, and ending April 10, 1943.

§ 1448.403 *Maximum prices for food and drink sold for immediate consumption.* Under the authority vested in the District Director of the San Antonio, Texas, District by the Emergency Price Control Act of 1942, as amended, Executive Order 9250, Executive Order 9328, and General Order No. 50 issued by the Office of Price Administration, and Order of Delegation of Authority Under General Order 50 issued by the Regional Administrator of Region V, Revised Restaurant Maximum Price Regulation No. 5-3 (Food and Drink Sold for Immediate Consumption), which is annexed hereto and made a part hereof, is hereby issued.

AUTHORITY: § 1448.403 issued under 56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871 and E.O. 9328, 8 F.R. 4681.

SECTION 1. *Sales at higher than ceiling prices prohibited.* If you own or operate a restaurant, hotel, cafe, bar, delicatessen, soda fountain, boarding house, or any other eating or drinking place, you must not offer or sell any "food item" (including any beverage) or "meal" at a price higher than the ceiling price which you figure according to the directions in the next four sections (sections 2 to 5, incl.). You may, of course, sell at lower than ceiling prices.

You may not sell any "food item" at a maximum price determined in accordance with this regulation if the maximum price so determined is a result of a violation by you of any regulation or order of the Office of Price Administration which is or was in effect during the base period used by you in establishing your price.

SEC. 2. *How you figure ceiling prices for food items and meals you offered in the seven-day period from April 4, 1943, to April 10, 1943.* Your ceiling price for any "food item" or "meal" is the highest price at which you offered the same "food item" or the same "meal" as a "meal of the same class" in the seven-day period beginning Sunday, April 4, 1943, and ending Saturday, April 10, 1943. (There are thirteen classes of "meals" provided for in section 21 B of this regulation).

Example. If you charged during the seven-day period 75 cents for a dinner on week days and $1.00 for the identical dinner on Sunday, the most you can charge for the dinner on week days is 75 cents because section 21B provides that weekday dinners are dinners of a different class from Sunday dinners.

SEC. 3. *How you figure ceiling prices for food items and meals which you cannot price under section 2.* If you cannot figure your ceiling price for a "food item" or "meal" under section 2 and if you have adequate records of the prices you charged during the period from March 7 to April 3, 1943, inclusive, you must take, as your ceiling price for such "food item" or "meal," the highest price at which you offered the same "food item" or the same "meal" as a "meal of the same class" during that four-week period. (See section 21B for classes of meals.)

SEC. 4. *How you figure ceiling prices which you cannot determine under sections 2 or 3.* If you cannot determine your ceiling price for a "food item" or "meal" under sections 2 or 3, you must proceed as follows:

(a) Determine the cost of the raw food which you use in preparing the new "food item" or "meal."

(b) From the "food items" and "meals" for which you have already established ceiling prices choose a "food item" or "meal" which currently has a raw food cost equal to or less than the raw food cost of the new "food item" or "meal."

Example. You desire to determine your ceiling price for a broiled trout dinner to be served on week days and you did not serve such a dinner on week days during the period from March 7 to April 10, 1943, inclusive. You find that the raw food cost of this meal is 50 cents. You select from the meals for which you have already established ceiling prices a week-day dinner which has a raw food cost equal to or less than 50 cents. Since you may not select a meal which has a greater food cost than the raw food cost of the meal you are pricing, the meal you select in this instance must not have a raw food cost of more than 50 cents.

(c) Take as your ceiling price for the new "food item" or "meal" your ceiling price for the "food item" or "meal" chosen for comparison. The "food item" or "meal" offered for such comparison should be of the same class as the new "food item" or "meal" (the different classes of "meals" and "food items" are set out in section 21B). If, however, you can find no "food item" or "meal" of the same class, you may use for comparison the most similar "food item" or "meal" of another class having a food cost equal to or less than your food cost for the new "food item" or "meal." "Currently" as used herein means current on the day you figure your price.

(d) Under no circumstances are you permitted to use a raw food cost which exceeds the current maximum price fixed under any applicable maximum price regulation or order of the Office of Price Administration.

(e) Under no circumstances are you permitted to charge a higher price for any "food item" or "meal" determined under this section which is higher than the highest of the following prices:

(1) Your highest ceiling price for "food items" or "meals of the same class" offered in the seven-day period; or

(2) The last price at which you sold the same "food item" or the same "meal" as a "meal of the same class" prior to March 7, 1943, provided you first file with the appropriate War Price and Rationing Board a menu or certified copy of the record showing the last price charged. The limitations under this section 4, paragraph (e), shall not apply to seasonal dessert specialties specified in section 21A, class 25.

Example 1. If you did not serve split pea soup during the five-week period and you determine the price in accordance with section 4, arriving at a price of 25 cents for split pea soup and the highest price you charged for any soup during the seven-day period was 15 cents, you may not now charge more than 15 cents for split pea soup, unless you find that the last time you served the soup

*Copies may be obtained from the Office of Price Administration.

prior to March 7, 1943, you offered it at a price of more than 15 cents in which event you may take as your price either the 25 cents arrived at under section 4 or the highest price charged by you for split pea soup prior to March 7, 1943, whichever is the lower.

Example 2. If you did not serve a chicken dinner on a week day during the five-week period and now wish to do so, you must calculate your maximum price under section 4. Suppose that your calculated price is $1.25 and the highest priced week-day dinner you served during the seven-day period from April 4 to April 10, 1943, inclusive, was $1.00, you may not now charge more than $1.00 for this week-day dinner, unless the last time you served a week-day chicken dinner prior to March 7, 1943, you served it at a higher price than $1.00. In such case, you may use the last price charged, or your price calculated under section 4, whichever is lower. Observe the requirement that a supporting menu or certified copy of a record showing the maximum price charged must be first filed with your War Price and Rationing Board.

SEC. 5. *How you figure your prices for seasonal items.* (a) First you determine your ceiling price for a "seasonal food item" (defined in section 20 (e)) in accordance with the first applicable pricing provision contained in sections 2, 3, and 4 of this regulation. Thereafter, this price must be varied in proportion to any seasonal change in the raw food cost of the item: *Provided*, That in no event shall the price be higher than the ceiling price as originally determined. If in the past it has been your practice to maintain one price throughout the season, you need not vary your ceiling price according to this rule provided the ceiling price was based upon estimated average raw food cost of the item for the entire season.

Example. Suppose when you first determine your maximum price for a serving of strawberries and cream it is 25 cents per serving and the raw food cost of this item is 12½ cents. Later, your raw food cost on this item is reduced to 10 cents, then the maximum price you may charge for a serving of strawberries at such time is 20 cents.

(b) In reducing your price of a "seasonal food item," you may ignore any reduction in raw food cost which would reduce the price of the item less than 5 cents. If the reduction is more than 5 cents and you customarily express your prices in multiples of 5 cents, you may adjust your price to the nearest figure which will be a multiple of 5 cents.

(c) Except for ceiling prices which are to be varied in accordance with this section, all of your ceiling prices for food items or meals once fixed or determined may not be changed by you.

SEC. 6. *Substitution of food items in meals.* If you have already determined your ceiling price for a meal, you may substitute for any food item other than the entree (or main dish) in that meal any other food item of the same class without refiguring your ceiling price, provided the new food item costs you approximately as much and offers customers about the same value as the food item which it replaces. A meal becomes a "new" meal whenever the entree (or main dish) is changed or a new food item is substituted which costs you less or offers your customers lower value than the food item which it replaces, and you must, therefore, determine its ceiling price in accordance with the rules established by section 4.

SEC. 7. *Prohibition against manipulation of meal offerings.* You must not manipulate your meal offerings in a manner which will force your customers to pay more than they did during the seven-day period. Among other things, you must not

(a) Reduce the number of meals offered at prices equal to or below your "middle price" for meals of the same class without making a corresponding reduction in the number of meals offered at prices above that middle price. By "middle price" is meant the price most nearly at the mid-point of your price range for meals of the same class. To determine the mid-point, add the price of your highest priced meal to the price of your lowest priced meal of the same class and divide by two.

(b) Cease to offer at least as many different meals at or below the lowest price charged by you for meals of the same class on any day you select in the seven-day period, as you did on that day.

Example 1: You have always offered five meals on week days at $1.50, $1.25, $1.00, 85¢ and 65¢. The mid-point is $1.07½. Your middle price is $1.00. You may not eliminate your 85¢ meal without eliminating either your $1.25 or your $1.50 meal.

Example 2: If you select Friday, April 9, 1943, to determine the lowest price and the number of week-day meals offered at that price, and if on that day you offered six week-day dinners, of which two were priced at 85¢ and one each at 90¢, $1.00, $1.10 and $1.15, you must continue to offer two week-day dinners at 85¢. Note that Sunday meals and week-day meals are meals of a different class.

SEC. 8. *Evasion.* (a) You must not evade or avoid the provisions of this regulation by any scheme or device whatsoever. Some, but not all, practices which will be regarded as evasive are:

(1) Dropping food items from meals, deteriorating quality or reducing quantity without making sufficient reduction in price so as to maintain the raw food cost ratio at least equal to such ratio prior to the deterioration or reduction;

(2) Withdrawing the offer, or increasing the price, of any meal ticket, weekly rate, or other arrangement by which customers may buy food items or meals at less than the prices they must pay when purchasing by item or meal;

(3) Increasing any cover, minimum, bread-and-butter, service, corkage, entertainment, check-room, parking or other special charges, or making such charges when they were not in effect in the seven-day period except that a cover or minimum charge in effect during the base period may be increased in accordance with customary practice, where it was the practice to vary the charge in accordance with the type of entertainment offered and the increase does not cause the charge to go above the highest charge made during the last twelve-month period;

(4) Requiring as a condition of sale of an item or meal the purchase of other items or meals when such condition was not in effect during the base period.

(5) Reducing the selection of meals offered at table d'hote prices when the food items which you customarily offered in such meals are being offered at a la carte prices which, when added together, total more than the table d'hote price for the complete meal or give your customers less value for their money.

(6) Shortening the period of time in each day during which table d'hote meals are offered unless there is a corresponding reduction in the period of time in which a la carte meals are served.

(b) You will not be considered evading the provisions of this regulation, however, if you do any of the following things, even though you did not do any of these things during the seven-day period:

(1) You may limit your customers to one cup of coffee per meal.

(2) You may limit your customers to one pat of butter per meal.

(3) You may reduce the quantity, or eliminate altogether, condiments (such as catchup, chili sauce, etc.) which you may have customarily placed at the disposal of your customers and which now are, or may hereafter be, subject to any rationing order or rationing regulation of the Office of Price Administration.

(4) You may reduce the amount of sugar served with each cup of coffee or tea, or each bowl of cereal, fruits, or other similar food items with which sugar is served, to, but not less than, one teaspoonful except that less than that may be given if required by your available supply.

You may not, however, make the curtailment authorized in the foregoing subparagraphs and furnish these curtailed items at an additional charge. For example, if during the seven-day period you furnished catchup, you may not now discontinue furnishing this item free and at the same time offer to furnish it for an additional charge.

SEC. 9. *Rules for new proprietors.* (a) If you acquire another's business subsequent to the seven-day period and continue the business in the same place, you are subject to the same ceiling prices and duties as the previous proprietor would have been had he continued to operate the business.

(1) If your acquisition was subsequent to the seven-day period but prior to the effective date of this regulation, you may apply to the Office of Price Administration for permission to price under paragraph (b) of this section. You may not, however, make such application after July 1, 1944.

(2) Prior to acquiring another's business after the effective date of this regulation, you may apply to the Office of Price Administration for permission to price under paragraph (b) of this section. If you are granted permission to price under paragraph (b) of this section, it will be subject to such conditions as the Office of Price Administration deems necessary.

(b) If you open an eating or drinking place after the seven-day period, you must fix ceiling prices in line with the ceiling prices of the nearest eating or drinking place of the same type as yours. If the ceiling prices so fixed are too high and threaten to have an inflationary effect on the price of food or drink, the Office of Price Administration may issue an order requiring you to reduce your ceiling prices. You are subject to the record requirements of section 12 and the posting requirements of section 13 immediately upon the opening of your place.

SEC. 10. *Seasonal eating and drinking places*—(a) *Exempt places.* If you are the proprietor of a seasonal eating or drinking place that fills all the following classifications:

(1) Was not open during the base period from April 4 to 10, 1943;

(2) Receives 90 per cent or more of its total annual revenue during four calendar months of the year; and

(3) Is located in an area for which no maximum rent regulation has been issued;

the price for food items and meals offered by you in that place are exempt from control.

You must not regard this exemption as relieving you from the obligations imposed upon you by General Order 50, and you are still subject to the provisions of section 22 of this regulation. Pursuant to this latter section, the Administrator will, by special order, establish maximum prices for any seasonal eating or drinking place which takes undue advantage of the exemption.

(b) *Non-exempt places.* If you are the proprietor of a seasonal eating or drinking place which is not exempt under the terms of paragraph (a), you must figure your ceiling prices as follows:

(1) If the place was in operation during the base period from April 4 to April 10, 1943, use the rules set forth in sections 2, 3, 4, and 5.

(2) If the place was not in operation during the base period from April 4 to April 10, 1943, but another place of the same type and within a reasonable distance was in operation during that period, fix your ceiling prices as a new proprietor under the terms of section 9 (b).

(3) If you cannot price under subparagraphs (1) and (2) above, you must apply for a price to the OPA District Office for the area in which your place is located. Your application must be filed ten days prior to the date you plan to commence operations and present the following information:

(i) Your name and address;

(ii) A brief description of your business and the manner of operation;

(iii) A list showing the prices you charged during the previous season as well as the prices you propose to charge during the coming season;

(iv) The date when you plan to commence operations;

(v) The names of two establishments similar to yours. You may charge the prices listed if they are not disapproved by the Office of Price Administration prior to the date specified for the commencement of operations. That Office may at any time, after proper investigation and hearing, establish such maximum prices for your business as it deems proper.

SEC. 11. *Taxes.* If in the seven-day period you stated and collected the amount of any tax separately from the price you charged, you may continue to do so. You may also separately state and collect the amount of any new tax or of any increase in the amount of a previous tax on the sale of food or drink or on the business of selling food or drink, if the tax is measured by the number or price of items or meals.

SEC. 12. *Records.* (a) You must observe all the record-keeping and filling requirements of General Order No. 50, which are hereby made a part of this regulation by reference.

(b) *Customary records.* You must preserve all your existing records relating to your prices, costs and sales. You must also continue to maintain such records as you ordinarily kept. All such records shall be subject to examination by the Office of Price Administration.

(c) *Records of the seven-day period.* You must make readily available for examination by any person during ordinary business hours a copy of each menu used by you in the seven-day period. If you did not use menus, you must make readily available for such examination a list of the highest prices you charged in the seven-day period.

(d) *Filing by new proprietors.* The proprietor of an eating or drinking place which was not open during the seven-day period (including newly-opened places) shall file menus or a price list in accordance with paragraph (a), (of General Order 50), except that (1) the filing shall be for the seven-day period beginning with the first Sunday that place is open after April 4, 1943, and (2) the filing shall be made within three weeks of such first Sunday.

(e) *Future records.* Beginning with the effective date of this regulation, you must keep, for examination by the Office of Price Administration, two each of the menus used by you each day. If you do not use menus, you must prepare, in duplicate, and preserve for such examination, a record of the prices charged by you each day, except that you need not record prices which are the same as, or less than, prices you previously recorded for the same item or meals. Proprietors who operate a number of eating or drinking places in the same city which have customarily been subject to central control may keep the records required by this paragraph for those places at a central office or the central office of the principal place of business within the city.

SEC. 13. *Posting.* (a) Beginning September 20, 1943, each menu must have clearly written on or attached to it the following statement:

All prices listed are our ceiling prices or below. By Office of Price Administration Regulation, our ceiling prices are based on our highest prices from April 4, 1943, to April 10, 1943. Records of these prices are available for your inspection.

(b) If you made menus available in the seven-day period, you shall continue to make them available.

(c) In addition to the requirements in (a) and (b), you must post in a conspicuous place, preferably at or near the cash register, a sign or poster when furnished by the Office of Price Administration. You must enter after each meal or food item on this list your ceiling price for such meal or food item.

SEC. 14. *Operation of several places.* If you own or operate more than one eating or drinking place, you must do everything required by this regulation for each place separately.

SEC. 15. *Relation to other maximum price regulations.* The provisions of this regulation shall in the territory covered by it, as set out in section 16 hereof, supersede other regulations, including the General Maximum Price Regulation, now issued by the Office of Price Administration insofar as they establish maximum prices for meals and food items sold by eating and drinking places. However, a price charged during the base period of this regulation shall not become a maximum price under this regulation to the extent that it exceeded the maximum price established by another regulation applicable at that time.

SEC. 16. *Geographical application.* This Revised Restaurant Maximum Price Regulation No. 5–3 applies to the following counties in the State of Texas: Aransas, Atascosa, Bandera, Bastrop, Bee, Bexar, Blanco, Brooks, Burnet, Caldwell, Calhoun, Cameron, Comal, Crockett, DeWitt, Dimmit, Duval, Edwards, Frio, Gillespie, Guadalupe, Goliad, Gonzales, Hays, Hidalgo, Jim Hogg, Jim Wells, Karnes, Kendall, Kenedy, Kerr, Kinney, Kimble, Kleberg, LaSalle, Live Oak, Llano, McMullen, Mason, Maverick, Medina, Menard, Nueces, Real, Refugio, San Patricio, Schleicher, Starr, Sutton, Terrell, Travis, Uvalde, Val Verde, Victoria, Webb, Willacy, Williamson, Wilson, Zavala, Zapata, and that portion of Lavaca County which lies within the corporate limits of the City of Yoakum, Texas.

SEC. 17. *Enforcement.* Persons violating any provisions of this Regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 18. *Exempt sales.* (a) Sales by the following eating or drinking places are specifically exempt from the provisions of this regulation:

(1) Eating and drinking places located on church premises and also any sales of food and beverages by churches, Sunday Schools, and other religious organizations unless such sales are made as a regular business.

(ii) It sells food items and meals only served primarily on a non-profit basis to members of the Armed Forces.

(6) Eating cooperatives formed by officers in the Armed Forces (as for example, Officers' Mess) operated as a non-profit cooperative (where no part of the net earnings inures to the benefit of any individual), which sells food items or meals on a cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to officers who are members of the cooperative.

(7) Bona fide private clubs which file with the appropriate Office of Price Administration District Office a statement setting forth that:

(i) The club is a non-profit organization and is recognized as such by the Bureau of Internal Revenue;

(ii) It sells food items and meals only to members and bona fide guests of members;

Five days after filing such information, or earlier if so notified by the District Director, a private club may consider itself exempt unless and until it is otherwise notified by the District Director. Any club which, subsequent to such filing, changes its operations with respect to any of the requirements stated above shall immediately notify its Office of Price Administration District Office accordingly. Any club which sells food items or meals to persons other than members and bona fide guests of members is subject to this regulation with respect to all sales.

(b) Sales of fluid milk by eating and drinking places are specifically exempt from the provisions of this regulation, and will remain subject to Supplementary Regulation 14A under the General Maximum Price Regulation, and any other applicable regulation or order.

SEC. 19. *Adjustments.* (a) The Office of Price Administration may adjust the maximum prices for any eating establishment under the following circumstances:

(1) The eating establishment is operating under such hardship as to cause a substantial threat to the continuance of its operation.

(2) It is determined with reasonable certainty that such discontinuance will result in serious inconvenience to consumers in that they will either be deprived of all restaurant service or will have to turn to other establishments that present substantial difficulties as to distance, hours of service, selection of meals or food items offered, capacity, or transportation.

(3) By reason of such discontinuance, the same meals or food items will cost the customers of the eating establishment as much or more than the proposed adjusted prices.

(b) If you are the proprietor of an eating establishment which satisfies the requirements specified above, you may apply for an adjustment of your maximum prices by submitting to your OPA District Office a statement setting forth:

(1) Your name and address.

(2) A description of your eating establishment, including type of service rendered (such as cafeteria, table service, etc.) classes of meals offered (such as breakfast, lunch and dinner), number of persons served per day during the most recent thirty-day period, and such other information that may be useful in classifying your establishment. In counting the number of persons served, anyone who is served more than once is to be counted separately for each occasion he was served.

(3) The reasons why your customers will be seriously inconvenienced if you discontinue operations.

(4) The names and addresses of the three nearest eating places of the same type as yours.

(5) A list showing your present maximum prices and your requested adjusted prices.

(6) A profit and loss statement for your restaurant business for the most recent three-month accounting period, and a copy of your last income tax return if one was filed separately for your restaurant business.

(7) Any other information requested by the San Antonio District Office. Applications for adjustment under this section shall be acted upon by the Director of the San Antonio, Texas, District Office.

[Rev. Restaurant MPR 5–12]

FOOD AND DRINK SOLD FOR IMMEDIATE CONSUMPTION IN FORT WORTH, TEX., DISTRICT

Restaurant Maximum Price Regulation 5–12 is redesignated Revised Restaurant Maximum Price Regulation 5–12 and is revised and amended to read as follows:

In the judgment of the Fort Worth, Texas, District Director, the prices of food and beverages sold for immediate consumption in the following counties in Texas: Archer, Baylor, Bell, Bosque, Brown, Callahan, Clay, Coke, Coleman, Comanche, Concho, Cooke, Coyrell, Denton, Eastland, Erath, Falls, Fisher, Foard, Hamilton, Hardeman, Haskell, Hill, Hood, Jack, Johnson, Jones, Knox, Lampasas, McCulloch, McLennan, Mills, Montague, Nolan, Palo Pinto, Parker, Runnels, San Saba, Shackelford, Somervell, Stephens, Tarrant, Taylor, Throckmorton, Tom Green, Wichita, Wilbarger, Wise, and Young, have risen and are threatening further to rise to an extent and in a manner inconsistent with the purpose of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328.

In the judgment of the District Director of the Fort Worth, Texas, District, the maximum prices established by this Regulation are generally fair and equitable and are necessary to (and will) check inflation and effectuate the purposes of the Act. So far as practicable, the District Director of the Fort Worth, Texas, District gave due consideration to prices prevailing between October 1 and 15, 1941, and consulted with the representatives of those affected by this regulation.

*Copies may be obtained from the Office of Price Administration.

SECTION 1. *Sales at higher than ceiling prices prohibited.* If you own or operate

a restaurant, hotel, cafe, bar, delicatessen, soda fountain, boarding house, or any other eating or drinking place, you must not offer or sell any "food item" (including any beverage) or "meal" at a price higher than the ceiling price which you figure according to the direction in the next four sections (sections 2 to 5, inclusive). You may, of course, sell at lower than ceiling prices. However, a price charged during the period April 4, 1943, to April 10, 1943, as provided under section 2 hereof, or a price charged during the period March 7, 1943, to April 3, 1943, inclusive, as provided under section 3 hereof, shall not become a maximum price under this regulation if it exceeded the maximum price established by another regulation applicable at that time. In such case, the lawful maximum price applicable at that time shall be the maximum price hereunder.

SEC. 2. *How you figure ceiling prices for food items and meals you offered in the seven-day period from April 4, 1943, to April 10, 1943.* Your ceiling price for any "food item" or "meal" is the highest price at which you offered the same "food item" or the "same meal" in the seven-day period beginning Sunday, April 4, 1943, and ending Saturday, April 10, 1943. (There are thirteen classes of "meals" provided for in section 21 (b) of this regulation.)

Example. If you charged during the seven-day period 75 cents for a dinner on week days and $1.00 for the identical dinner on Sunday, the most you can charge for the dinner on week days is 75 cents because section 21 (b) provides that week-day dinners are dinners of a different class from Sunday dinners.

SEC. 3. *How you figure ceiling prices for food items and meals which you cannot price under section 2.* If you cannot figure your ceiling price for a "food item" or "meal" under section 2, and if you have adequate records of the prices you charged during the four-week period from March 7 to April 3, 1943, inclusive, you must take, as your ceiling price for such "food items" or "meals" the highest price at which you offered the same "food item" or the "same meal" during that four-week period. (See section 21 (b) for classes of meals.)

SEC. 4. *How you figure ceiling prices which you cannot determine under sections 2 or 3.* If you cannot determine your ceiling price for a "food item" or "meal" under section 2 or 3, you must proceed as follows:

(a) Determine the cost of the raw food which you use in preparing the new "food item" or "meal."

(b) From the "food items" and "meals" for which you have already established ceiling prices, choose a "food item" or "meal" which currently has raw food cost equal to or less than the raw food cost of the new "food item" or "meal."

Example. You desire to determine your ceiling price for a broiled trout dinner to be served on week days and you did not serve such a dinner on week days during the period from March 7 to April 10, 1943, inclusive. You find that the raw food cost of this meal is 50 cents. You select from the meals for which you have already established ceiling prices a week-day dinner which has a raw food cost equal to or less than 50 cents. Since you may not select a meal which has a greater food cost than the raw food cost of the meal you are pricing, the meal you select in this instance must not have a raw food cost of more than 50 cents.

(c) Take as your ceiling price for the new "food item" or "meal" your ceiling price for the "food item" or "meal" chosen for comparison. The "food item" or "meal" offered for such comparison should be of the same class as the new "food item" or "meal" (the different classes of "meals" and "food items" are set out in section 21 (b). If, however, you can find no "food item" or "meal" of the same class, you may use for comparison the most similar "food item" or "meal" of another class having a food cost equal to or less than your food cost for the new "food item" or "meal." "Currently" as used herein means current on the day you figure your price.

(d) Under no circumstances are you permitted to use a raw food cost which exceeds the current maximum price fixed under any applicable maximum price regulation or order of the Office of Price Administration.

(e) Under no circumstances are you permitted to charge a price for any "food item" or "meal" determined under this section which is higher than either of the following prices:

(1) Your highest ceiling price for "food items" or "meals" of the same class offered in the seven-day period; or

(2) The last price at which you sold the same "food item" or the same "meal" prior to March 7, 1943, provided you first file with the appropriate War Price and Rationing Board a menu or certified copy of the record showing the last price charged. The limitations under this section 4, paragraph (e) shall not apply to seasonal dessert specialties specified in section 21 (a), Class 25A.

Example 1. If you did not serve split pea soup during the five-week period and you determine the price in accordance with section 4, arriving at a price of 25 cents for split pea soup, and the highest price you charged for any soup during the seven-day period was 15 cents, you may not now charge more than 15 cents for split pea soup, unless you find that the last time you served the soup prior to March 7, 1943, you offered it at a price of more than 15 cents, in which event you may take as your price either the 25 cents arrived at under section 4 or the highest price charged by you for split pea soup prior to March 7, 1943, whichever is the lower.

Example 2. If you did not serve a chicken dinner on a week day during the five-week period and now wish to do so, you must calculate your maximum price under section 4. Suppose that your calculated price is $1.25 and the highest priced week-day dinner you served during the seven-day period from April 4, 1943, to April 10, 1943, inclusive, was $1.00, you may not now charge more than $1.00 for this week-day dinner, unless the last time you served a week-day chicken dinner prior to March 7, 1943, you served it at a higher price than $1.00. In such case, you may use the last price charged, or your price calculated under section 4, whichever is lower. Observe the requirement that a supporting menu or certified copy of a record showing the maximum price charged must be first filed with your War Price and Rationing Board.

(f) Except for ceiling prices which are to be varied in accordance with section 5, all of your ceiling prices for food items or meals once fixed or determined may not be changed by you.

SEC. 5. *How you figure your prices for seasonal items.* (a) First you determine your ceiling price for a "seasonal food item" (defined in Section 20 (e)) in accordance with the first applicable pricing provision contained in sections 2, 3, and 4 of this regulation. Thereafter, this price must be varied in proportion to any seasonal change in the raw food cost of the item: *Provided*, That in no event shall the price be higher than the ceiling price as originally determined. If in the past it has been your practice to maintain one price throughout the season, you need not vary your ceiling price according to this rule: *Provided*, The ceiling price was based upon estimated average raw food cost of the item for the entire season.

Example. Suppose when you first determine your maximum price for a serving of strawberries and cream it is 25 cents per serving and the raw food cost of this item is 12½ cents. Later, your raw food cost on this item is reduced to 10 cents, then the maximum price you may charge for a serving of strawberries at such time is 20 cents.

(b) In reducing your price of a "seasonal food item," you may ignore any reduction in the raw food cost which would reduce the price of the item less than 5 cents. If the reduction is more than 5 cents and you customarily express your prices in multiples of 5 cents, you may adjust your price to the nearest figure which will be a multiple of 5 cents.

SEC. 6. *Substitution of food items in meals.* If you have already determined your ceiling price for a meal, you may substitute for any food item other than the entree (or main dish) in that meal any other food item of the same class without refiguring your ceiling price, provided the new food item costs you approximately as much and offers customers about the same value as the food item which it replaces. A meal becomes a "new" meal whenever the entree (or main dish) is changed or a new food item is substituted which costs you less or offers your customers lower value than the food item which it replaces, and you must therefore determine its ceiling price in accordance with the rules established by section 4.

SEC. 7. *Prohibition against manipulation of meal offerings.* You must not manipulate your meal offerings in a manner which will force your customers to pay more than they did during the seven-day period. Among other things you must not:

(a) Reduce the number of meals offered at prices equal to or below your "middle price" for meals of the same class without making a corresponding reduction in the number of meals offered at prices above that middle price. By "middle price" is meant the price most nearly at the mid-point of your price range for meals of the same class. To determine the mid-point, add the price of your highest priced meal to the price of your lowest priced meal of the same class and divide by two.

(b) Cease to offer at least as many different meals at or below the lowest price charged by you for meals of the same class on any day you select in the seven-day period, as you did on that day.

Example 1. You have always offered five meals on week days at $1.50, $1.25, $1.00, 85¢, and 65¢. The mid-point is $1.07½. Your middle price is $1.00. You may not eliminate your 85¢ meal without eliminating either your $1.25 or your $1.50 meal.

Example 2. If you select Friday, April 9, 1943, to determine the lowest price and the number of week-day meals offered at that price, and if on that day you offered six week-day dinners, of which two were priced at 85¢, and one each at 90¢, $1.00, $1.10, and $1.50, you must continue to offer two week-day dinners at 85¢. Note that Sunday meals and week-day meals are meals of a different class.

SEC. 8. *Evasion.* (a) You must not evade or avoid the provisions of this regulation by any scheme or device whatsoever. Some, but not all, practices which will be regarded as evasive are:

(1) Dropping food items from meals, deteriorating quality or reducing quantity without making sufficient reduction in price.

(2) Withdrawing the offer, or increasing the price, of any meal ticket, weekly rate, or other arrangement by which customers may buy food items or meals at less than the prices they must pay when purchasing by item or meal.

(3) Increasing any cover, minimum, bread-and-butter, service, corkage, entertainment, checkrooms, parking or any other special charges, or making such charges when they were not in effect in the seven-day period, except that a cover or minimum charge in effect during the base period may be increased in accordance with customary practice, where it was the practice to vary the charge in accordance with the type of entertainment offered and the increase does not cause the charge to go above the highest charge made during the last twelve-month period.

(4) Requiring as a condition of sale of an item or meal the purchase of other items or meals when such condition was not in effect during the base period.

(5) Reducing the selection of meals offered at table d'hote prices when the food items which you customarily offered in such meals are being offered at a la carte prices which, when added together, total more than the table d'hote price for the complete meal or give your customers less value for their money.

(6) Shortening the period of time in each day during which table d'hote meals are offered unless there is a corresponding reduction in the period of time in which a la carte meals are served.

(b) You will not be considered evading the provisions of this regulation, however, if you do any of the following things, even though you did not do any of these things during the seven-day period:

(1) You may limit your customers to one cup of coffee per meal.

(2) You may limit your customers to one pat of butter per meal.

(3) You may reduce the quantity, or eliminate altogether, condiments (such as catchup, chili sauce, etc.) which you may have customarily placed at the disposal of your customers and which now are, or may hereafter be, subject to any rationing order or rationing regulation of the Office of Price Administration.

(4) You may reduce the amount of sugar served with each cup of coffee or tea, or each bowl of cereal, fruit, or other similar food items with which sugar is served, to, but not less than, one teaspoonful, except that less than that may be given if required by your available supply.

You may not, however, make the curtailment authorized in the foregoing subparagraphs and furnish these curtailed items at an additional charge. For example, if during the seven-day period you furnished catchup, you may not now discontinue furnishing this item free, and at the same time offer to furnish it for an additional charge.

SEC. 9. *Rules for new proprietors.* (a) If you acquired or acquire another's business subsequent to the seven-day period beginning April 4, 1943, and continue the business in the same place, you are subject to the same ceiling prices and duties as the previous proprietor.

(b) If you open an eating or drinking place after the seven-day period you must fix ceiling prices in line with the ceiling prices of the nearest eating or drinking place of the same type as yours. If the ceiling prices so fixed are too high and threaten to have an inflationary effect on the price of food or drink, the Office of Price Administration may issue an order requiring you to reduce your ceiling prices. You are subject to the record requirements of section 12 and the posting requirements of section 13 immediately upon the opening of your place.

SEC. 10. *Seasonal eating and drinking places*—(a) *Exempt places.* If you are the proprietor of a seasonal eating or drinking place that meets all of the following requirements:

(1) Was not open during the base period from April 4 to 10, 1943;

(2) Receives 90 percent or more of its total annual revenue during four calendar months of the year; and

(3) Is located in an area for which no maximum rent regulation has been issued;

the prices for food items and meals offered by you in that place are exempt from control.

You must not regard this exemption as relieving you from the obligations imposed upon you by General Order No. 50, as amended, and you are still subject to the provisions of section 22 of this regulation. Pursuant to this latter section, the Administrator will, by special order, establish maximum prices for any seasonal eating or drinking place which takes undue advantage of the exemption.

(b) *Non-exempt places.* If you are the proprietor of a seasonal eating or drinking place which is not exempt under the terms of paragraph (a), you must figure your ceiling prices as follows:

(1) If the place was in operation during the base period from April 4 to April 10, 1943, use the rules set forth in sections 2, 3, 4, and 5.

(2) If the place was not in operation during the base period from April 4 to April 10, 1943, but another place of the same type and within a reasonable distance was in operation during that period, fix your ceiling prices as a new proprietor under the terms of section 9 (b).

(3) If you cannot price under subparagraphs (1) or (2) above, you must apply for a price to the OPA District Office for the area in which your place is located. Your applicaton must be filed ten days prior to the date you plan to commence operations and present the following information:

(i) Your name and address;

(ii) A brief description of your business and the manner of operation;

(iii) A list showing the prices you charged during the previous season as well as the prices you propose to charge during the coming season;

(iv) The date when you plan to commence operations;

(v) The names of two establishments similar to yours.

You may charge the prices listed if they are not disapproved by the Office of Price Administration prior to the date specified for the commencement of operations. That Office may at any time, after proper investigation and hearing, establish such maximum prices for your business as it deems proper.

SEC. 11. *Taxes.* If in the seven-day period you stated and collected the amount of any tax separately from the price you charged, you may continue to do so. You may also separately state and collect the amount of any new tax or of any increase in the amount of a previous tax on the sale of food or drink or on the business of selling food or drink, if the tax is measured by the number or price of items or meals.

SEC. 12. *Records.* (a) You must observe all the record keeping and filing requirements of General Order No. 50, as amended, which are hereby made a part of this regulation by reference.

(b) *Customary records.* You must preserve all your existing records relating to your prices, costs, and sales. You must also continue to maintain such records as you ordinarily kept. All such records shall be subject to examination by the Office of Price Administration.

(c) *Records of the seven-day period.* You must make readily available for examination by any person during ordinary business hours a copy of each menu used by you in the seven-day period. If you did not use menus, you must make readily available for such examinations a list of the highest prices you charged in the seven-day period.

(d) *Filing by new proprietors.* The proprietor of an eating or drinking place which was not open during the seven-

day period (including newly-opened places) shall file menus or a price list in accordance with paragraph (a) of General Order No. 50, as amended, except that (1) the filing shall be for the seven-day period beginning with the first Sunday that place is open after April 4, 1943, and (2) the filing shall be made within three weeks of such first Sunday.

(e) *Future records.* Beginning with the effective date of this regulation, you must keep, for examination by the Office of Price Administration, two each of the menus used by you each day. If you do not use menus, you must prepare in duplicate, and preserve for such examination, a record of the prices charged by you each day, except that you need not record prices which are the same as, or less than, prices you previously recorded for the same items or meals. Proprietors who operate a number of eating or drinking places in the same city which have customarily been subject to central control may keep the records required by this paragraph for these places at a central office or the central office of the principal place of business within the city.

SEC. 13. *Posting.* (a) Beginning November 1, 1943, each menu must have clearly written on or attached to it the following statement:

All prices listed are our ceiling prices or below. By Office of Price Administration Regulation, our ceiling prices are based on our highest prices from April 4, 1943, to April 10, 1943. Records of these prices are available for your inspection.

(b) If you made menus available in the seven-day period, you shall continue to make them available.

(c) In addition to the requirements in (a) and (b), you must post in a conspicuous place, preferably at or near the cash register, a sign or poster when furnished by the Office of Price Administration. You must enter after each meal or food item on this list your ceiling price for such meal or food item.

SEC. 14. *Operation of several places.* If you own or operate more than one eating or drinking place, you must do everything required by this regulation for each place separately.

SEC. 15. *Relation to other maximum price regulations.* The provisions of this regulation shall not be applicable to the sale of those food items and beverages which are now, or may hereafter be, covered by specific regulations or the General Maximum Price Regulation; for example, such items as (but not limited to) bottled soft drinks, fluid sweet milk, malt beverages, candy, chewing gum, cigarettes, cigars, chewing tobacco, smoking tobacco, etc.

SEC. 16. *Geographical application.* This Revised Restaurant Maximum Price Regulation No. 5–12 applies to the following counties: Archer, Baylor, Bell, Bosque, Brown, Callahan, Clay, Coke, Coleman, Comanche, Concho, Cooke, Coryell, Denton, Eastland, Erath, Falls, Fisher, Foard, Hamilton, Hardeman, Haskell, Hill, Hood, Jack, Johnson, Jones, Knox, Lampasas, McCulloch, McLennan, Mills, Montague, Nolan, Palo Pinto, Parker, Runnels, San Saba, Shackelford, Somervell, Stephens, Tarrant, Taylor, Throckmorton, Tom Green, Wichita, Wilbarger, Wise, and Young.

SEC. 17. *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 18. *Exempt sales.* Sales by the following eating or drinking places are specifically exempt from the provisions of this regulation:

(a) Eating and drinking places located on church premises and also any sales of food and beverages by churches, Sunday schools, and other religious organizations unless such sales are made as a regular business.

For purposes of this paragraph, persons receiving instruction on the premises of such institution by arrangement with the War Department or Department of the Navy shall be considered students.

(e) Bona fide private clubs insofar as such clubs sell only to members and bona fide guests of members. If such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking place within the meaning of this regulation. No club shall be considered to be exempt as a private club within the meaning of this paragraph unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and it otherwise is operated as a private club.

No club organized after the effective date of this regulation shall be exempt unless and until it has filed a request for exemption with the nearest State or District Office of the Office of Price Administration, furnishing such information as may be required, and has received communications from such office authorizing exemption as a private club.

SEC. 19. *Adjustments.* (a) The Office of Price Administration may adjust the maximum prices for any eating establishment under the following circumstances:

(1) The establishment is operating under such hardship as to cause a substantial threat to the continuance of its operation.

(2) It is determined with reasonable certainty that such discontinuance will result in serious inconvenience to consumers in that they will either be deprived of all restaurant service or will have to turn to other establishments that present substantial difficulties as to distances, hours of service, selection of meals or food items offered, capacity, or transportation.

(3) By reason of such discontinuance, the same meals or food items will cost the customers of the eating establishment as much or more than the proposed adjusted prices.

(b) If you are the proprietor of an eating establishment which satisfies the requirements specified above, you may apply for an adjustment of your maximum prices by submitting to your OPA District Office a statement setting forth:

(1) Your name and address.

(2) A description of your eating establishment including: type of service rendered (such as cafeteria, table service, etc.), classes of meals offered (such as breakfast, lunch and dinner), number of persons served per day during the most recent thirty-day period, and such other information that may be useful in classifying your establishment.

(3) The reasons why your customers will be seriously inconvenienced if you discontinue operations.

(4) The names and addresses of the three nearest eating places of the same type as yours.

(5) A list showing your present maximum prices and your requested adjusted prices.

(6) A profit and loss statement for your restaurant business for the most recent three-month accounting period, and a copy of your last income tax return if one was filed separately for your restaurant business.

(7) Together with such other and further information as the District Director may deem necessary.

(c) Applications for adjustment under this section shall be acted upon by the Director of the Fort Worth District Office.

Chapter XIII—Petroleum Administration for War

[PAO 15, as Amended July 27, 1944]

PART 1570—MATERIAL CONSERVATION—PIPE LINES, TERMINALS AND REFINING

PETROLEUM FOR MILITARY AND OTHER ESSENTIAL USES

The fulfillment of the requirements for the defense of the United States has created a shortage of materials necessary for the transportation and refining of petroleum for defense, for private account, and for export; and the following order is deemed necessary in the public interest, to promote the national defense, and to provide adequate supplies of petroleum for military and other essential purposes.

§ 1570.1 *Petroleum Administrative Order No. 15, as amended July 27, 1944*—(a) *Scope of this order.* The provisions of this order shall be applicable to the use of material in "Petroleum gathering and movement" and "Refining" operations in the United States, its territories or possessions. This order does not apply to tank cars, tank trucks or railroad rolling stock, to tankers, barges or other mobile marine equipment.

(b) *Definitions.* (1) "Petroleum gathering and movement" (defined as "Transportation" in Preference Rating Order P-98-b) means any operation directly incident to the transportation, movement, loading or unloading of petroleum other than natural gas.

(2) "Refining" means any operation directly incident to the processing, reprocessing, or alteration of petroleum, including but not limited to compounding or blending, but not including the extraction or recovery of natural gasoline or associated hydrocarbons.

(3) "Maintenance and repair" means (without regard to accounting practice):

(i) The upkeep of any structure, equipment or material in a sound working condition or the restoration or fixing of any structure, equipment, or material which has broken down or is worn out, damaged or destroyed.

(ii) Any other use of material not exceeding in material cost $500 for any one complete operation which has not been subdivided for the purpose of coming within this definition.

(4) "Operating supplies" means any material other than material used for maintenance and repair which is essential to and consumed in "Petroleum gathering and movement" or "Refining" and which is normally carried by an operator as operating supplies or which is normally chargeable to operating expense, including among other items chemicals, additives, or blending agents.

(5) "Laboratory equipment" means material or equipment used exclusively for the purpose of controlling, or investigating more effective methods of conducting, petroleum industry operations by means of research, technical, or control laboratories. This material or equipment shall not, however, include material for use in the construction of laboratory buildings or other structures.

(6) "Material" means any commodity, equipment, accessory, part, assembly, or product of any kind.

(c) *Restrictions on use of material.* No material may be used in "Petroleum gathering and movement" or in "Refining" unless permission to use material is granted by provisions of this order which follow below.

(d) *Permitted uses of material.* Material may be used in "Petroleum gathering and movement" or in "Refining":

(1) For maintenance and repair purposes, as operating supplies or for laboratory equipment or its installation, notwithstanding any other provision of this paragraph (d).

(2) For the construction, installation, or extension of (or any other similar use of material in connection with) a crude oil gathering line from the first valve on the discharge side of the lease or field shipping tank or battery where petroleum is first gauged to any other "Petroleum gathering and movement" facility or any "Refining" facility, if:

(i) The material cost for any one complete operation is $10,000 or less; and

(ii) The line does not duplicate in whole or in part the transportation functions of any existing line or lines.

(3) For any other construction, expansion, extension, improvement, installation, reconstruction, remodeling or other similar operation in "Petroleum gathering and movement" (which operation does not include any use of material in connection with a crude oil gathering line) or in "refining", if the material cost for any one complete operation is $10,000 or less.

(e) *Special restrictions on use of material in crude oil gathering lines.* In no instance may material be used to connect a crude oil gathering line to any well or wells directly or indirectly unless such well or wells were spudded prior to December 23, 1941, or were drilled and completed in conformity with Conservation Order M-68, Petroleum Administrative Order No. 11, or any amendment, supplement or exception to either of such orders.

(f) *Application for authorization to use material.* Where a person wants to use material in "Petroleum gathering and movement" or "Refining" but cannot do so because of the preceding provisions of this order, he must make application for both authorization to use the material and for necessary priorities assistance by filing PAW Form 30.

Six copies of this form should be prepared. One copy should be retained by the applicant and the original and three copies together with supporting attachments should be sent to the Petroleum Administration for War, Interior Building, Washington 25, D. C. The other copy with attachments should be sent to the District Office of the Petroleum Administration for War for the District in which the work will be done (see Schedule "A").

Any communications in connection with PAW Form 30 for "Petroleum gathering and movement" or for "Refining" should be submitted in accordance with these instructions, Ref: PAO-15.

(g) *Violations.* Any person who willfully violates any provision of this order, or who, by any act or omission, falsifies records kept or information furnished in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment.

Any person who willfully violates any provision of this order may be prohibited from delivering or receiving any material under priority control, or such other action may be taken as is deemed appropriate.

SURPLUS WAR PROPERTY ADMINISTRATION.

[Reg. 1, Supp. 1]

DISPOSAL OF SURPLUS PROPERTY BY FEDERAL AGENCIES

Scope of supplement. This supplement has three primary purposes:

(1) To extend the effectiveness of the Administration's Regulation No. 1, dated May 8, 1944 (9 F.R. 5096), as hereby amended, to surplus war property of all agencies, with the exceptions herein stated.

(2) To amend Regulation No. 1 in certain respects which are rendered desirable by its extension to cover surplus war property of all agencies.

(3) To amend Regulation No. 1 in additional respects found appropriate as the result of experience and by expanding its scope to include real estate not previously covered.

This supplement shall become effective on August 1, 1944.

Effectiveness. Regulation No. 1, as hereby amended, is hereby made effective with respect to surplus war property of all agencies, with the following exceptions and qualifications which are subject to change by further regulations:

(1) The Administration does not deem it feasible to assign to the disposal agencies herein named surplus war property of the Tennessee Valley Authority with respect to which that corporation has a statutory power and duty of disposal. That corporation, however, (a) shall coordinate its disposal policies and procedures with those of the disposal agencies hereunder so as to avoid competitive sales, (b) shall report surplus war property to the appropriate disposal agency for disposition whenever it deems such reporting consistent with its statutory duties and desirable in the interests of coordinated disposal, and (c) shall report to the appropriate office of the appropriate disposal agency, in such manner and at such times as each such disposal agency shall direct, all dispositions which would be under the jurisdiction of such disposal agency, or would be reported to such disposal agency, if this regulation were fully effective with respect to Tennessee Valley Authority.

(2) The Administration does not deem it feasible to assign to the disposal agencies herein named surplus war property in the possession or control of the foreign establishments of the State Department, when disposed of abroad in accordance with section IV-5 of the Foreign Service Regulations of the State Department.

(3) By direct action without formal amendment to this regulation, the Administration may exempt surplus war property, or any type or class thereof, in the control of any agency from the operation of some or all of the provisions hereof.

Amendments. Regulation No. 1 is hereby amended as follows:

1. Part I B (1) is amended to read as follows:

(1) All industrial real property, and all other real property of every character of which the owning agency is the War Department, the Navy Department, the United States Maritime Commission or Reconstruction Finance Corporation or a subsidiary thereof, including buildings and fixtures, other than real property disposed of under part I C, I E, or I F (2) hereof.

2. Part I E is amended to read as follows:

E. *National Housing Agency.* There is hereby assigned to the National Housing Agency for disposition all surplus war property of the class of housing property. Housing property shall be deemed to include community facilities financed through the National Housing Agency which are located on the sites of, or erected for or used in connection with, housing projects, in cases where, due consideration being given to the adjoining community's rights in or partial use of such facilities, disposition thereof in conjunction with the disposition of the housing project is deemed by the National Housing Agency to be desirable and in the public interest. Housing property shall not be deemed to include vacant land, or structures other than houses, remaining after the houses of a housing project have been removed, demolished or otherwise disposed of.

3. Part I F is amended to read as follows:

F. *Federal Works Agency.* There is hereby asisgned to the Federal Works Agency for disposition all surplus war property of the following classes:

(1) All non-industrial real property of every character, including buildings and fixtures, other than that disposed of under part I B or I E hereof.

(2) All comunity facilities financed through the Federal Works Agency.

4. Part II C (1) is amended by inserting the following sentence between the first and second sentences of subparagraph (b): "All reports of surplus war property which is non-industrial real property shall be made on Form SWPA-5 which shall be used in the manner set forth in the instructions accompanying such form."

5. Part II C (2) (a) is amended by changing the proviso therein so as to read as follows: "*Provided, however*, That (a) termination inventory property located within the continental United States, its territories and possessions may be reported to the appropriate regional office of Reconstruction Finance Corporation, and (b) where it proves impracticable to make a sufficiently complete segregation of the various classes of supply property of the Army or Navy similarly located, this regulation shall be deemed to be complied with if such supply property is reported to the appropriate regional office of the Procurement Division of the Treasury Department;"

Part II is further amended by adding the following paragraph at the end thereof:

D. *Where owning agency is disposal agency.* Where an owning agency determines property to be surplus to its needs and responsibilities, and such surplus war property is of a class which is assigned to that same agency as a disposal agency hereunder, the reporting procedures set forth above shall not be mandatory: *Provided, however*, That adequate book records shall at all times be maintained, in a manner submitted to and approved by the Administration, clearly segregating from all other property under the control of the agency, property which it has determined to be surplus and which it holds for disposition pursuant to this regulation, and that information as to property so held shall be made available for inspection, circulated and reported in the same manner as information with respect to surplus war property declared to it by other owning agencies. For purposes of this provision, the subsidiaries of Reconstruction Finance Corporation through which that Corporation acts in dispositions hereunder, and that Corporation itself, may be treated as a single agency.

(7) Part III C is amended by adding at the end thereof the following paragraph:

(6) *Miscellaneous.* Owning agencies may dispose of property produced as a result of industrial, research, agricultural or livestock operations, or residual to any public works construction or maintenance project, carried on by them, to the extent authorized by existing law, under established procedures and methods of the agency, if such procedures or methods have been filed with the Administration. Such sales shall be reported to the appropriate disposal agency in such manenr and at such times as such disposal agency shall direct.

8. Part III E is amended by adding the following subparagraph at the end of paragraph (2):

(c) In the case of surplus real property the owning agency will protect and maintain the property until disposed of by the disposal agency, unless the disposal agency shall theretofore assume responsibility for such protection and maintenance. Accountability for such property will remain in the owning agency until such disposition or assumption of responsibility by the disposal agency.

9. Part VIII is amended by adding the following sentence at the end thereof: "Except in cases of withdrawal of property by the owning agency pursuant to part III D (2) hereof, disposal agencies shall transfer surplus war property to acquiring agencies at the fair value thereof as fixed by the disposal agency, unless transfer without reimbursement or transfer of funds is specifically authorized by law."

[Reg. 2]

POLICIES FOR DISPOSAL BY RECONSTRUCTION FINANCE CORPORATION OF CERTAIN REAL ESTATE

Scope of regulation. This regulation establishes policies to be carried out by Reconstruction Finance Corporation in the disposal of surplus real estate, other than industrial real estate, assigned to it for disposal by the Administration's Regulation No. 1 as supplemented effective August 1, 1944.

The policies here stated are thus not made applicable to disposals of surplus industrial plants, housing property or community facilities. Such disposals present special problems with which the appropriate disposal agencies are familiar, and in some instances are governed by special statutory provisions.

The principles embodied in this regulation are nevertheless believed to be basically sound in connection with disposals of all types of surplus real estate, and it is recommended that they be observed in the disposal of industrial plants, housing property and community facilities to the extent consistent with the special problems and statutory requirements governing such disposals.

I. *Basic principles*—A. *Objectives.* In disposing of surplus war property consisting of real estate other than industrial, Reconstruction Finance Corporation shall seek to achieve the following objectives:

(1) To sell as promptly as possible at current values without undue disruption of the market.

(2) To sell outright, using leases only as temporary measures and reserving the right of Government recapture only if national defense so requires.

(3) To sell in family-sized parcels and to purchasers who will themselves put the land to productive use.

(4) To give former owners an opportunity to repurchase their land at current market value.

(5) To avoid sales to speculators or persons planning to combine small tracts into large ones for speculative purposes.

II. *Relations with Government Agencies*—A. *Consultation and assistance.* Reconstruction Finance Corporation shall request the War Department, the Navy Department, the Department of Justice, the Department of Agriculture, the Department of the Interior, the Public Buildings Administration, the National Housing Agency, the Civil Aeronautics Administration and such other agencies as Reconstruction Finance Corporation may from time to time select, each to designate a representative to serve on a Surplus Real Estate Advisory Committee to give advice, suggestions and recommendations to Reconstruction Finance Corporation with reference to the problems of real estate disposal. Reconstruction Finance Corporation may also call upon other Federal agencies for the performance of appropriate functions in connection with a disposal program or for the temporary assignment of technical personnel, on a loan reimbursable basis, for employment under Reconstruction Finance Corporation supervision.

Procedures shall be developed for consultation and cooperation of field agencies.

B. *Transfers to Federal agencies.* (1) Surplus land which has been used by an owning agency by permit from another Federal agency, shall be returned to the original Federal agency as soon as practicable. Such lands, however, which have Government owned improvements thereon, need not be returned to the original Federal agency until disposition has been made of the improvements.

(2) (a) Surplus land, upon request and proper authorization from another Federal agency, shall be transferred to the requesting agency; arrangements shall be made for suitable notice of the availability of surplus lands to agencies which seem likely to be interested.

(b) Submarginal and marginal lands, in certain instances, may be temporarily withheld from the market and called to the attention of the Federal agency which is usually interested or which usually administers such land, in order that it may conduct an investigation and request transfer to it of such land.

(c) Surplus lands which are intermingled with, contiguous or proximate to Federal land use projects and which are of the same general character as the original Federal project and suitable for inclusion therein, may be transferred to the Federal agency administering the primary area upon receipt of request and proper authorization. Such intermingled land further shall be temporarily withheld from sale and called to the attention of the interested Federal agency in order that it may conduct an investigation and request such transfer.

(d) Transfers made pursuant to paragraph 2 (a), 2 (b) or 2 (c) above shall be made for a reimbursable amount representing the fair market value, as determined by the Reconstruction Finance Corporation, unless a transfer without reimbursement or transfer of funds is valid under law.

(3) In general where restoration of lands, which are to be returned to other Federal agencies, has not been effected by the owning and declaring agencies, the Reconstruction Finance Corporation shall consult with the declaring agency and recommend to the Administration a course of action, when such appears feasible and the cost thereof reasonable, which may enable restoration of the land to be made.

C. *Transfers to State agencies.* Cases in which a preference to purchase or lease has been requested by States, counties, municipalities, or political subdivisions thereof, shall be referred by the Reconstruction Finance Corporation with full information and recommendations to the Administration for its decision.

III. *Commercial Sales*—A. *Disposal plans.* Reconstruction Finance Corporation shall establish procedures whereby, prior to disposing of any substantial land area, such as a camp site or air field, a general disposal plan for the entire area shall be prepared, with the recommendations of the appropriate field representatives, giving full consideration to views of local individuals, groups or organizations, and approved by Reconstruction Finance Corporation in Washington, D. C.

B. *Appraisals.* All disposals shall be preceded by appraisals obtained by Reconstruction Finance Corporation Disposing Loan Agencies. Appraisals shall be made only by experienced individuals who are qualified to do such work. Such individuals may be staff appraisers of Reconstruction Finance Corporation Disposing Loan Agencies, individuals employed on a loan reimbursable basis from other Federal agencies or independent appraisers in private business. Individuals making appraisals shall be selected from the local territory in which the land to be appraised is located. In sales projects, where a large number of tracts are to be sold, review spot check appraisals shall be made in the field and all appraisals shall be reviewed by qualified individuals designated as chief appraisers. The basis of appraising shall be the estimation of fair market value which may be defined as the highest price in terms of money which land will bring, if exposed for sale in the open market with reasonable time to find a purchaser, buying with a full knowledge of all the uses and purposes to which it is adapted and for which it is capable of being used. The estimated fair market value of any parcel of real estate shall be for its entirety although the estimated value of land and improvements may be indicated separately as a memorandum. All appraisal reports shall contain the appraiser's certification that he has no interest, direct or indirect, in the property or sale or disposition thereof. Appraisers shall be requested specifically to give full consideration to market values and trends in the territory where the property is located which he is appraising.

C. *Surveys, plats and layouts.* All real estate to be sold shall be adequately identified by legal description in order that prospective purchasers may know exactly where the property is located and its area. Surveys shall be made, when necessary, and markers or monuments will be placed on the land. While agricultural and other rural land should ordinarily be replotted into family-sized units, it is not contemplated that urban land will be replotted, unless replotting will permit more advantageous sales for the Government. Cooperation shall be maintained with local officials in the matter of providing for roads and other public utilities in replotting land. Orderly and complete disposal, maintenance of market stability and provision of full economic and productive opportunity to purchasers, may necessitate the subdividing of land into economic use or operating unit areas, without regard to the size of the original tracts acquired by the Government.

D. *Selection of buyers.* Every effort shall be made to find buyers who will purchase surplus real estate for use and not for speculation. Surplus land shall be sold only in useable units and shall not be sold in large blocks for speculation or to buyers who may wish to assemble large areas of land for speculative future use. When a land unit of sale approximates the original tract, the former owner shall ordinarily be granted a preference to buy at the fair market value as determined by the Reconstruction Finance Corporation. In other cases a preference shall usually be granted to former owners in the area being sold, to purchase any available tract at the fair market value as determined by the Reconstruction Finance Corporation. Such preferences shall be for a reasonable period following publication and written notice to the former owner at his last known address. Preferences referred to herein shall not be extended beyond actual former owners or surviving spouses.

E. *Sales methods and prices*—(1) *Prices.* Surplus war real estate shall be sold at fair market values or at prices representing a reasonable departure therefrom, regardless of its original cost.

(2) *Procedures.* Wide publicity and advertising shall be given to all sales. Advertising shall be through local newspapers and publications and sale signs shall be posted on lands to be sold. Sales may be made by informal bids, sealed bids, or by negotiation. Negotiated sales are considered preferable and should be used more extensively than other methods. Bids shall be subject to rejection, if offers are not considered satisfactory. Adequate cash deposits will be required with each bid. Sufficient time shall be allowed, in the terms of bids or offers from purchasers, to permit adequate consideration and for determinations by the Reconstruction Finance Corporation Board of Directors. In the event it is determined that surplus real estate cannot be sold within a reasonable period, it may be leased by short-term-leases in order to obtain the maximum return pending such time as it may be sold.

(3) *Brokers.* Where, in its judgment, disposals will thereby be made to the better advantage of the Government, Reconstruction Finance Corporation is authorized to utilize the services of approved and established real estate brokers. No exclusive listings of real estate shall, however, be made with brokers. Brokers shall not be paid a commission for leasing or selling real estate to another Government agency or to an individual, firm or corporation sponsored by another Government agency. Commissions not to exceed established conventional rates, ordinarily paid in a particular community, may be paid to brokers who perform the service of producing buyers and negotiating sales to them. Such commissions shall be paid only after sales transactions have been consummated and a further requirement shall be that the buyer will execute an affidavit to the effect that the broker to whom the commission is to be paid is the only broker whom he recognizes or had any dealings with in connection with the sale and that the broker did perform such services as are ordinarily performed by a broker in bringing buyer and seller together.

(4) *Salesmen.* Sales managers and salesmen may be individuals in the employ of the Reconstruction Finance Corporation Loan Agencies, individuals employed on a loan reimbursable basis from other Federal agencies or independent brokers. Salesmen shall be thoroughly instructed as to their duties and manner of performance before entering upon such duties.

F. *Financing.* The Reconstruction Finance Corporation shall assist in the financing and extending of credit terms to purchasers, calling to their attention the availability of the loan facilities of other Federal agencies, as well as life insurance companies, mortgage loan institutions and other private financing sources, and making such use of its own loan facilities as are consistent with its lending policies and needed to facilitate the disposal program. The amount of such financing and terms in each case, of course, will depend upon the loan policies of the agency or institution providing such accommodations. All sales, however, shall be firm and not speculative and adequate cash payments shall be required. Purchasers shall be required to provide insurance coverage to protect the interest of any mortgagee.

G. *Conveyances.* All conveyances of surplus real estate shall be by the usual quit claim deed or by other appropriate conveyance without representation or warranty. Purchasers may be permitted to copy or inspect any title papers which are in the possession of the Government, at their own expense and at a place designated by the Reconstruction Finance Corporation. Every facility now available to the Government shall be made available to purchasers to minimize the cost of title examination to them. Deeds may provide for a recapture clause in the event that land being conveyed may be required again by the Government in a future National emergency. Decisions as to whether conveyances will contain recapture clauses, shall be made after recommendations have been requested and received from the interested Government agencies such as War Department, Navy Department, Civil Aeronautics Authority, etc. In general, conveyance instruments shall be of such nature as to vest title in private ownership in order that real estate may be put back on a tax paying status. Sales contracts, in which the Government retains title may be made in exceptional cases when such procedure may be absolutely necessary. Such cases, however, shall be kept at a minimum.

H. *Records and publicity.* The Reconstruction Finance Corporation shall assemble and maintain adequate and comprehensive records which will indicate clearly the extent of investigation and analysis which it has made in developing disposal plans and in testing out the market prior to making sales. It shall also adopt procedures for keeping the public fully advised of its progress and plans with reference to the disposal of surplus real estate.

I. *Relations with Administration.* The Administration shall be consulted prior to the making of any major changes in the organization of Reconstruction Finance Corporation for the handling of real estate disposal, or in its mechanics, policies or procedures for such disposal, and also prior to the making of any major disposals which may involve questions of policy or the establishment of a precedent.
